Expectant Mothers' Classes

A series of Expectant Mothers' Classes is scheduled to start Thursday, April 21 from 1 to 3 p.m. at the Suffolk County Health Center, 15 Horseblock Place, Farmingville. These classes are sponsored by the Suffolk County Department of Health. Registration for this course is open to all expectant mothers. There is no fee. Call 732-0400, Ext. 854.

Monthly Coffee Meeting

Members of the Hospitality Committee again invite on-site and off-site women - newcomers, oldtimers, anyone in need of a place to air thoughts and opinions, and all who want to listen - to come to the Recreation Building in the Apartment Area for coffee and cake Monday morning, April 25 from 10:30 till noon. Children welcome.

Bridge Group Reminder

Pat Tunney, Hospitality Committee Area Chairman and aide to bridge players, hopes to see all women (newcomers especially) interested in THE game, show up at the bridge sessions she hosts on the second and fourth Tuesday of every month. This time - April 26 - it will be held in the Recreation Building in the Apartment Area from 8 to 11:30 p.m. Do try to come.

Exemption Certificates

New "Employee's Withholding Exemption Certificate" (Form W-4) should be returned to the Payroll Section by tomorrow. If you have not received a certificate, please contact the Payroll Section, Ext. 2342. Questions regarding the New Withholding System should also be directed to Payroll.

\$60 Million Saving Sparks 200 BeV Bid

AT BROOKHAVEN CENTER - The AEC site inspection team hears BNL representatives present the Lab as the location for the 200-BeV accelerator. Photo by Mort Rosen

Commissioner Dr. Glenn T. Seaborg and eight other top-level AEC executives heard a Lab spokesman say that if the proposed 200-BeV accelerator were built using the AGS as the injector, some \$60 million could be shaved off the estimated \$300 million construction figure.

The nine-man AEC team inspected the Lab last Saturday and listened to a two-hour briefing session on the virtues of BNL as a site for the accelerator. BNL was the last of the six contenders for the world's largest accelerator to be inspected by the AEC; the other sites were visited about a week ago.

During the session at Brookhaven Center the AEC inspectors heard from Dr. T. Keith Glennan, AUI President;

HFBR Notes

The HFBR will be open for inspection today from 4 to 6 p.m. All employees are cordially invited to visit.

Those holding invitations to the dedication at 1:30 p.m. tomorrow are asked to use the Southwest door of the Theatre.

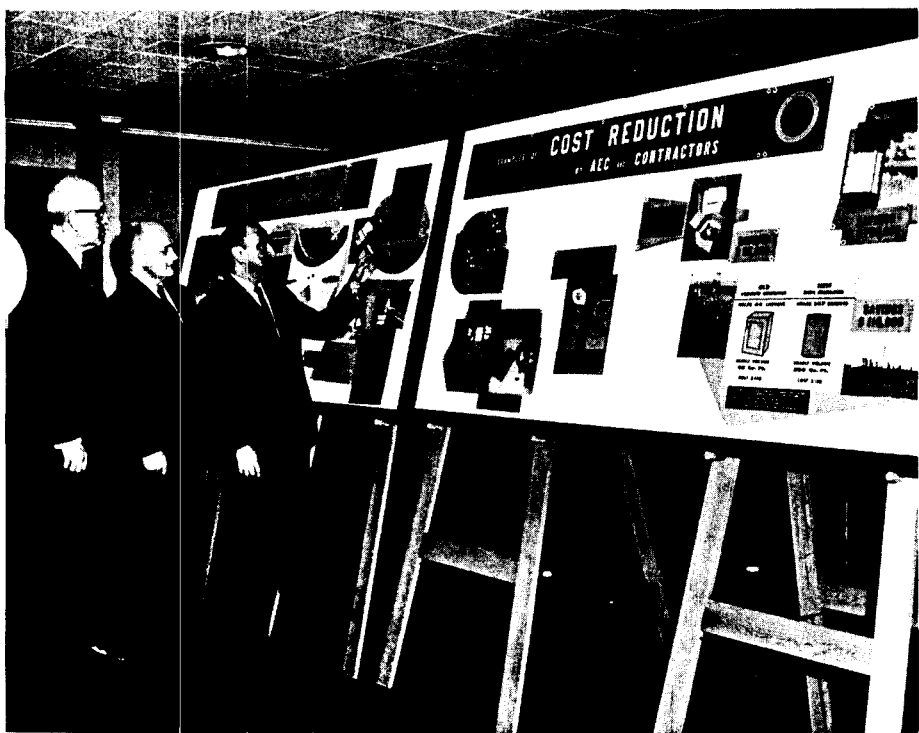

and Lab Director, Dr. Maurice Goldhaber. Suffolk County Executive H. Lee Dennison and Charles R. Dorniny, Town of Brookhaven Supervisor, remarked on aspects of the surrounding communities, and Dr. W. Allen Wallis, the President of the University of Rochester, and scientists from Stony Brook commented on the suitability of the Lab.

One BNL proposal envisions injecting every third pulse from the AGS into the 200-BeV ring. This would leave the AGS with a large capability for experiments. Another advantage in building the large machine at BNL is that the AGS would be available to the physicists in the design and construction groups and they would not be removed from research facilities during the 6 or 8 year construction period.

Dr. Seaborg indicated that the final choice would be made late in the year. When asked about BNL as a site, he said, "We are faced with a difficult decision in making a selection between the six sites that have turned up as finalists. There is nothing

See 200 BeV, page 2

AEC's Cost Reduction Exhibit Shown

SUCCESSFUL PROGRAMS - Looking at the AEC's traveling exhibit which is currently touring the various contractor sites are left to right, Emery Van Horn, Manager of the local AEC office; Ron Williams, Head of Systems and Data Processing Division; and Joseph S. Washburne, Jr., Head of Personnel Division. Mr. Washburne is the incumbent Chairman of the Lab's cost reduction committee; Mr. Williams is the Secretary.

At recent ceremonies honoring Department of Agriculture employees for Cost Reduction Programs, President Johnson compared the Administrations savings efforts to "bailing a boat - You have to keep at it; there's no time for rest."

As part of the Government's continuing efforts to cut expenditures and assure fair value received for capital and operating expenditures, the various agencies prepare cost reduction reports which reflect efforts along these lines. See Cost Reduction, page 2

Technical Information in The Netherlands

In the Technical Information Center of the U.S. AEC's "Werken met Atomen" Exhibit, Utrecht, Netherlands, March 1-28, Dennis Puleston, (standing) Head of BNL's Information Division, checks a footnote. Mr. Puleston was Director of the Technical Information Center.

In addition to the information center, the scientific facilities of the Exhibit included a 10-kw pool reactor and a "gamma pool" containing 5000 curies of cobalt-60. These facilities were available to Dutch scientists for research and training.

A series of three-hour science demonstrations for secondary school students and their teachers was conducted

Cost Reduction . . .

At the end of each six-month period in a fiscal year, BNL sends a report to the local AEC office showing cost reduction projects and the dollar amounts in savings. This report to the AEC is prepared by a committee currently headed by Joseph S. Washburne, Jr., Personnel Division. Ron Williams, Systems and Data Processing Division; James Stangby, Biology Department; Donald Poillon, Physics Department; W. Alvord Finn, Medical Department; and Robert Eberbach, Fiscal Division are the remaining members.

Last fiscal year, BNL reported savings of over \$5 million, about 11 per cent of its total budget. The savings were reported in the following categories: Conducting Approved Program on a More Austere Basis, Specifying or Utilizing Less Expensive Materials, Buying at Reduced Cost Consistent with Program Needs, and Accelerating Installation of Technological and Process Improvements.

by Oak Ridge Association Universities; over 4500 persons attended.

In the public portion of the Exhibit, the lectures of Dutch student-guides were backed up by models and animated displays on the peaceful uses of atomic energy. Total attendance at the Exhibit was over 60,000.

Mr. Puleston reported that the weather was terrible nearly all the time. "About the only times it quit raining," he said, "was when it turned to snow. High winds and low temperatures were the normal conditions, and the heating facilities inside the Exhibit building were quite inadequate to combat the Dutch weather.

"We worked seven days a week, from about 8:30 a.m. to 9 p.m., and the only day we shut up shop was when Princess Beatrix married her Klaus. Nevertheless, it was a most rewarding experience. The enthusiasm and interest of the Dutch - scientists, students, and the general public alike - were very high, and many pleasant, and, I hope, permanent contacts were made.

"One unexpected visitor, who personally requested an unofficial tour, was Queen Juliana, who spent over two hours at the Exhibit and asked many questions. Her husband, Prince Bernhard, who cut the ribbon at the opening ceremonies, also showed great interest in the Exhibit."

The Exhibit building, which has toured eleven cities in Europe and Asia since 1959, is now so worn-out it has been sold in the Netherlands. It is being replaced by an air-supported building which will be erected in Dublin, Ireland for the next Exhibit, to open in September.

April 30 Set For Bowling Awards Night

by Lewis Jacobson

Plan now to attend the gala bowling awards party at the Knights of Columbus Hall. The doors will open at 8 p.m. with the first door prize to be awarded at 8:30 p.m. Additional door prizes and prizes for table decorations will be awarded during the night.

There will be an ample supply of beer, pretzels, chips and assorted foods. A lively combo will provide music for dancing until 2 a.m.

Between Monday, April 25 and Wednesday, April 27, a layout of the Hall will be available in the Recreation Office for team representatives to pick their tables.

Cooking Exchange Group

The Cooking Exchange Group will meet on April 28 at 3 p.m. at the Recreation Building. There will be a \$.50 fee and babysitting will be provided. All welcome.

200 BeV Accelerator Bid

SITE EVALUATION - Dr. Maurice Goldhaber, BNL Director (right) and Dr. John P. Blewett, Deputy Chairman of the BNL Accelerator Department (2nd from right) discuss the BNL site with Chairman Glenn T. Seaborg (left) and Commissioner John G. Palfrey of the Atomic Energy Commission (2nd from left). Photo by Mort Rosen

here that would lead us to the conclusion that it could not be built here."

He said there was a lot of unhappiness when the original 200 sites in 46 states were narrowed to 85 and when an evaluation committee of the Na-

tional Academy of Sciences cut that figure to six last month.

"When we narrow that six down to one, there will be five unhappy sites remaining and one site that will feel that they got what they deserved all along," he said.

BERA Activities

Grumman, IBM May Vie in Outdoor Rifle Tournament

by Roy Domish

This spring, for the first time, the rifle tournament is expected to include competition with teams from other Long Island clubs. Matches are being discussed with teams from Grumman and International Business Machines.

The schedule this year will include some Saturday matches on weekends when the National Guard is not using the Range. Please note the following schedule - Sunday matches: April 24, May 1, and 8; Saturday matches: May 14, 21, and 28. Matches begin at 2 p.m.

The fee for the tournament is \$1 and club membership is required. Club dues are \$5 the first year and renewals are \$3 if paid on time. Call Roy Domish, Ext. 7789 for further information.

Camping Club

The regular meeting of the BNL Family Camping Club will be held on April 21 at the Recreation Hall at 8 p.m. Everyone is welcome. This meeting will be an open meeting with no planned program.

Micromet Available

Micromet, chemical crystals designed to aid in the prevention of rusty water, is still available in a limited quantity. The crystals and a few feeders can be purchased at a substantial savings from Personnel Services.

Bowling Championships Scheduled For April 23

This year both the ladies' and the men's Bowling Championships will be held at Patchogue Recreation (Maggio's) on April 23 at 1:00 p.m.

The winners of the two ladies' league will have a four game series, while the five men's teams will engage in a four game round robin tournament.

A Peterson Point system will be used for scoring. All league members are invited to attend and cheer for their favorites.

Around the Base Pads

by Bob Carciello

Tuesday, May 3, marks the opening day of the new softball fields located one-half mile east of the Firehouse on Brookhaven Avenue. The Softball Executive Board is in the process of setting up league structure and schedules for the 1966 season. It is anticipated that each league will play on the same day every week during the season.

Plans are also being made to dedicate the new fields during opening week. In order to allow as much time as possible for the new fields to settle, practice games or sessions will not be scheduled on these fields this Spring. The old fields will be available for practice on a schedule basis. If you wish to schedule a field, call Bob Carciello at Ext. 2200.

Those without team affiliation who would like to play ball this season, contact the Recreation Office for information concerning the new player pool.

Golf Ball Discounts Via Co-Op Buying Offered by BGA

The BERA Golf Association is sponsoring a group purchase of golf balls at quantity prices. Golf balls listing at \$9 per dozen will be ordered at \$3.50 per dozen to BGA members.

Employees who are not BGA members, but who wish to order, may do so at \$4 per dozen. Send your check (made out to BERA Golf Association), your name, BNL extension and address to P. Littlefield, Equipment Chairman, Building 535.

Only those orders received before May 3 will be included.

Shaw's Heartbreak House Called Satiric Drawing Room Comedy

by Gerhart Friedlander

HEARTBREAK HOUSE by George Bernard Shaw is the BERA Theater Group's next production, scheduled for four performances in May. This is the first full-length Shaw play ever undertaken by the group. It has now been in rehearsal for several weeks and, as expected, has already provided a great deal of challenge and a great deal of fun for the cast.

What is Heartbreak House about? Shaw subtitled it "A Fantasia in the Russian Manner on English Themes" and, in his lengthy preface he confessed (with tongue in cheek?) to his desire to emulate Chekov. "Heartbreak House is not merely the name of the play which follows this preface. It is cultured, leisured Europe before the war." Thus starts the preface, an impassioned anti-war essay written during World War I, and the reader might well expect a serious drama. But not so. Shaw can't stay entirely serious. Heartbreak House can perhaps be characterized as a mixture of social satire and drawing

room comedy. It is in many ways the Shavian counterpart of *You Can't Take It With You*: a play about a crazy household full of zany people, each with his own preoccupation.

Each one of the strange inhabitants and guests of Heartbreak House is an

Fishing Contest Now Under Way

by John McCafferty

Our 1966 contest is now under way. Bearing in mind "Fishing Should Be Fun" and "Pleasure Before Prestige," our committee has constructed its rules to stimulate maximum participation and friendly competition.

The fishing contest caters to the average fisherman, with a bi-monthly award for the average fish caught during the two-month period. The average will be arrived at by tabulating all the points for the period and dividing by the number of entries. Anyone who enters a fish has a chance of winning a prize. Of course, there are other prizes, including awards for surf, boat, and fresh water fishing.

Copies of the rules and entry blanks are available at the Recreation Office and will be posted on bulletin boards throughout the Laboratory. Our employees are also eligible to participate in the National Industrial Recreation Association Postal Fishing Contest. Information on this contest is available from yours truly or George Sabine.

The fishing committee is now working on plans for a Surf Casting Contest and the formation of a BNL Fishing Club.

interesting and challenging role - from the 88-year-old sea captain who presides over the household (when he isn't nodding off to sleep in the midst of a conversation or stealing off to imbibe some rum) to the burglar who breaks into the house and tries desperately to be caught so he can throw himself on the mercy of his captors. Among other factors, it is this fine collection of character parts that makes the play such an attractive vehicle for our group.

Come and see HEARTBREAK HOUSE - keep one of these dates free: May 13, 14, 20, or 21.

Attention Divers

The first club dive of the year will be on Saturday, April 30, at the northeast end of Port Jefferson Harbor, at 10:30 a.m. For those who are not familiar with the area, a caravan will be formed at the Port Jefferson Boat Basin and then proceed through Belle Terre to the diving spot. If you do not desire to go into the water, come anyway and join in the fun.

Classified Ad Policy:

The use of the classified section of *The Bulletin Board* is a privilege accorded to individuals employed at the Laboratory, to retired employees, and, in some cases, to the families of recently deceased employees. The following rules apply to all three classes of users (hereafter referred to as employees).

1. All items for sale or rent must be the property of an employee.

2. No want ads will be accepted for property associated with a full or part-time business. This includes merchandise, automobiles, real estate, etc., acquired for purposes of resale.

3. Ads must be typed or printed on the form provided in 20 words or less, and must be received by 12:00 noon on Friday for inclusion in the next week's newspaper. Only ads submitted on this form will be accepted. Additional copies of the form are available in *The Bulletin Board* office. If there is no Lab Extension where the person may be reached, a home phone may be substituted. Ads which do not conform to the above standards will be discarded.

4. Ads are run on a space-available, first-come-first-served basis; ads not carried because of space reasons will be held for inclusion in the next issue.

5. Ads are run only once; if you wish to repeat an ad it must be resubmitted.
