## BNL SHORT SUBJECTS

### Inter-League Bowling Match

During the week of October 25, all our league teams will roll in a special event inter-league competition, sponsored by our Bowling Executive Board. Ladies and Mr. & Mrs. teams will be assigned a 120 blind plus handicap. Bowling on their regularly scheduled league night, the team knocking over the greatest amount of pins plus their handicap will be the winner. List of prizes will be announced at a later date.

### Brookhaven Lecture Tonight

Nobel Laureate C.N. Yang, Institute of Advanced Studies, will present a lecture entitled "Symmetry Principles in Physics." A buffet supper (\$3.00) will be served at the Brookhaven Center starting at 6 p.m. Lecture: 8 p.m. at the Lecture Hall. Refreshments will be available in the Exhibit Hall following the lecture.

### Swimming Pool Opens

The pool will begin its fall schedule on Tuesday, October 19, as follows: Tuesday, Wednesday, Thursday, Friday, 5 p.m. to 10 p.m.

Season Tickets:

Employee.....\$ 5.00

Family.....10.00

Daily Tickets:

Employee (or family member).. .35

Guests......60

Children (under 6).....FREE

All tickets are on sale at the pool office only.

## BOWLING NEWS . . .

News is slowly trickling in as the keepers keep bowling along!

There has been a switch in the standings of the Red League. The Ah Soss and the No Names, who were battling for first place last week, have now dropped into the third and fourth notches. Bob Watson's Twisters hold first place by one point. John Van Norman, of the Twisters, rolled a 200 scratch in the second game.

Bob Wilson, of the Black & Blues, joined the 678 Club when he came in with a 683 gross series. A demonstration of the art of converting splits was given by Ed Dexter when he converted six out of six.

**JUST IN CASE YOU'RE WONDERING** what that ditch across the village green is all about - relax, it's not a permanent disfigurement, it's an excavation for a new loop of steam pipe. The steam conduit will improve the distribution of steam in the northwest section of the Lab.

### LILIAN KALLIR, PIANO, OPENS CONCERT SERIES

The first concert in the BERA Concert Series for the 1965-1966 Season will be given by Lilian Kallir on Wednesday, October 20, at 8:30 p.m. in the Brookhaven Center.

Miss Kallir ranks with the most distinguished young American pianists. In addition to being a highly acclaimed recitalist and chamber music player, she has appeared as soloist with most of the major orchestras, under such conductors as Mitropoulos, Karajan, Kondrashin, and Guilini. The program will feature:

Sonata in C major.....HAYDN

Eroica Variations.....BEETHOVEN

6 Preludes.....CHOPIN

Sonata No. 3 in B minor,

Op. 58.....CHOPIN

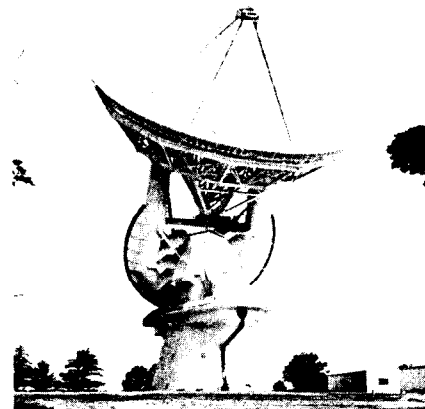

Season tickets: Adults, \$10.00; Children (under eighteen years old), \$5.00. Single admissions: Adults, \$3.00; Children, \$1.50; Non-employee guests, \$3.50.

### Notes and Comment.

The Bulletin Board Editor has moved Case Institute from Chicago to Cleveland, where it belongs, without cracking a test tube.

### GREEN BANK'S NEW TELESCOPE

The National Radio Astronomy Observatory at Green Bank, West Virginia, today dedicated their new 140-foot-diameter, fully-steerable radio telescope.

scope. Dr. Leland J. Haworth, Director of the National Science Foundation and former BNL Director, was the keynote speaker at the dedication ceremonies; Dr. Theodore P. Wright, immediate Past President of AUJ, also delivered an address. NRAO, like BNL, is run by Associated Universities, Inc.

**THE "SPECIAL PLACE"** — This youngster has been relegated to what in another generation would be the "corner." The "special place" is for children who run, who throw cookies, and in general, are designated out of step.

## SCHOOL BELLS RING AT APARTMENT AREA

Where is Stevie's mo-thurr?

With that plaintive cry from a harassed teacher, the first week of the Upton Nursery School came to a close. By 12:10 p.m. Friday, the last block had been retrieved from under the piano, the last jigsaw puzzle had been unscrambled, the last four-year old had been retrieved by the proper parent and once more the recreation hall in the Apartment Area had the proper atmosphere for the Jerk and the Monkey.

That Friday and the previous Wednesday, from 8:30 till noon, the Rec Hall had been filled with 41 three-to-five-year-olds in various stages of whoopee. A head teacher, two assistant teachers and two "Helping Mommies" kept the children from committing the more anti-social acts and supervised the play periods.

"What we're trying to do here," said Head Teacher Ruth Brewer, "is develop the child emotionally, physically, socially, and mentally." Mrs. Brewer, with associate teachers Peggy Goldberg and Rene Bloch, have the job of providing the youngsters with creative play three half-days a week. The task is slightly complicated by the fact some of the children speak only their native language. Represented are Dutch, Swedish, German, Japanese, French, Hebrew, English, and American (the teachers draw this fine distinction between the last two). But so far, there have been no major problems. "The language of children is universal," Mrs. Brewer said.

The school itself is a non-profit, co-op project open to all children between the ages of three and five who have a parent employed at the Lab. Sessions last from 8:30 to 12 Mondays, Wednesdays, and Fridays at a cost of \$20 per month for each child. Besides the three salaried staff teachers, three mothers are expected to be present for each session to help keep order and to issue mid-morning ration of juice and cookies.

Responsibility for the administration of the school lies with the Executive Board, made up of Victor Emery, Chairman; Marshall Elzinga, Vice-chairman; Satoshi Ozake, Treasurer; and Irene Moon, Secretary. "It's a good school, and it solves a real need," Emery said. "We're oversubscribed and we have six on a waiting list." ✕

**RULES AND REGULATIONS**—Mrs. Brewer gives the message as student's

After the first week of operation the Upton Nursery School  
has completed its shakedown and is set to go.  
Forty-one children speaking at least seven different  
languages meet three times a week in the Rec Hall.

---

Cryin' the First Day Blues.

ners look on.

SCHOOL'S GOURMET CLUB discusses what will be on the menu for the  
mid-morning snack. It turned out to be Bollinger  
Fruit Juice '65 and cookies a la maison.

## Camping Club Meets

The first regular monthly meeting of the Brookhaven Family Camping Club will be held at 8 p.m., October 21, in the Recreation Building.

Seymour Protter, Reactor Division, (right) congratulates Raymond Cabre and presents him with a membership certificate in the Wise Owl Club of America. This is a club of persons whose eyesight has been saved by the use of eye protection. Ray's eyes were saved by his safety glasses in a chemical explosion on July 23rd at the HFBR. The insert shows the safety glasses after the accident.

## BNL Skindivers Club to Reorganize

The BNL Skindivers Club, which has been inactive for the past 18 months, will be returned to active status Monday evening, October 25th. The meeting, which will be held at 8 p.m. in the Recreation Hall on York Lane, will be a reorganization meeting. All previous members interested in club activities are urged to attend, and new members will be welcomed, whether experienced diver or beginner.

The Club, which was organized in 1958, has many unusual advantages. The BNL pool is used by Club members for practice and training. The Club has an excellent assortment of equipment, which may be borrowed by members, from a porta sub, to a depth sounder. The club has, in the past, given a number of 8-week training courses in skin and SCUBA diving. Almost two hundred employees and family members have taken the course, and it is hoped it can be given again this year. For further information contact A. Feltman, Ext. 2249 or R. Young, Ext. 591.

## Discounts for "Baker Street"

Discount coupons, good through October 30, are now available for "Baker Street," playing at the Broadway Theater, New York. They can be picked up at the Recreation Office.

## McCAFFERTY LANDS PERCH AND NIRA AWARD

BNL's Fishing Group has a fish story to tell - a true one. Group chairman, John McCafferty of Nuclear Engineering, entered the National Industrial Recreation Association's Annual Fish Derby and captured the title "White Perch Fishing Champion of the Year, 1965," when he landed a two-pound beauty.

A total of 31 companies entered contestants in the 8th annual event; the largest representation in the tournament's history. Each time a contestant hooks a "big one" he mails a blank to NIRA giving the details. The official judging is done by the American Fishing Tackle Manufacturers Assn., a co-sponsor with NIRA. The winning fisherman is the one with the greatest number of points. There is a winner for each division - fresh and salt water, and for each species of fish. At the end of the year the grand champion is treated to a weekend at North Manitou Island in Lake Michigan, a popular fishing and hunting retreat. Prizes are awarded to each month's salt and fresh water division winners.

McCafferty was presented with a scroll certificate by the association in recognition of his capture of the two-pounder.
