## HAPPY THANKSGIVING

### THANKSGIVING HOLIDAYS

Thursday, November 25, and Friday, November 26, will be observed as Laboratory holidays.

#### Pay Checks

Weekly pay checks will be distributed to the departments by inter-office mail on Wednesday, November 24. Shift workers scheduled to pick up their checks on Thursday or Friday may have the checks mailed to their homes on Wednesday, November 24, by advising Payroll of their mailing address no later than Tuesday noon, November 23.

#### Time Cards

Weekly time cards should be delivered to Payroll no later than 10:00 a.m. on Monday.

#### Post Office Hours

The Post Office at Upton, N.Y. will be closed November 25, but will be opened again on November 26 from 8:00 a.m. to 3:00 p.m.

#### Bank Hours

The on-site People's National Bank facility will keep regular pay day hours (9:45 a.m. to 12:00 noon and 12:30 p.m. to 4:00 p.m.) on Wednesday, November 24. On Friday, it will be open from 10:00 a.m. to 3:00 p.m.

#### Eating Facilities

The Brookhaven Center and the Cafeteria will be closed on Thursday and Friday, November 25 and 26. The Snack Bar in the Cafeteria will be open from 9:00 a.m. to 2:00 p.m. on both of these days.

### NO BULLETIN BOARD NEXT WEEK

Due to the short work week and editorial advance planning, the BULLETIN BOARD will not publish on Wednesday, December 1. The next issue will be on Wednesday, December 8.

#### AUI Scholarship Forms Due

Completed application forms for the AUI Trustee Scholarships, announced in September, must be in the hands of Educational Testing Service no later than November 30. For information call Office of Scientific Personnel, Ext. 7741.

**CAPITAL EQUIPMENT ROSTER**—In the foreground, Harold Bates (left) of the AEC office discusses the capital equipment program with Phil Borzi of Supply and Materiel. On the table are rosters of capital equipment held by each department and division.

## SUPPLY AND MATERIEL READIES "EQUIPMENT CLEANUP WEEK"

Supply and Materiel is sponsoring a "Capital Equipment House-cleaning Week" designed to weed out obsolete mechanical and electronic equipment, and to cut down on the individual departments' accountability. To publicize "Equipment Cleanup Week," the week of December 6, Frank Walsh, head of Supply and Materiel Division, invited those responsible for capital equipment accountability to a coffee session and informal briefing on the equipment drive.

In explaining the reasons for the week, Walsh said: "With regard to electronic/mechanical equipment, many Departments retain several pieces of like equipment for emergency spares. It is strongly urged that, if possible, a portion of this 'back up' equipment be turned into the Central Pools who will repair and maintain an adequate supply of general purpose items. The quantity of items to be 'pooled' will be established in conjunction with major users."

### More Coffee . . .

Members of the Hospitality Committee again invite women in the apartment area and in the various villages and towns around the Lab, who are interested, to join them over coffee at the Recreation Building on Monday, November 29 from 10:30 till Noon. Please feel free to wear slacks if you like and bring the children. You will meet your present neighbors and, we hope, others from off-site who will be happy to answer questions about the Laboratory and about surrounding areas.

### Camera Club Meets

There will be a color slide showing at 8:15 p.m., Thursday, December 2, at the Recreation Building.

### Marksmen End Tourney, Barton Takes Honors

The Rifle-Pistol Club completed its Fall outdoor rifle tournament Sunday, November 21, with a flurry of high scores. George Barton, with first place already nailed down, came through with a blazing 177. Al Lukas fired a 162 to move up to second place. Frank German took third. Their averages for the seven-week tournament were 163, 150, and 141 respectively. Charles Thiessen, who showed steady improvement throughout, demonstrated himself as a future contender when he shot a 137 on the final Sunday. Walter Kane and Roy Domish had averages of 155 and 148 respectively but did not compete the required four Sundays out of seven.

## GOLDHABER NAMED ADJUNCT PROFESSOR AT STONY BROOK

Dr. Maurice Goldhaber will be an Adjunct Professor of Physics in the graduate program at the State University of New York at Stony Brook and will suggest thesis problems to graduate students.

The development of the graduate program of the State University at Stony Brook will continue to rely mainly on the appointment of full-time faculty members, Dr. Toll, Stony Brook president, explained. However, a small number of adjunct professorships will be created for especially outstanding scholars and scientists available in the region for part-time participation in graduate programs.

"The appointment of Dr. Maurice Goldhaber as our first adjunct professor is an indication of the extremely high caliber that will be expected for these part-time appointments," Dr. Toll said.

## GOLF GROUP BOARD MEETS, SETS RULES

At a meeting of the Brookhaven Golfers Association board, it was agreed that . . .

Short-term guests of the Laboratory could use the BGA equipment on approval of an officer of the association. Summer employees and summer guests are expected to join the BGA in order to use the equipment and facilities.

The possibility of establishing golf leagues was discussed, and a questionnaire will be sent to members for their opinions.

The 1965 membership cards are good until March 1, 1966. Members will be sent renewal forms prior to this date. The registration fee for 1966 will be \$3.00, as in the past.

## NINE WIN TURKEYS IN BOWL-OFF

The following bowlers from each league won turkeys given out by the bowling alleys last week.

Green League	R. Wilson
Red League	E. Rutan
Gray League	R. DeGregorio
Pink League	H. Jefferson
Rose League	I. Carl & J. Odwazny
Purple League	F. Duggan
Blue League	G. Speidel

February 10 **Mafioso**, Un Chien Andalou  
Movies are shown on Thursday evenings at 8:30 in the Lecture Hall.

**DANNY ZELEM**, Delegate for Federal Labor Union 24426, is presented with an attache case by Dave Papa on behalf of the Transportation and Mechanics crew. Zelem will represent 629 Lab workers at the National Convention of the AFL-CIO in San Francisco from December 9 to December 17. Union members took up a collection to pay for the trip.

## GLENNAN, AUI, URGES NEW TEACHING METHODS

T. Keith Glennan, new AUI President and for 18 years President of Case Institute of Technology in Cleveland, called for a breakthrough in methods to increase the effectiveness of the educational process.

Writing in the November 20th issue of *THE SATURDAY REVIEW*, Dr. Glennan mentioned three aspects of the contemporary educational processes that he termed problem areas. He listed, "Motivation, the reinforcing of the drive to learn;" he said that "we have not learned to recognize and develop creativity"; and he expressed concern over "the slow rate of progress made in developing new and better methods of teaching."

## FOR STAR GAZERS

Laboratory astronomers might be interested in knowing that the library has acquired a 16" transparent celestial globe.

It is described in the brochure thusly: "This transparent star globe can be set to show star, sun and planet positions at any time and any place to demonstrate basic earth-space relationships. The star map shows principle stars to the fifth magnitude, names major stars and constellations, and includes the ecliptic, right ascension and declination scales."

## 200-BEV EVALUATION TEAM STUDIES LAB'S SUITABILITY

Yesterday a four-man, AEC-sponsored evaluation committee spent the day at the Lab to study the suitability of the Laboratory site as the location for the planned 200-BeV particle accelerator.

In the morning, the team was conducted on helicopter and automobile tours of the site and inspected some of the existing high-energy physics facilities. The afternoon was devoted to meetings and discussion.

Last June, in response to a general invitation issued by the AEC, Associated Universities, Inc. proposed BNL as a suitable location for the new accelerator. From the original proposals, 85 were selected for further study. AEC fact-finding teams are making visits in connection with each of these proposals. Reports of the visits will be given to the National Academy of Sciences, which is evaluating the proposals for the AEC.

The team here yesterday was headed by Howard Brown, AEC Assistant General Manager for Administration. Other members were: Dr. William A. Wallenmeyer of the AEC's Division of Research; Dr. Thomas Fields, Director of the High-Energy Physics Division, Argonne National Laboratory; and Philip J. Picario of the AEC's Division of Construction.

### Ski Club Meetings First and Third Thurs.

The next meeting of the Ski Club will be held on Thursday, December 2, 5:15 p.m. at the Lake View Inn (1 mi. down Longwood Road to end, make left on to Yaphank Road follow for about another mile or so). Things to be discussed will include plans for the first ski trip and tentative plans for a ski bus. Also, a report on the free-ski weekend at Killing-

ton, Vermont will be given. Ski club meetings will be held on the first and third Thursdays of every month.

### NYLAB To Hold Show Nov. 29

NYLAB (New York Laboratory Supply Co., Inc.) will have a showing of their laboratory equipment in the Gym on Monday, November 29, between 9 a.m. and 3 p.m.
