

# BULLETIN BOARD

Volume 20, Number 41

Published by the BNL Public Information Office

October 6, 1966

On-site apartment dwellers may now pick up copies of the *Bulletin Board* at the apartment laundry located on Yale Road or at the Recreation Building on York Lane.

## Visitors' Days Schedules Set

BNL's seventeenth annual Visitors' Day is scheduled for Saturday, November 5; College Visitors' Day will run on Saturday, October 29, and High School Visitors' Day on Saturday, October 22.

The invitation is not extended to lower junior high school groups, since past experience has shown that the program holds little interest for most students at that age level. Any student with a special interest, however, will be welcome on November 5 if accompanied by an adult member of the family.

On these three days, several of the major research facilities will be open to visitors. Special exhibits and demonstrations will be devoted to various aspects of research in the life and physical sciences, and in engineering. Motion pictures on the nuclear ship Savannah and on nuclear power for propulsion will be shown.

Admission on each day will be by ticket only; all tickets are complimentary. The maximum number of visitors that can be accommodated conveniently on these three days is limited; therefore requests will be handled in the order received. Requests for tickets should be addressed to the Director's Office.

### The BNL Rifle & Pistol Club

The Club will hold a meeting Thursday evening, October 6, at the Recreation Building. For further information, contact J. Gatz, Ext. 7233.

### Adult Ed at Sayville

An adult education program is being offered at the Sayville High School, Brook Street. Brochures are available through the Office of Scientific Personnel, 40 Brookhaven Ave.

After careful consideration it has been decided to disband the Hospitality Committee's Bridge Sessions. The meeting scheduled for 8 p.m. this October 11th is cancelled.

## Seaborg, AEC Head, To Dedicate Chemistry Building, October 14

The Brookhaven staff is cordially invited to the dedication ceremonies of the Chemistry Building.

Dr. Glenn T. Seaborg, Chairman of the Atomic Energy Commission and a Nobel Prize winner in chemis-

AEC Commissioner Seaborg  
NO NEG NO

try, will speak on "Chemistry at Brookhaven." The talk will be given on October 14 at 10 a.m. in the Theatre.

Dr. Seaborg, Chancellor of the University of California from 1958 until his appointment as Chairman of the AEC in 1961 by President Kennedy, shared the 1951 Nobel Prize in Chemistry for his part in the discovery of plutonium and several other transuranium elements.

In the afternoon the chemists will participate in a symposium entitled "Chemistry in the Seventies." Dr. Anthony L. Turkevich, the James Franck Professor of Chemistry, University of Chicago, will talk on "Speculations Concerning New Nuclei."

Dr. William N. Lipscomb, Professor of Chemistry, Harvard University, will discuss "Structural Chemistry—Recent, Past, and Near Future." The symposium will be held in the Chemistry Seminar Room at 2:30 p.m.

The three-storied, cross-shaped Chemistry Building, which replaced

several temporary structures dated from World War II, is one of the most advanced laboratory buildings built to date.

Plans for the building began in 1958 when the Building Committee, under the chairmanship of Jacob Bigeleisen and consisting of Norman Elliott, Gerhart Friedlander, N. Blair Munhofen, Morris Perlman, and Alfred Wolf, started conceptual studies with the architectural firm of Marcel Breuer and Associates.

The Building Committee worked closely with the personnel of the BNL Architectural Planning Division and the Engineering and Construction Division of the Brookhaven Office of the AEC throughout the planning and design stages of the project.

The specialized requirements of the various groups within the Chemistry Department—the structural chemists, the nuclear chemists, the organic chemists, etc.—were carefully considered to insure that each researcher

## National Fire Prevention Week

### To BNL Employees:

Each year the President of the United States proclaims the week in which October 9th falls as Fire Prevention Week. This year the week of October 9-15 has been named. The theme of this year's drive is to stop home fires. It was estimated by the National Fire Protection Association that more than 1600 homes in the United States and Canada were destroyed by fire. Fire killed 11,700 people last year, 30 percent of whom were children.

We have an unfortunate habit of dismissing most fires as "accidents" — a sort of visitation of bad luck which somehow was unavoidable. But how unavoidable — or unpredictable — is the fire started by a carelessly discarded cigarette, or overloaded and defective electric wiring, or poorly maintained heating and cooking equipment?

Yet, as shown by NFPA studies, these and similar uncomplicated causes are responsible for the great majority of fires.

## Ham Radio Club Gains Momentum

It looks as if a Club will be under way shortly. The overwhelming interest and enthusiasm has surprised many people. The list, started two weeks ago, has grown to fifty-four and will probably be much larger.

We have a locked room in the Recreation Building, available to set up a station, and quite a bit of equipment. What we need most now is a good turnout at our first meeting on Wednesday, October 12, at 5:15 p.m. in the Recreation Building (Apartment Area).

We are also trying to compile a directory of all licensed "hams" at BNL. Whether you are interested in the Club or not, if you are a licensed "ham", please call Dick Bowman (WB2ERA) at Ext. 7773.

### Diver's Club

The October meeting of the Brookhaven Diver's Club will be held on Monday night, October 10, at the Club Room in the Recreation Center. All members are urged to attend. For further information, call Arnold Feltsman, Ext. 2249.

Take time this week to check your home for places where fire could start. Also, take time to figure an escape route in case of fire and have your family practice it. Don't you be a statistic next year!

—Dr. Maurice Goldhaber

### If Fire Strikes Your Home

Fire is unpredictable and strikes quickly when and where least expected.

See Fire Prevention, page 2

## National Fire Prevention Week

*Continued from page 1*

Shocking as it sounds, an estimated 4000 children die each year as a result of fire. Thousands more are maimed and disfigured.

This toll can be greatly reduced by making our homes more fire-safe.

Never leave children unattended, or locked up in your home. Arrange for a mature, dependable sitter to stay with your children if you are away.

It is extremely important that you give your sitter specific instructions what to do in case of fire.

Also, it is important that all members of your family are instructed on what each should do when confronted in the event of fire and the procedure in calling the local fire department.

When you discover a fire, don't try to handle it by yourself, as every fire department would rather answer a call and find little or nothing to do, than to find a blaze already out of control.

It is important, when reporting a fire by telephone, to give the exact address, and nature of the fire, and skip any points that may confuse the fire department.

Remember that many delayed alarms are the major cause of large fire losses. The first few minutes are vital.

—William Wisnofski  
Fire Marshal

### Fire Prevention Pays Off

Again, it our happy privilege to report that here at the Laboratory our fire record is good. However, it can be improved.

During the past year only two of our fires could be properly attributed to carelessness or thoughtless action. The incidence of other fires caused by mechanical failures, chemical reactions, etc., were relatively few.

This is a fine tribute to all, since it reflects keen interest in fire prevention by all Laboratory personnel.

During Fire Prevention Week, let us all decide to actively participate in eliminating any existing hazards in our homes and place of work.

Let's all make each week Fire Prevention Week at the "Lab."

—Thomas Newham  
Fire Chief

## Attention BNL Artists!

It's Registration Time for the 3rd Exhibition of BERA Members' Work.

The many and varied artistic talents of BNL employees and members of their immediate families will be displayed at the BERA Members' Art Exhibit, which will open Friday evening, November 11, and continue through Wednesday, November 23. The exhibit is intended to be a showcase for the hand-created work of every person, whether he be an active professional, modest Sunday painter, or eager beginner. There will be no votes, awards, or prizes, and no "selection" of what is to be shown except in the sense of avoiding inappropriate entries. Since exhibit space is limited, it will be necessary to restrict works to a maximum of two per medium from each artist.

In order to make arrangements for the exhibit, the committee must have an advance registration from every artist. Please make your plans immediately for what you want to submit. Paintings, drawings, etc., should be framed and ready for hanging. Do not deliver the art work until further details are announced. But do return the Registration Blank below, with all information that would be helpful, to George Sabine at the Recreation Office, 3 Center Street, *not later than October 21.*

The committee has high hopes that this second art show will surpass even the highly successful one held two years ago.

### Registration Blank for Art Exhibit

Name of Artist.....

Laboratory Connection.....  
(Employee, member of family)

Address & Telephone.....  
(Home, if member of family)

Title & Description of Proposed Entries  
(Indicate size of paintings, drawings, etc.; space needed if sculpture, etc.)

Return to George Sabine, Recreation Office, by October 21, 1966.

## Dedicated Fisherman Lands 30-lb Reward

Anthony Kaczmarczyk, who likes surfcasting for bluefish and striped bass so much that he spends about 30 hours a week at it during the spring and fall migrations, was rewarded for his dedication with a 30-pound striped bass last week.

BERA Fishing Contest Chairman, John McCafferty (left), Angler Anthony Kaczmarczyk, and friend.

—Photo by Mort Rosen  
*Polaroid*  
Kaczmarczyk fishes for two hours in the morning before he comes to his job in the machine shop here, and he fishes for two hours in the evenings after he leaves.

His usual companion is his 14-year-old son Danny, who has had to give up the morning session in order to catch the school bus.

On the morning of the 30-pound catch, Kaczmarczyk tells it: "I got back home just as the school bus was pulling away. I stopped the bus and held the fish up so Danny could see it. At first, he just stared with his mouth open, but by the time the bus pulled away, he was shaking his fist at me."

John McCafferty, Chairman of the BERA Fishing Contest, said that the 41-inch-long fish is the largest ever entered in the contest's surfcasting division.

Art Beckwith, another ardent fisherman and something of a naturalist, determined that the fish was eight years old. "The fish's scales grow in annual rings, just as a tree trunk does," Beckwith said.

## Chemistry Building

*Continued from page 1*

would be provided with facilities fitted to his particular field. A major consideration was to provide these facilities in a flexible manner which would lead to interaction between various disciplines.

The building design was executed by Wank, Adams, and Slavin, architects, and the Vitro Engineering Co. in 1962. Ground was broken in February, 1963, and the construction was carried out by the White Construction Company and the Lasker-Goldman Corporation. The building was completed and occupied in the spring of 1966.

### P. Stewart Macaulay Dies

P. Stewart Macaulay, retired vice-president of Johns Hopkins University and a trustee of Associated Universities, Inc., from its inception until his retirement in March, 1965, died on September 22 after a long illness.

### Theatrical Makeup Demonstration

The next meeting of the Theatre Group will take place on Wednesday, October 19, at 8 p.m. in the Theatre. The program will consist of a lecture-demonstration on "The Art of Makeup" given by Mr. Earl Snow of Port Jefferson. Some old-timers may still remember the success of Mr Snow's previous visit. Everyone is welcome.

### Groundbreaking

THE BUILDING - Emery L. Van Horn (left), Manager of the Brookhaven AEC Office, and Dr. Maurice Goldhaber, BNL's Director, turn over a spadeful of earth to start the construction of the building to house the Tandem Van de Graaff accelerator system. The building will be completed by 1968; the accelerator system in operation by 1970.

Hamburg Steak/Onions	.65
Macaroni & Cheese	.50

## Football Notes

by Jack Brennan

The Heavers remained the only unbeaten club, beating the Charged Particles 36 to 24 as M. Gottfried scored two touchdowns. The Hot Lab was dropped from the unbeaten ranks by the Bubble Boys 24 to 18, in overtime, on a 40-yard pass play from A. Tillis to G. Oldham.

The Panthers, revitalized by L. Johnson, upset Chemistry 18 to 12.

Johnson scored twice. The Batmen walloped an undermanned Dirty Sox 60 to 6; J. Hooper and N. Carter each scored three touchdowns.

	W	L
Heavers	4	0
Batmen	3	1
Chemistry	3	1
Hot Lab	3	1
Bubble Boys	2	2
Panthers	1	3
Charged Particles	0	4
Dirty Sox	0	4

### Football Schedules Available

Schedules for the New York Jets, the New York Giants, and the American Football League are available in the Recreation Office, 3 Center Street.

### AUI Trustee Scholarship Nears November Deadline

Applications for the 1967 AUI Trustee Scholarships must be sent to Educational Testing Service by November 15. Ten scholarships are awarded each year to children of AUI employees; each is worth \$900 a year for four years. More information can be had from the Office of Scientific Personnel, 40 Brookhaven Avenue.

### Backstage Crew Needed For Coming Production

The Theatre Group wants spare-time carpenters, painters, electricians, seamstresses, scene shifters, etc., experienced or inexperienced, with a lot

**BE PREPARED  
TO LAUGH YOUR HEAD OFF**

of time to spare or only an occasional hour, to work on the production crew of "Hotel Paradiso." Anyone interested in sharing the reward of stimulating company and exciting work should contact Mary Kinsley, Ext. 2821, or Eena-Mai Franz, Ext. 650.

### New Mailbox in Apartment Area

Last Friday, a U.S. Mailbox was installed in the Apartment Area at the corner of Yale Road and Yule Lane. Mail will be collected from this box Monday through Friday at 4 p.m. There will be no Saturday or Sunday collection.

Also, the mailbox located on Center Street in front of the Laboratory Post Office was replaced with a new box on the opposite side of the street. The new box is designed so that a driver can drop in mail without leaving the car.

## Brookhaven Concert Series

No Neg No

### Tsuyoshi Tsutsumi Cello

**Tuesday, Oct. 11 at 8:30 p.m.  
Brookhaven Center**

Born in Tokyo on July 28, 1942, Tsuyoshi Tsutsumi began studying the violin at the celebrated Suzuki Violin School when he was six years old.

One year later, he took up the cello, first with his father, then in 1950, with Professor Saito, a former student of Emanuel Feuermann. Within five years, he made his official debut under the baton of his teacher, playing the Saint-Saens' Cello Concerto with the Tokyo Philharmonic.

In 1961, a special grant of the Fulbright Foundation brought Tsuyoshi Tsutsumi to the United States. He continued his studies with Janos Starker (who opened the BERA series last season), at Indiana State University, where he now teaches when not on tour.

While in Europe in 1963, he won awards at the 12th International Music Competition in Munich and at the International Casals Competition in Budapest. Since then he has toured

in Japan, Yugoslavia, Austria, Germany, Holland, and England.

His appearances in the United States have taken him along the Alaska Music Trail, to major cities and universities, and also include concerts with a number of important orchestras. The program is as follows:

Sonata No. 10 in E major, Giuseppe Valentini; Sonata in A major, Opus 69, Beethoven; Ushioi-uta (Japanese Folktune), Mamiya; "Siena" for Cello and Piano, Bernard Heiden; Sonata "Per Arpeggione" in A minor, Schubert.

Season tickets: adults, \$10; children (under 18 years old), \$5. Single admissions; adult, \$3; children, \$1.50; non-employee guest, \$3.50. Refreshments will be served at the Center following the concert.

A Cleveland doctor diagnosed a mysterious hip and leg pain in a patient as "Creditcarditis," caused by the pressure of a wallet packed too full of credit cards.

Some 14,000 workers were killed in accidents on the job during 1965. That's down about one percent from the 1964 total. About 2,100,000 workers were injured in work accidents last year.

18.2' CHRIS CRAFT & TRAILER - 1955 inboard motor, radio, depth finder, many extras. \$1100. M. Van Lith, Ext. 565.  
 11' ROWBOAT - Fiber glassed, 7 1/2 hp Evinrude, trailer, painted for duck hunting. Sacrifice. Lipton, Ext. 2465.  
 25' CABIN CRUISER - Richardson, galley, head, bunks, elec bilge pump, Gray marine powered. G. Hummer, Ext. 7168, GR5-3792.  
 19 1/2' PENBO - 1959, lapstrake, cabin sleeps 2, head, navy top, 50 hp Johnson elec, built-in 20 gal tank. AT9-0265.  
 13 1/2' CATBOAT - Wood Pussy, completely fiber glassed, dacron sail, trailer, 3 hp longshaft outboard. Reasonable. Ext. 435, AT6-2278.  
 22' TROJAN EXPRESS CRUISER - Fast, needs paint & some light work. AT6-1160.  
 17' OWENS - Fiber glass, 75 hp Johnson, custom trailer & accessories. Chris, Ext. 2326.  
 22' TROJAN CABIN CRUISER - Stand up head, foam bunks, galley, completely equipped. Asking \$1400. W. Kalinowski, Ext. 2457.  
 30' SEDAN CABIN CRUISER - Sleeps 5, elec head, shower, galley, ice box, etc. \$1600. Dick, Ext. 7111, JU5-3719.

### Miscellaneous

MISCELLANEOUS - Bird cage, 9x13x13, cloth cover, good cond, \$2.50; crib & mattress, good cond, \$10. AT6-0263.

BICYCLE - Girls, 24". C. Davis, Ext. 2536.  
 GOLDEN RETRIEVER PUPS - AKC registered, avail end of Oct. \$75 for females, \$100 for males. Kohler, Ext. 395.  
 BICYCLE - Boy's, Schwinn, \$26", 2 yrs old, very good cond. 929-4291.  
 PIECES OF ITALIAN MARBLE - Piece 20"x36", 2 pieces 20" hexagonal, 2 pieces 36" round, all 3/4" thick. Ext. 691, HR3-7142.  
 BOY SCOUT UNIFORM - Complete, worn once, size 14 but can be adjusted. 281-5328.  
 VIOLINS - Two, 1 full size, 1 3/4 size. Lipton, Ext. 2465.  
 AQUARIUM - 10 gal, complete outfit, excel cond. Lipton, Ext. 2465.  
 SCIENCE FICTION BOOKS - Eleven, 10-16 yr age group, new cond, original jackets. \$5.50. Pete, Ext. 577.  
 RIFLE SCOPE - For .22 cal rifle. \$5. Bill, Ext. 2392.  
 TRUMPET - Selmer (Paris) "K modified", model 24B w/deluxe royalite case, excel cond. \$125 firm. B. Barnes, Ext. 2393, 724-3035.  
 BOOKCASE - Mahogany, Sheraton, glass enclosed, fine for rare books/doll collection, excel cond. Also antique easel. AT6-3647.  
 CLARINET - B flat, ideal for student, very good cond. \$50. McRickard, Ext. 2165.  
 LIVING RM FURNITURE - Complete set: couch, 3 chairs, 3 tables, lamps, excel cond. Together or separate. 286-8108.  
 TOOLS - Ratched stock & dye, 1"-2"; cutter; two 24" wrenches (rigid). \$25. PA7-5535 after 5.  
 FRIGIDAIRE MACHINES - Dryer "deluxe" & washer "Custom Imperial", excel cond. \$125 for both. Ext. 7238, 653-4746.  
 GRAM SCALE - 500 grams, like new. \$10. H. Arnesen, Ext. 2407.  
 GIRL'S ICE SKATES - White leather, size 4, excel cond. \$4. D. Borg, AT6-0428.  
 CAMERA OUTFIT - Kodak Hawkeye w/flash, comes w/2 rolls Kodacolor & 1 roll B&W. \$6. John, Ext. 2149.  
 THAI SILK - 2 yards of heavy azure blue, 2 yards of harmonizing blue & green plaid. \$35. D. Borg, AT6-0428.  
 12" FLOOR WAXER - Cost \$85, sell for \$35. Ext. 423.  
 GIRL'S COAT - Red cotton, alpaca zip lining, size 8, \$8; black vinyl patent pile lined boots, size 7, \$4. AT6-0428.  
 CHILD'S SKIIS - Metal edges, cable release bindings, 59" long, inc poles. \$10. D. Borg, AT6-0428.  
 KENTUCKY FLINT RIFLE - Early 1800 half stock, octagon barrel, excel cond. \$160. C. Hamill, Ext. 7400, AN5-3934.  
 SKIIS - Adult 4' shortie w/Cubco bindings, metal edges, excel cond. \$20. D. Borg, AT6-0428.  
 MISCELLANEOUS - Westinghouse extractor fan, nearly new, 23" high, \$10; AM radio, \$6. D. Rimmer, Ext. 7278, 7723.  
 SEWING MACHINE - Portable zig zag w/buttonhole attachment. \$20. John, Ext. 7692.  
 ACCORDION - 120 bass Italian made, good cond, reasonable. \$95 firm. 286-3647.  
 GAS RANGE - Kenmore, 4 burner, 20x22; broiler & oven w/glass in door; clock & light. Excel cond. \$50. Ext. 2257, JU8-7653.  
 WASHING MACHINE AND DRYER - Excel cond. Ext. 2776.  
 PRACTICE PIANO - Upright grand, old, ugly, good cond. \$75. J. Garron, Ext. 7241.  
 2 DESKS - 7 drawers, spar varnish finish. \$10 each. Roe, 286-2280.  
 BABY EQUIPMENT - Crib, carriage, extra carriage seat, carriage bag, baby bottles, baby bottle warmer. AT6-8724.

### Classified Ad Policy:

The use of the classified section of *The Bulletin Board* is a privilege accorded to individuals employed at the Laboratory, to retired employees, and, in some cases, to the families of recently deceased employees. The following rules apply to all three classes of users (hereafter referred to as employees).  
 1. All items for sale or rent must be the property of an employee.  
 2. No want ads will be accepted for property associated with a full or part-time business. This includes merchandise, automobiles, real estate, etc., acquired for purposes of resale.

3. Ads must be typed or printed on the form provided in 20 words or less, and must be received by 12:00 noon on Friday for inclusion in the next week's newspaper. Only ads submitted on this form will be accepted. Additional copies of the form are available in *The Bulletin Board* office. If there is no Lab Extension where the person may be reached, a home phone may be substituted. Ads which do not conform to the above standards will be discarded.  
 4. Ads are run on a space-available, first-come-first-served basis; ads not carried because of space reasons will be held for inclusion in the next issue.  
 5. Ads are run only once; if you wish to repeat an ad it must be resubmitted.
