## BNL Council Elects New Chairman For '67

Standing left to right: N. Samios, M. Barton, R. Spinrad, W. Hillman, G. Parzen, L. Corliss. Seated, left to right: R. Marr, R. Steele, A.P. Wolfe, W. Fowler, A. Sunyar.

At the Annual meeting of the BNL Council on March 13, 1967 Dr. A.P. Wolf, newly elected Chairman introduced five new members appointed by Dr. Maurice Goldhaber, Laboratory Director. The new members are Lester Corliss, Chemistry; David Gurinsky, Nuclear Engineering; William Hillman, Biology; George Parzen, Accelerator; and Robert Spinrad, Instrumentation and Health Physics.

Members who carry forward from the past year are William Fowler, Physics; George Cotzias, Medical (for Walton Shreeve); Alfred Wolf, Chemistry; Robert Steele, Biology; Andrew Sunyar, Physics (for Joseph Weneser); Mark Barton, Accelerator; Jack Chernick, Nuclear Engineering (for Noel Corngold); Robert Marr, Applied Mathematics; James Robertson, Medical; and Nicholas Samios, Physics.

Dr. Wolf, whose field is physical-organic chemistry, joined the staff of the Brookhaven Chemistry Department in 1951. A major part of his effort is directed towards studying "hot atom" chemistry. Dr. Wolf enjoys teaching and has lectured in Puerto Rico and Greece. His first sabbatical was spent teaching at the University of California at Berkeley. He is adjunct Professor of Chemistry at Columbia University.

The BNL Council was established in May 1962 by Dr. Goldhaber as "a group which will consider and make recommendations on Laboratory policies, including those pertaining to the scientific staff." The BNL Council is advisory to the Director and has as one of its continuing functions the review of scientific staff tenure appointments.

The Council meets regularly on the second Monday of each month. Information about the Council or suggestions to be considered by that body may be addressed to the Chairman, or any member or the Office of Scientific Personnel.

## AEC Withdrawing from Production and Sale of Strontium 87m Generators

The Atomic Energy Commission plans to turn over routine production and sale of medically important Strontium 87m generators to private industry effective May 1.

Strontium 87m is among a group of radioisotopes sought by researchers because of their short half lives and for which a system of generators was developed at Brookhaven allowing transport, storage and maximum use of short-lived material. The half life of Strontium 87m is 2.8 hours.

The generators are small table-top devices in which longer lived radio-

isotopes produce by decay radioisotopes with shorter half lives. The shorter lived material is separated by the addition of a reagent into the device. The short life radioisotope drains off and is dispensed from the device as needed.

Strontium 87m is currently produced and distributed in generator form by Brookhaven National Laboratory.

AEC's announcement of intended withdrawal is in accordance with the Commission's policy to transfer routine radioisotope production and distribution activities to industry as rapidly as possible consistent with the national interest.

## That Was The Winter That Was

### Sir Isaiah Berlin AUI Lecturer Monday Evening

The author of a profile of Sir Isaiah Berlin in the London Sunday Times wrote: "No one in Oxford, or perhaps elsewhere, combines such vast erudition with such irrepressible gaiety. As a conversationalist alone he is almost legendary." Professor Berlin will deliver an AUI Distinguished Lecture in the Laboratory Theater this coming Monday night, April 3, at 8:30 p.m. He will discuss "Irrationalism," the development and persistence of antiscientific attitudes.

Tickets for Professor Berlin's lecture may be requested by means of the announcement forms recently distributed or by telephoning the Director's Office, Extension 2357. Tickets are free and may be requested for your friends and family as well as yourself. A buffet supper (\$3.25) will be served at the Brookhaven Center before the lecture from 6 to 8 p.m. Reservations should be made in advance by calling Extension 2453 before 5:00 p.m. on April 3.

### Pallas Installed as Power Squadron Head

Frederick Pallas, Accelerator Department, has been installed as commander of District Three, United States Power Squadrons.

District Three, one of the largest in the 65,000-member U.S.P.S., operates 19 squadrons in Brooklyn, Queens, Nassau and Suffolk.

Pallas has been active for 20 years in the organization, a national civilian group devoted to boating education. He lives in Patchogue with his wife and three daughters. He teaches Adult Education courses in some of the local school districts.

Your Guests \$4.50 each

The twentieth anniversary of Brookhaven National Laboratory will be remembered for a long while because of the overwhelming demonstration put on by the weather starting March 21.

The storm that started on that day left 16" on the ground before stopping on March 22. This was the greatest amount of snow to fall in a single storm for twenty years.

The total amount of snow for this October to April season was 75", again a new record, easily surpassing the 1947-48 season record of 67". The average seasonal snowfall is 32.5".

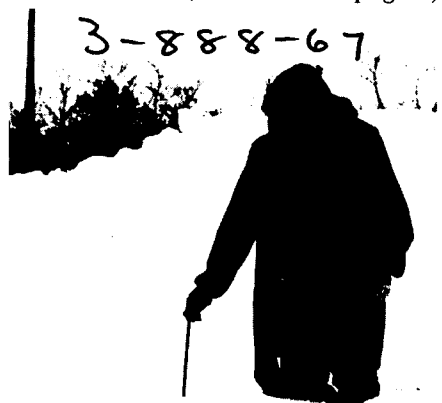

Monthly snowfall records were also broken this year for February and March. February, with a 32" fall was almost four times greater than the average 8.8", and 12" over the previous record year of 1964. March had 31.5", almost five times the average of 6.8", and easily surpassing the 1958 record of 22.5".

Many people and departments are involved in cleanup operations from the time the first flakes start to fall.

When the last storm started at 11 p.m. on March 21, the first person to notice was Police Captain William F. Stafford. When the depth had reached over 1" at 2 a.m., and the roads had started to get slippery, Stafford called Bob Mulcahy, General Foreman of Plant Maintenance at his home. A crew was notified to come in and start the plowing and sanding procedure.

By 5 a.m. it was obvious that the snow was going to continue, and the plows would not be able to keep the parking lots open as well as make the roads passable. A decision was made to call Assistant Director Samuel Tucker at his home and ask for a consultation and decision.

(continued on page 2)

Constance Nagle measures snow

3-909-67

## Winter . . . . .

(continued from page 1)

With more than 4" on the ground, and no signs of abatement the decision was no easy one to make.

Calls were made by Tucker to several weather reporting stations. The weather bureau in New York City, as well as the big metropolitan airports and Bridgeport and New Haven, were all asked for their prediction of the end of the unannounced storm. TV and radio station weather departments were called, as well as the Town and County Highway departments, the State Police, and the Parkway Police, for road condition reports. The Lab police force sent a car to Jericho Turnpike to the north, and to Sunrise Highway to the south to test the condition of roads leading to the Lab entrance.

When all this information was in and relayed to Tucker, a good amount of Horse-sense was added, and the decision was made to close the Lab until noon. By this time it was 6 a.m.

Using a special code designation, the Lab police called all of the radio stations on the emergency closing list, and immediately went on a full emergency basis. Stuck cars had to be moved in order for Ed Hunter's crew to keep the roads and parking lots open for the 2200 cars that enter the lab each day.

By 9 a.m. Samuel Tucker and Ed Hunter were both at the Lab sifting reports from road crews, police, and weather bureaus.

By 10:30 a.m., enough information was available to make the decision to close the Lab for the rest of the day. Again Radio stations were called and asked to announce the closing every 15 minutes. Unfortunately, a few people did not hear the second announcement, and one of the stations was slow in putting it on the air.

According to one senior scientist, forecasting the weather used to be done by using the entrails of chickens, then by a crystal ball, and now by computers. They all seem to be equally effective!

The responsibility for safe travel to and from the Lab belongs to each employee himself.

Shift workers are alerted by the Laboratory police when an early closing is imminent, and some who are unable to get home at the end of their tour of duty are housed on site in the apartments or dorms. The Lab is one of the few places that closes with no loss of pay to employees.

Considering the fact that the storm was unannounced, and that most schools and commercial establishments were open in the morning, the Laboratory, with a little luck and some prayer, called the shots perfectly in its closing procedure.

## Five From Staff Services Pinned

Five members of the Staff Services Group were feted with cake and coffee on the twentieth Anniversary of their start at BNL. Left to right are: John Cross, transportation coordinator; Carl Goomeer, auto mechanic; Charles Gargliano, chauffeur; Anthony Guacci, residence janitor; and George Leuchner, auto mechanic. All started at BNL on March 24, 1947.

## Brookhaven Lecture Series

Wednesday, April 5, 8 p.m.  
Lecture Hall

### The Nature Of the Lunar Surface

Thomas Gold  
Cornell University

The next Brookhaven Lecture will be given by Professor Thomas Gold, Director of the Cornell University Center for Radiophysics and Space Research, and a Trustee of Associated Universities, Inc. He will speak on "The Nature of the Lunar Surface" at 8:00 p.m. on April 5 in the Lecture Hall.

While Professor Gold has contributed to various aspects of astrophysics, he is perhaps best known as one of the originators of steady-state cosmological theories in which continual creation of matter in the universe compensates for its continuing expansion. He has recently been interested in the behavior of interstellar gases.

In his Brookhaven Lecture he will review the recent observations of the surface of the moon, and conclusions that can be drawn from them concerning its properties.

### Maynard Smith To Speak On Air Pollution

Maynard E. Smith, Leader, Meteorology Group, will speak at Worcester Polytechnic Institute, Worcester, Mass., on Wednesday, April 5. His presentation will be "Rural and Urban Air Pollution."

Friday, April 7, 1967, he will lecture on air pollution meteorology at the Department of Epidemiology and Public Health, Yale University, New Haven, Conn. His topic will be "Local Wind Distributions."

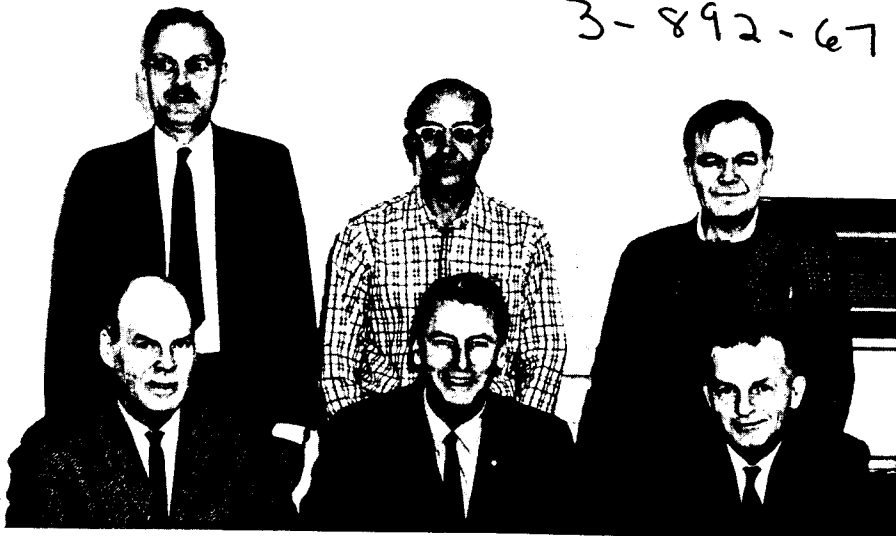

### Softball Soon . . . . .

League organization meetings are being held this week. Entry forms and schedule dates will be announced shortly. Don't Wait! Start rounding up your department team. There's room for everybody.

Plans are being made for the league to start early in May.

## Nuclear Engineering Honors 20 Year Men

3-892-67

The three seated men in the picture all started work on March 22, 1947, they are (L to R) George R. Hardman, Sr. Technician; Winfield J. Lewis, Technical Specialist; and Warren B. Budd, Technical Specialist. In back of the honored men are Orrin Dwyer, Division Head, Warren Winsche, Chairman of the Nuclear Engineering Department, and Herbert Kouts, Division Head.

## Letters To The Editor

To the Editor:

We want to thank our fellow employees in Buildings 158 and 206, also the metal cutters of Building 206 for the fine dinner and liquid refreshments they gave us for our 20 year anniversary here at Brookhaven National Laboratory.

John Zahra  
Doug Daniels

Sir:

Just received the March 23rd issue and was particularly pleased with the picture of the twenty year veterans on page one. I haven't seen many of them for a few years but I recognize all of them. Except for a few additional pounds, a few bald heads, some gray hair, you all look as good as ever. My very best regards to you all.

Bill Ware,  
Retired

Dear Sir:

I admire Dan Schaeffer's viewpoint on using street addresses instead of building numbers, but beg to differ with him. Being an old timer (though not quite old enough to qualify for last week's fine front page photograph) and an ex-newspaperman, I have found brevity to be of prime importance. Dan, isn't it easier to write 460 instead of 40 Brookhaven Avenue? For persons using inter-office mail frequently, T-462, T-463, T-134, etc. is much simpler than the longer street address. Despite a push on using street addresses over the years, you will note two-thirds of each inter-office envelope contain building numbers versus street addresses. Besides, we are not a city per se, but a research center. Perhaps, Dan, we could "patent" a new game called "find the building."

In line that any controversy is stimulating, how about some replies to the following suggestions?

- 1) Repaving of Brookhaven Avenue
- 2) Widening of Railroad Street and additional curbing
- 3) Direct mail service for the warehouses
- 4) Issue of mini-skirts to all female employees under age thirty-five (under age twenty-five?)

Phil Davis, 555

### What's Cooking?

The Cooking Exchange Group will meet on Thursday, March 30, from 3 to 5 p.m. in the Recreation Building at the Apartment Area.

### Local Nursery Donates Plants

Each of the continuing patients at the Medical Research Center was given a hyacinth by Flowerfield Nursery of Holtsville. The plants, which were left over from Easter, were brought to Mrs. Ruth Korsos for distribution.

## They're Feeling Good

As you probably know by now, *The Roar of The Greasepaint, The Smell of The Crowd* tells the story of the ageless battle waged between the "haves" and the "have-nots." But, as you also know, life doesn't exist only as extremes. There is always that middle position portrayed by the Middle Man. In *Greasepaint*, the Middle Man is actually a boy, The Kid, who is actually played by a girl, who is actually a woman, who is actually a very talented performer, who is actually Mary Giambalvo.

Although Mary is not employed at Brookhaven, members of her family are. These include brothers-in-law Phil Connolly at Physics and Walt Becker at Nuclear Engineering. Professionally, Mary is a reading specialist at the Bicycle Path School in Selden. She has studied voice with Yves Tinayre, and Modern and Classical Dance with Martha Graham. Her theater credits, both amateur and professional, read like a catalogue of the American musical comedy. They include leads in *Carousel*, *Finian's Rainbow*, *Pajama Game*, *Bye Bye Birdie*, *West-side Story*, and *The King & I*. For *Greasepaint*, she is not only playing the major role of The Kid, but is also serving as choreographer for the production. As if all this weren't enough, she is currently taking her Masters in educa-

tional psychology at New York University.

Soon after the opening of the second act of *Greasepaint*, a new character enters. He is somewhat shabbily dressed and is immediately lured into playing the Game of Life. After a few faulty starts, he wins. Now, under regular circumstances, this isn't especially extraordinary. But, as of this moment, he is the first person to have won the game, and, to further confuse the situation, he is negro. The Negro, played by Dick Brown of Chemistry, then triumphantly steps into the center of the Game and sings the show-stopping number, "Feeling Good."

Dick's vocal background has certainly prepared him well for this great moment in the show. He sang professionally in nightclubs and on radio throughout most of his bachelor life. He is now married and the proud father of five children, one of whom recently scored a great success as the lead in the Bay Shore High School's production of *Bye Bye Birdie*. Although this is Dick's first stage appearance, we are confident that he will ably follow his son's footsteps.

Tickets are already on sale for this clever and winning musical, which will be presented at the Theatre on April 21, 22, 28, and 29. They can be purchased in the Recreation Office from 9 until 1, and at the Cafeteria from 11:45 till 1:15.

Funds, Retirement Plans, and How to Accumulate \$100,000.

**Fourth Night** - How Analysts Select Investment Opportunities, and Market Trading Techniques.

The Lecture will be conducted by Carl Lanzisera and held in the Brookhaven Center on April 26, May 3, 9 and 16 from 8 to 10 p.m.

Anyone interested in attending the series who has not already registered, please call George Sabine Ext. 391 at the Recreation Office.

The BNL Mailroom at 2 Center Street, Ext. 565, is holding undelivered mail for the following individuals:

Mr. E.N. Cramer  
Dr. Andre Tesniere  
Dr. De Borp

Unclaimed mail will be returned to the sender after one week.

## Kegler's Korner

by Pat Towey

It seems that all is quiet in the leagues at this point - everyone is saving themselves for the big finish. Just a few more weeks and roll-off will begin for winners in each half.

In the meantime I would like to inform bowlers of something new that will be coming their way this week. As part of the Bowling Board's program to improve our entire league for next season, each bowler presently active this year will receive a questionnaire which should be returned at their earliest convenience. The answers to these questions will aid your officers in planning a more active and wider schedule in the future.

Thank you, in advance, for your cooperation and be sure that the Board will take notice of your comments.

## Set Basketball Championship Play

The Basketball League will conclude its action next Thursday evening, April 6 at 7:00 p.m. with the playing of the scheduled Championship Game.

At this writing Applied Math, first half winners, are waiting for the second half results to find out who their opponents will be.

The Old Timers (with no defeats) have a scheduled game with the Knacks (one defeat) tonight. If the O.T.'s take this one they are in the Championship. If not they will have to play one more against the Knacks on April 5, Wednesday at 7:00 p.m. to break the tie.

## Tickets Available

**Recreation Office - 3 Center Street**  
**Daily 9 a.m. to 1 p.m.**

**Discount Tickets:** Tickets may be purchased at 15-20% discount. (No discount for Saturday night performances.) Schedules and prices are posted in the Recreation Office.

All orders must be placed in person at least two days in advance and accompanied by a check or money order payable to the Theatre.

**Mineola Theatre:** March 28-April 16, Tony Tanner and Brian Bedford in "Philadelphia, Here I Come!"

**Westbury Music Fair:** April 4-9 Victor Borge. April 10-16 Phyllis Diller.

**Exchange Coupons:** Coupon exchanged at Box Office for Admission Ticket. N.Y. Coliseum, Photography & Travel Fair, April 5-9. Automobile Show, April 1-9. Island Garden, Circus, through April 9.

**Mail Order Coupons:** Advance sale mail order coupons.

**Madison Square Garden:** Ringling Bros. Barnum and Bailey Circus, evenings only. April 5, 6, 13, 18, 19, 20, 25, 26 and 27, May 2, 3, and 4.

**Ticket Service:** Tickets for purchase at Recreation Office, Met and Yankee box seats.

Don't miss this year's BERA Special  
"Brubeck at Brookhaven"  
Tickets on sale now.

## BERA Film Series

Thursday, April 6, at 8 p.m.  
Lecture Hall

### Ikuru (To Live!)

This film directed by Akira Kurosawa, starring Takashi Shimura, has been acclaimed as one of the best Japanese films ever made and also one of the world's finest cinematic achievements. *Ikuru* is the search for the meaning of life by a man who knows that he has but a short time to live. It is a search illuminated by some of the most brilliant cinematic images ever seen on the screen and by a memorable, matchless performance by its leading actor.

The hero, a minor municipal clerk learns he is dying of cancer. He tries to make his last few months meaningful, but finds that the exotic life of the sensualist is not for him. The means that he finds to give his last days a sense of worth are brilliantly shown.

Kurosawa has made a stunning and forceful comment upon contemporary Japanese life as well as some excellent probings into the mores of petty bureaucrats. The film is a moving and extraordinary document of our time and its urban civilization. (140 minutes)

### Movie Tonight

To Die in Madrid. Short, Seeking.

### Autos & Auto Supplies

64 HONDA - 250cc, new battery, plugs & rear tire, excel cond. Asking \$325. HA3-7097 after 6 p.m.

66 HONDA - 65cc, black, excel cond, 4000 mi, 200 mpg. \$225. 289-3190.

59 CHEVY IMPALA - 2 dr, 348 ci, 250 hp, Husrt 3 speed, 370 rear, new clutch & trans. Asking \$200. WA9-4910.

50 CHEVROLET - Ragged around edges, but still going strong. \$25. Ext. 2344.

66 HONDA - Model CB110, 65cc, 2000 mi, excel cond. \$250. Ext. 2266. GR5-4579 after 6 p.m.

57 PONTIAC - 4 dr, 8 cyl, auto trans, good cond, and it goes. \$75. Ext. 2266. GR5-4579 after 6 p.m.

VW HANDBOOK - Repairs & maintenance, "Fix your Volkswagen" by Jud Purvis. \$2.50. G. Drews, Ext. 2248. 744-5149 after 6 p.m.

VOLKSWAGEN - Rocfrack tubular construction, \$10; spare fuse & bulb kit, \$2. G. Drews, Ext. 2248. 744-5149 after 6 p.m.

65 PONTIAC LEMANS - 2 dr hard top, vinyl top, 326, V-8, auto trans, power seat. \$1600. W. Alexander, Ext. 613.

61 CHEVY IMPALA - 2 dr, hard top, V-8, 3 speed on floor, fair cond, runs well. Will take best offer. Tony, Ext. 7356. PA7-3492.

63 CHEVY WAGON - 6 cyl, std trans, orig owner, low mileage, perfect cond, new w/w tires. \$1225. Ext. 639.

63 FALCON - 4 dr, manual trans, low mileage. \$650. J. Humbert, Ext. 2152, AT9-0829.

55 OLDSMOBILE - Reliable (has never failed me), excel 2nd car, new brakes, 2 new tires, new front end (all 2000 mi ago). \$65. John, Ext. 7461.

64 CHEVY PICK-UP - R/h, heavy duty springs & clutch, 8' body, clean, low mileage truck. \$1150. J. Dispart, Ext. 2389, 281-8943.

60 CITROEN - 1D19, 4 dr, good engine. \$125. Ext. 7660, AT6-8453.

61 MERCURY MONTEREY - 2 dr hardtop, 235hp, ps/pb, creme w/gold interior, excel cond. MO9-5962.

59 FORD WAGON - Country Sedan, V-8, new tires, battery, carb, fuel pump, shocks, wires. A. Meade, Ext. 7634 or 543-8736.

58 CADILLAC - 4 dr sedan, only 80,000 mi. Must sell, even for as little as \$150. AT6-9471.

64 FALCON - 4 dr, std, 38000 mi. \$850. C. Gould, Ext. 2263, AT6-9669.

59 FORD PICK-UP - V-8, 8' box, 2 new tires, booster springs, 1 ton capacity. \$450. YA4-3298.

51 CHEVROLET - 4 dr, sedan, r/h, 6 cyl, new snow tires. \$95. YA4-3298.

63 CORVAIR MONZA - Conv, 4sp, radio, w/w tires, good mech cond. \$550. Doreen, Ext. 2114, 727-5927 evenings.

63 CORVETTE STINGRAY - 2 tops, light blue, 327-340 hp, 4sp close ratio trans, posi, 370 rear, AM-FM radio. \$2200. Ext. 7735, AT6-8517.

67 VW "BUG" - 7,000 mi. Owner wants larger car. \$1,450. B. Kohler, Ext. 395.

60 DESOTO - V8, ps, r/h, auto trans, lt blue, new battery, fuel pump, carb. \$400. A. Laurine, Ext. 448.

64 CADILLAC - De Ville conv, must sell, powder blue, all power, excel cond. \$2395. SE2-3443 anytime.

59 CHEVROLET IMPALA - 85,000 mi, good second car. Best offer. B. Hertzendorf, Ext. 7677.

60 CHEVROLET IMPALA - Conv, needs muffler, second owner. SE2-7939.

63 PONTIAC TEMPEST - Sport coupe, white, 45,000 mi, good tires, new battery, 19 mpg on regular gas. R. Britton, Ext. 7239 or 941-3609.

54 CHEVY PICK-UP - 1/2 ton, new brakes, 2 new rear drums, 4 new shocks, battery, spring, universal, 5 good tires, new radiator hose. J. Zahra, Ext. 7698, HR3-2889.

60 PEUGEOT - Model 403 sedan, 48000 mi. \$250. Ext. 2715.

59 VOLKSWAGEN SEDAN - Good for parts. \$200 or best offer. I. Ino, Ext. 2479.

### Boats & Marine Supplies

18' LYMAN SKIFF - Custom cabin, 45hp Gray Marine engine, excel cond, all accessories, in water. \$600. H.P. Richardson, Jr., AT6-8610.

12' LAPSTRAKE - Fiberglass bottom, excel cond. \$50. W. MacLeod, GR5-7694.

19 1/2' PENBO-LAPSTRAKE - 1959, cabin sleeps 2, head, navy top, 50 hp, Johnson elec built-in 20 gal tank, all equipped. \$950. AT9-0265.

23' CHRIS CRAFT - Cabin Cruiser, 95 hp, inboard, navy top, 2 bunks, head, sink, etc. AT6-1258 after 6 p.m.

22' SEA SKIFF - Cedar lapstreak construction, cabin, lg cockpit, 100 hp inboard. Asking \$550. L. Schairer, AT6-1024.

### Miscellaneous

SLIDE PROJECTOR - Argus 200, 4" f 3.5 lens with 100 slide carrying case, perfect. \$10. C. Roselius, SE2-3350.

MATTRESS - Double bed size, brand new, used only a few times, very firm. Cost \$40, price \$30. Bill, Ext. 2543 or 286-8733.

LARGE CARRIAGE - Like new, \$10; infant spring scales, \$2; infant swing, \$5; infant car seat, \$5. Bill, Ext. 2543. 286-8733.

MOTOROLA TV - 23" square picture tube, console walnut. GR5-4596.

ALBANY COACH - Made in England, like new. \$60. GR5-4596.

BABY STROLLER - Fair cond. Best offer takes. A. Severson, Ext. 2338, 286-3527.

VERNIER CALIPERS - 6 in, 2 scales, 1/28 and 1/1000, satin-chrome finish, made in Germany, perfect cond. Ext. 2204.

OIL BURNER GUN - 5 Honeywell controls; 30" medicine cabinet with sliding mirror doors & fluorescent lite. Joe, YA4-3350.

MAGNAVOX - Theatre Stereo, AM/FM radio, 23" TV, Danish inspired walnut cabinet, excel cond. Asking \$200. Joyce, Ext. 2532, 744-2558.

REFRIGERATOR - 11 cu ft, Philco, 105lb freezer compartment. \$30. 281-8111.

CAR RADIO - Motorola, 6 volt, \$10; Bilt-Rite carriage, \$20; Craftsman planer, \$15; 2 rims for Opel, \$4. R. Williams, Ext. 7180.

BEDROOM SET - Walnut, all formica finish, one mo old, double dresser w/tilting mirror, twin headboard & frame, chest, night table. Bunt, GR5-7931.

WATERFRONT PROPERTY - Mattituck inlet, high wooded lot, 140'x240'. P. Kreh, MA9-8758.

LOUDSPEAKER - 12" co-axial, Model SK-58, 8 ohm, 20 watt. Ext. 2287.

SLOT CAR SET - 1/24th scale, many extras. Asking \$65. 878-2134 after 5:30 p.m.

BELLPORT - Non development, split, 7 rms, 1 1/2 bath, basement, o'size garage, fenced pard, landscaped, sun deck, s/s. Asking \$13,000, easy terms. AT6-1363.

SMITHTOWN - 4 yr old hi-ranch, 3 bedrm, living rm, dining rm, lg kitchen, double garage, s/s, basement, landscaped, fenced, sidewalks. AN5-6483.

CALVERTON - 2 bedrm expando mobile home on priv property, w/w carpeting, appliances, 300' from lake, unfurnished, must see to appreciate. 727-0136 after 5:30 p.m.
