BERA FILM SERIES DOUBLE FEATURE

Thurs., June 24 — Lecture Hall — 8:30 P.M.

THE DEVIL'S ENVOYS

"And so in the beautiful month of May, 1485, the Devil sent on earth two of his creatures in order to drive the human beings to despair."

—IV CENTURY FRENCH LEGEND

A medieval fantasy of love and beauty in which two selfish lovers, as emissaries of the Devil, are sent to a great castle where they cast a spell over a betrothal celebration and use their own charms to seduce the betrothal couple. Filled with poetry, slow tension and counter-irony, and a pictorial beauty of softly luminous photographic effects, "The Devil's Envoys," made during the occupation, represents a deviation from the poetic realism of Director Marcel Carne's pre-war films into a magical medieval atmosphere far removed from contemporary ugliness.

"You should not fail to see it."

—NEW YORK TIMES

"Beautiful love scenes as only the French can do them."

—NEW YORK WORLD-TELEGRAM

THE SOUND OF TRUMPETS

"Life continually holds out to us unexpected hope, for which we must not let ourselves be unprepared."

—ERMANNO OLMI

The delicate bridge between childhood and manhood, between school-days and workdays, between the freedom of youth and the inexorable accommodation to the world's great ma-

(Continued on page 2)

GILLIGAN'S ISLAND — A GREAT SUCCESS!!

Chalk up another one for BERA — the Gilligan's Island Dance was a smashing success! The Nuclear Engineering Department's dance committee, which had been working since last March, provided a real island paradise atmosphere. Notable among those who were responsible for its creation are Joyce Wasson and Trudi Neuhoft, who originated the palm tree motif; Richard Haller, whose mural centralized the theme; Wes Ripperger, who did the layout design of the island and the art work which publicized Gilligan's arrival; Bob Watson, whose hard work helped fabricate the cottage, etc.; and Joan Kreitzberg, who lent a helping hand in all capacities. Lucille Duvall, chairman of the committee, would like to extend her thanks to the many people who contributed their time and energy to decorating the Gym and also for their thoughtful gift which left her flabbergasted at the bandstand! Everyone extends congratulations to Lucille, whose untiring efforts made this one of BERA's most successful and beautifully decorated dances. Thanks are also in order to Roy Stong for his many contributions to the effort, but mainly for taking over as Gilligan and emceeing the dance.

THANKS! THANKS!

CAFETERIA AND CENTER HOLIDAY SCHEDULES

The Brookhaven Center will be closed on Monday and Tuesday, July 5 and 6.

At the Cafeteria, the Snack Bar only will be open on both of these days, from 9:00 a.m. to 5:00 p.m. The food vending machines there will be in operation throughout the holidays.

THEATRE GROUP ANNOUNCEMENT CORRECTION

The Theatre Group meeting planned for June 30 will take place in the Theatre, not in the Apartment Area Recreation Hall as previously announced.

All newcomers and summer visitors are welcome to attend the meeting. The program will consist, in part, of prepared readings from Kenneth Brown's "The Brig."

FORTY-EIGHTH BROOKHAVEN LECTURE

By: Eugene P. Cronkite

Medical Department

Title:

"Extracorporeal Irradiation of the Blood and Lymph in the Study of Normal and Leukemic Cell Proliferation"

Lecture Hall — Wed., June 23 — 8:00 p.m.

"Steady state" cell proliferation throughout life is a characteristic of various mammalian organ systems. This general problem will be considered specifically by Dr. Cronkite in respect to the ubiquitous, migratory lymphocyte, a member of the white blood cell family. This cell is closely related to the development of immunity and types of leukemia. Its migratory habit produces a ceaseless traffic of lymphocytes between blood and the lymphocytic organs. Thus the technique of extracorporeal irradiation of the blood or lymph permits the killing of the radio-sensitive, migratory cells while in transit through the blood or lymph, disturbing the steady state equilibrium between production and death of the lymphocytes. The capability of this technique to deplete the body of lymphocytes, suppress the immune reactions of

BROOKHAVEN LECTURE — (cont'd.)

the body against transplanted foreign skin and to kill leukemic cells in transit through the blood will be illustrated.

A buffet supper (\$3.00) will be served at the Brookhaven Center before the lecture, beginning at 6:00 p.m. Reservations should be made at least one day in advance by calling Ext. 2302 before 5:00 p.m. or Ext. 2453 in the evening.

Refreshments will be available in the Research Staff Lobby following the lecture.

BERA FILM SERIES — (cont'd.)

The Sound of Trumpets

chine, is the subject of Ermanno Olmi's first full-length film, "The Sound of Trumpets." It is a marvel of understated commentary, betraying Olmi's origins as a maker of documentaries only in its firm delineation of the exterior world.

We follow Domenico from his pre-dawn awakening in a remote suburban apartment to his first encounter with the giant corporation that is to become his waking life. We see the vast impersonality of the unnamed corporation and its meaningless exams and psycho-technical tests. During one of the tests he meets another nervous applicant, the girl Antonietta, and hopes for their friendship flare immediately. At the moment the only job for Domenico is messenger boy, but it is a vantage point from which he can observe all the petty politics, the rigid pecking-order, of his new world.

Thoughts of Antonietta rise once more at the staff dance on New Year's Eve, but she does not appear amid the tinny sound of trumpets, the clattery drums, that welcome in the future. And finally, the future shows itself in Olmi's vision of mechanized twentieth century futility.

"... a harsh and heartfelt testament to our days, done with the integrity of the artist and the beauty of truth. It is masterful because Olmi's concern with the individual leads him to see the drama in a detail, the importance of the trivial, recorded with care and cumulative power until we are caught, unaware, in a climax that is shattering in its inevitability."

—JUDITH CRIST,
NEW YORK HERALD TRIBUNE

COMING NEXT WEEK

"THE GUEST"

Based on Harold Pinter's "The Caretaker"

NURSERY SCHOOL TEACHERS NEEDED

The nursery school which will start at the Lab this fall is seeking experienced teachers. Anyone who wishes to have further information and obtain application forms should write to Mrs. Moon, in care of the Medical Department, or telephone Ext. 2785.

BRIDGE GROUP

The Hospitality Committee women's bridge group (newcomers and old-timers, of course) will meet again on Tuesday, June 29, at 8:00 p.m. This time, because the Center had been previously committed, the bridge-playing will take place in the apartment area Recreation Building.

AROUND THE BASE PADS

by Bob Carciello

At the end of last week, sixty-three scheduled ball games had been completed. Metallurgy continued to stay right with the Blue Jays for the league lead behind Bob Jones' razzle-dazzle pitching as Metallurgy whitewashed the Atom Rays 7-0. Meanwhile, the Birds finally broke loose with a hitting spree upon Medical, crushing them 19-3. Cosmotron stayed in third place by downing the Dirty Sox 15-9.

Much to the chagrin of the Braves, they lost their first contest of the season. The Old Timers, after dropping their first two efforts of the season, won their fifth straight and spoiled the Braves' perfect record by beating them 13-4. The Floorwalkers, who are still in the thick of things in this National League race, defeated the Bubble Boys 21-12.

Over in the senior circuit, the Potsareebies are once again sole owners of first place. Bill Crockett and Bob Wilson each banged out home runs to spark a 9-5 Potsareebie victory over the Deadwoods. Incidentally, Tom Lanigan of the Deadwoods hit a three-run homer off Potsareebie pitcher Dan Leahy that literally would have been lost in the woods had the ball not hit the top of a pine tree in left field and bounced back out of the woods. John Daly's tremendous speed and daring base running was not enough to overcome the Odd Balls in a contest in which Dick Bowman hit a homer to aid his teammates to a 17-12 victory over the Mixups. The Phoubars' good speed, hitting, and fielding helped them smash the Mets 32-9. ("Let's go Mets!")

POOL SCHEDULE CHANGES

The Pool will remain on its winter evening schedule through Friday, June 18.

TUES. — WED. — THURS. — FRI.
5:00 p.m. to 10:00 p.m.

Beginning Monday, June 21, the summer schedule of rates and hours will be as follows:

POOL OPEN MON. THROUGH FRI.
2:30 p.m to 9:30 p.m.

1965 TENNIS TOURNAMENT

The 1965 BNL Tennis Tournament is scheduled to get underway in the early part of July. Entries are now being accepted for Men's and Ladies' Singles, Men's Doubles and Mixed Doubles.

Simple elimination (one loss and out) will be held in each event, provided enough entries are forthcoming. Participants are scheduled to play one match each week, with the date, time and courts to be mutually agreed upon by the opponents.

The Tournament will officially begin the week of July 12. The **deadline** for entries is July 8. A fee of fifty cents per person for each event entered must accompany the registration.

Register now at the Recreation Office.

FISH TALES

Entries in the BNL Fishing Contest for April and May have been tabulated, and if you didn't have an entry, you missed the boat. Let's get more entries!

A fabulous spring saw linesiders predominating on the North Shore, with big blues moving in. However, awards went to the sweet water division. John McCafferty took honors with a fine 2 lb. white perch and the average fish award went to John Pontieri with a 1½ lb. brook trout. Both men are from the Nuclear Engineering Department.

Offshore activity begins now, so heavy entries can be expected with lots of surf action on both shores.

Remember to attend an interesting meeting on conservation at BNL on July 13. Good fishing and tight lines!
