## BNL Will Again Participate in Technician Scholarship Program

Brookhaven has again accepted an offer to participate in a Technician Scholarship Program sponsored by the Department of Nuclear Education and Training of the Atomic Energy Commission. The AEC scholarships were initiated last year to provide selected contractor personnel an opportunity to accelerate their completion of the Bachelor's degree in a field of interest to the Commission.

In 1966, two BNL employees, Richard Isler and George Meinken, were among the ten scholarship recipients chosen by the AEC selection committee from candidates presented by its contractors. Isler is now an applied mathematics student at the University of Illinois, and Meinken is a chemistry major at Rensselaer.

Under the upcoming 1967 program, scholarship recipients will begin full-time study next fall. Each must be a U.S. citizen and a full-time Laboratory employee who can complete his Bachelor's degree in two calendar years or less. Appointments will be made for up to twelve months, to be renewable up to an additional year on full salary plus tuition and fees. The employee's full BNL fringe benefits will also continue during his appointment.

The following additional criteria will be applied by the special BNL committee which will choose candidates for final selection by the AEC panel:

**Length of Service:** Candidates should have had two or more years of service with Brookhaven by September 1, 1967.

**Academic Standing:** Candidates should have a cumulative college grade point average of "B or better."

**Educational Effort:** Candidates should have graduated from a two-year program (junior college or technical institute) or have completed the sophomore year of a four-year bachelor's degree program, and must be able to complete the four-year program in two calendar years or less. Preference will be given to candidates now actively pursuing a bachelor's degree.

**Recommendations:** Candidates' recommendation by their division or department.

### Brookhaven Lecture Series

Wednesday, February 8, at 8 p.m.  
Lecture Hall

#### The Cellular Basis of Radiation Death

Victor P. Bond  
Medical Department

When human beings and other large animals receive whole-body doses of ionizing irradiation that are in the lethal range, a short period of mild or moderate symptoms is characteristically followed by several weeks of well being, the so-called "latent period." There is then a reappearance of symptoms, leading to severe illness which may have a fatal outcome.

For many years there was no good explanation for the complex phenomena observed, and many incorrect theories were proposed. Dr. Bond and his colleagues have made major contributions to a new understanding in which the lethal effects are seen to result from sequential depletion of vital components of the blood. Dr. Bond will describe the mechanism by which specific effects on certain cell lines cause radiation disease, and he will show how this knowledge leads to treatment for alleviating the disease or modifying its course.

Following the lecture, refreshments will be available in the Exhibit Hall.

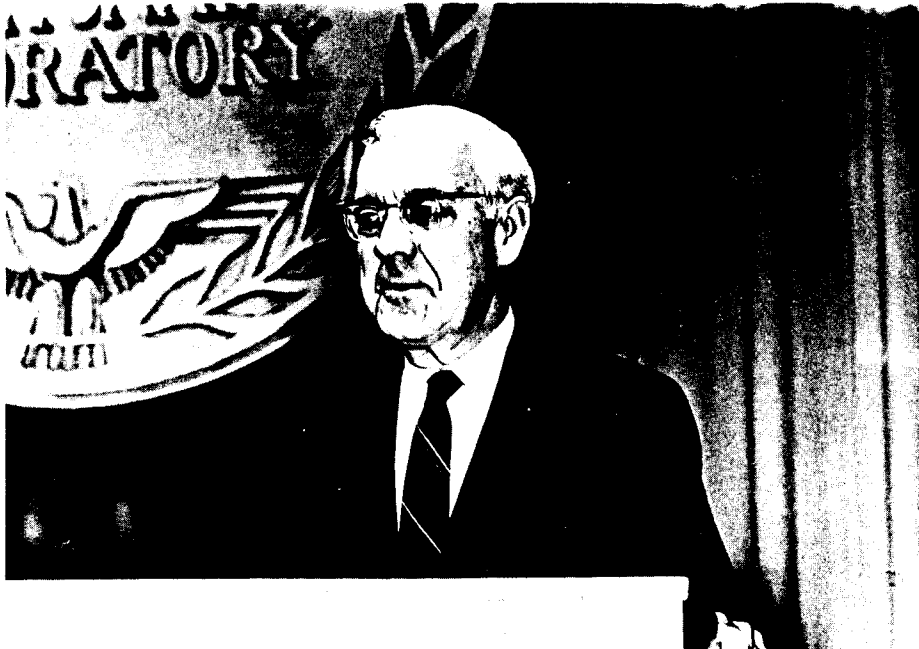

#### Film Service

This service, which offers employees a substantial discount on the sale of film and film processing, is located in the Gymnasium opposite the Recreation Office. Open hours are 9:00 a.m. to 3:00 p.m. daily. A receptacle is available for the deposit of film for processing at hours other than those normally scheduled.

#### Cooking Exchange Club

The Cooking Exchange Group will meet on Thursday, February 2, from 3 to 5 p.m. at the Recreation Building in the Apartment Area. There will be a small charge of 50 cents per person.

## Canham Lectures at Brookhaven

Edwin R. Canham, the well-known American editor of the *Christian Science Monitor*, discusses the future of newspapers as a medium of communication before a packed audience last Monday in the Theatre. Mr. Canham was the third speaker in the AUI Distinguished Lecture series.

### Showings of The Brookhaven Spectrum

Mondays, Wednesdays, and  
Fridays through Friday, February 3:  
11:30 a.m. and 1:30 p.m.  
Also, Thursday, January 26, at  
5:15 p.m.

At The Theatre

### BERA Film Series

Thursday, February 2, at 8:00 p.m.\*  
Lecture Hall

#### The Train

The *Train* offers proof that Hollywood can produce an interesting and creative film.

The story is set in France, somewhere near the German border, during the closing months of World War II. The Nazis are attempting to transport captured art treasures and priceless paintings from Paris to Germany. To save the paintings, the French partisans must somehow keep the train from getting across the German border. To accomplish this will mean the loss of many lives, and many are lost.

I believe that director John Frankheimer is trying to use an almost

### Dr. Cool, Associate Director, Appointed to AEC Panel

The U.S. Atomic Energy Commission has appointed Dr. Rodney L. Cool, Associate Director for High Energy Physics at the Laboratory, as member of a newly established Advisory Panel on High Energy Physics. The Panel will provide advice and guidance to the Commission in this area of physical science research. It will consider important matters relating to high energy physics and advise the Commission concerning the best course of action, in the interest of a vigorous and productive national high energy physics program.

The Panel, under the chairmanship of Professor Victor F. Weisskopf, Head of the Department of Physics at the Massachusetts Institute of Technology, is composed of twelve physical scientists. The members have been selected to achieve a reasonable balance of competence in theoretical and experimental research, and competence in accelerator design and utilization, and to include scientists associated with laboratories and universities. The scientists will serve in this capacity in the national interest and not as representatives of their respective organizations or geographical regions.

## Scholarships (con't)

partment will be obtained by the BNL scholarship selection committee.

**Availability:** Candidates must be able to enroll in a college program beginning the fall term, September 1967.

**Employment:** Candidates must express their intention to return to employment with Brookhaven upon their completion of the bachelor's degree.

BNL personnel who wish to be considered should complete a formal application available at the Personnel Office and return it to that office no later than February 10. The BNL scholarship selection committee will review all applications and request recommendations for selected candidates. These candidates will be presented to the AEC Headquarters Selection Panel early in March for its final decision.

Questions concerning the program may be directed to Peter Paige at the Personnel Office, Ext. 7248.

## Use Headlights:

### It's The Law

State law now requires use of headlights between one-half hour after sunset and one-half hour before dawn. They should also be used at any other time when visibility is less than 350 feet. In rain and fog, headlights on low beam should be used to warn others of your approach.

To prevent blinding other drivers, headlights on high beam must be dropped to low beam within 500 feet of an approaching vehicle, or within 200 feet of a vehicle you are following.

## Undelivered Mail

The BNL mailroom is holding mail for the following persons:

Mrs. Harold T. Lindgren  
Dr. Alexander Josephs  
Paul L. Hartman  
David Goldenberg  
Dr. Norman Shapiro  
Mr. William Lieberman

If mail is unclaimed after one week, it will be returned to sender.

## BNL Bowling Dates

Week of February 5, Heart Fund Tournament; week of February 12, Special Event; Saturday, March 11, Mystery Tournament; Saturday, May 13, Bowling Awards Evening.

For additional information, call L. Jacobson, vice president of the Bowling Executive Board, on Ext. 7772.

## Post Office

### Rents Lock Boxes

The Upton U.S. Post Office now has one hundred lock boxes available for rental. Applications for these boxes should be made at the Post Office, 2 Center Street.

## Film Series (con't)

documentary approach to express the idea that men will fight and die for unselfish reasons as well as for selfish ones. Unfortunately, his direction falls short insofar as the acting is not quite convincing enough. Burt Lancaster has a bit too much dash, Jeanne Moreau is too cool, and Paul Scofield as the Nazi colonel is somewhat more evil than necessary. Consequently, the film tends to overstate its message.

Although I would not rate this movie as one of the great pictures of the decade, it nevertheless makes a good attempt to combine a fine screenplay, excellent photography and plenty of fast action and suspense into a believable and entertaining picture. It is worth seeing.

—Mel Dorin

\*Please note earlier time of presentation.

## Tickets Available Personnel Services

Recreation Office - 3 Center Street  
Daily 9 a.m. to 1 p.m.

**Discount Tickets:** Tickets may be purchased at 15-20% discount. (No discount Saturday night performances.) Schedules and prices are posted in the Recreation Office. All orders must be placed in person at least two days in advance and accompanied by a check or money order payable to the theatre.

**Marine Recreation Boat and Sport Show,** February 4-12, at Island Garden, West Hempstead.

**The Impossible Years,** now through February 19 at the Playhouse Theatre, New York City.

## Movie Tonight
