## The Limits Of Violence

Webster's dictionary defines violence as an expression of vehement feeling; an exertion of physical force so as to injure or abuse; an intense, turbulent or furious, often destructive, action or force.

Every newspaper and periodical literally screams of violence - in our own country, in Paris, in Mexico City, in London. A sorely troubled world almost wallows in an age of violence.

Adam Yarmolinsky, an internationally known lawyer, government advisor and Professor of Law at Harvard University, has chosen "The Limits of Violence" as the subject of his lecture to be given at BNL on Thursday, November 7. Professor Yarmolinsky will be the Seventh AUI Distinguished Lecturer.

Adam Yarmolinsky

According to Professor Yarmolinsky, "Government must be more than an umpire, but it cannot afford to become an antagonist."

"... Perhaps one reason why Americans have turned away from Government - as they have in the last few years in disturbing numbers - is that they see it as an antagonist."

"... The art of Government consists of solving problems, not in suppressing them."

A member of the Institute of Politics, John Fitzgerald Kennedy School of Government at Harvard, he is also a member of the New York and District of Columbia Bars, Association of the Bar of the City of New York, and the American Bar Association. He serves as a member on the Council of Foreign Relations and the Institute of Strategic Studies (London).

The lecture, to be held in the BNL Theatre, will begin promptly at 8:30 p.m. There are no admission tickets.

## Climb On The Fund Wagon Return Your Pledge Card

With only 39% of this year's goal already pledged, there is still time to fill out a fair-share pledge for the United Fund of Long Island.

As of October 24th, \$1,244,676 has been pledged toward the total goal of \$3,200,000 for the 1968 Fall Campaign for the United Fund. This year's fund appeal will help 57 voluntary agencies and 19 non-profit hospitals provide much needed health, rehabilitation and character-building services to over 600,000 Long Islanders in both Nassau and Suffolk Counties.

The pledge card sent to each employee will allow a simple payroll deduction that can be listed as a deduction at income tax time. Show you care for your neighbors. Check Fair Share.

### Coming Attractions

- 11/5 Election Day
- 11/7 AUI Distinguished Lecture (BNL Theatre)
- 11/13 Hospitality Tea & Sherry Party (Brookhaven Center, 3-6 p.m.)
- 11/13 Navy Lecture (Brookhaven Center, 7:30 p.m.)
- 11/13 BNL Lecture (Lecture Hall, 8 p.m.)

## Visitors' Day Crowds Enthralled

10-933-68

Harvey Wegner of the Physics Department ends a fascinating lecture and demonstration in the Exhibit Hall by releasing a balloon into the audience. More than 6,250 people came to BNL last Saturday to attend the annual "open house" that allows the general public to get an over-all view of the work accomplished here.

## Advisory Group Meets To Report On Action

The seven-member committee formed last year to advise the Director on Equal Opportunity at BNL met on Wednesday, October 22, in the Personnel Office to present a review of affirmative action progress.

Each of the members presented a segment of the report to Lab Director, M. Goldhaber, on action taken to implement the AEC's and the Lab's policy of non-discrimination.

According to Chairman Harold Avent, the committee has interviewed Department heads and administrators on the practical aspects of the Lab's affirmative action program. As a result of these interviews, the committee has received many suggestions and observations that have been helpful in initiating some affirmative action in areas of employment, compensation, upgrading and technician training.

"While much has already been accomplished as a result of the committee's inter-

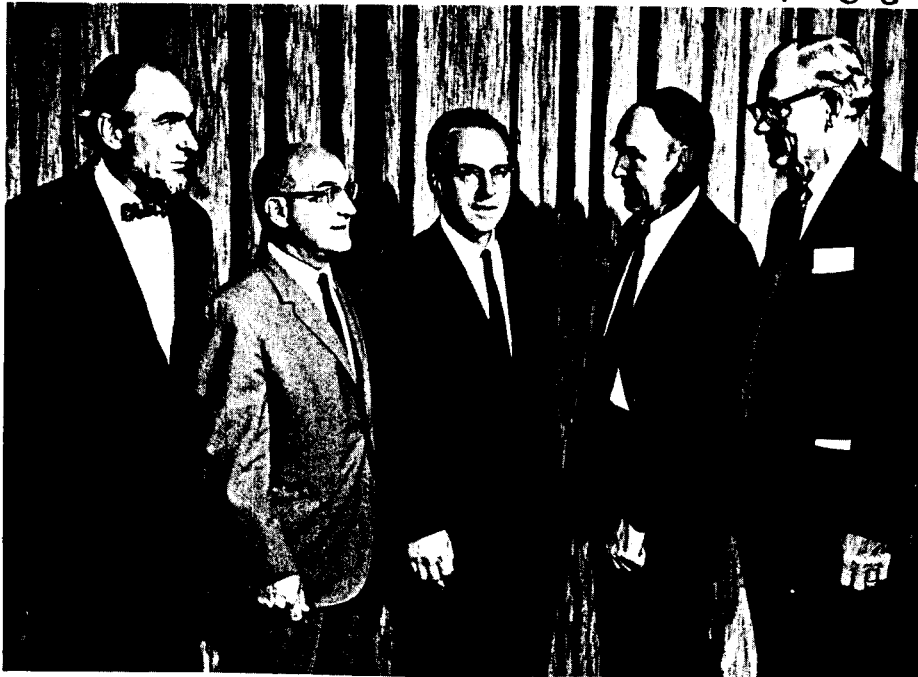

views," said Avent, "it is hoped that an increased awareness of the committee's work will lead to an expansion of areas where action can be taken."

The Equal Opportunity Advisory Committee plans to enlarge the scope of its interview program with the aim of informing a larger segment of the Laboratory population about ways and means of making the policy of equal opportunity a practical program.

Other members of the committee are: Walt Milian, Plant E&P; George Bryant, Instrumentation & Health Physics; Louis Remsberg, Chemistry; Ella MacLean, Photography; Paul Kelly, Plant E&P; and Margaret Hind, Applied Math. Comments or suggestions to the committee should be addressed to any member of the committee; to J.S. Washburne, Personnel Manager; or to R.C. Anderson, Assistant Director for Scientific Personnel.

## University-AEC-Laboratory Meeting

10-857-68

Attendees at the dinner session of the University-AEC-Laboratory Relations meeting held at BNL on Thursday, October 24 include (left to right): Dr. R.C. Anderson, Assistant Director, Office of Scientific Personnel; John C. Cera, Assistant to the Director, Division of Nuclear Education and Training, AEC; Dr. Maurice Goldhaber, Director, BNL; Dr. F.A. Long, Chairman, Board of Trustees, AUI; and Dr. Philip N. Powers, President of Argonne Universities Association. Dr. Long and Dr. Powers gave talks on the nature and functions of AUI and AUA respectively.

## Ten Thousand Like Us Enough To Come And Call

Last Saturday, October 26, the general Visitors' Day was attended by more than 6,250 people, to make a total count for the two annual events over 10,000.

Cars loaded with visitors were lined up at the main entrance well before the opening time of 9 a.m., and the day was bright and clear. By the time the first entrance period was ended, parking had been extended to the area to the west of the theatre, and before the day was ended, parked cars had almost filled the field near the Meteorology Towers.

In contrast to the hustle and bustle of the High school students of the previous week, last Saturday the visitors were mostly family groups that were slower walking and more attentive to the individual exhibits. Cub Scouts, Boy Scouts, Girl Scouts and Sea Scouts in uniform added a lot of color to the general scene, and in spite of the hundreds of toddlers wandering around the site there were no real cases of lost children - only a few that were "temporarily misplaced."

The many senior citizens who came were pleased at having bus service from one exhibit area to another, and many of them rode the entire circuit two times in order to more fully absorb what they had seen. The small army of visitors this year were typical of any army in that they seemed to travel on their stomachs. In total, they were responsible for the consumption of tons of food including: 4600 hamburgers, 4900 cans of soda, 5500 pieces of cake, and almost 400 gallons of coffee.

Interest shown this year in the various exhibits was a clear indication of the quality of the exhibits. The most frequent observation overheard was that coming to BNL was like being at the Worlds Fair.

Dr. Maurice Goldhaber, Lab Director, expressed his gratitude to the hundreds of staff members who worked during the two days as follows: "I wish to extend my thanks to all who gave so generously of their time and talents to make BNL's 1968 Visitors Days programs a success."

"The interest of the personnel involved in the program, I am sure, was passed on in a large measure to the visitors, and I am certain the visitors left BNL not only with a broader understanding but also with a greater appreciation of the research the Laboratory is doing."

Mariette Kuper and Virginia Sayre wound up the day by saying that Visitors Days are always a double pleasure because they love to see the high school students and general public enjoying themselves on their day at the Laboratory. "We also enjoy the months of planning ahead because we work with so many employees who we don't get to see or work with at other times of the year."

## November 13 Set For Tea and Sherry Party

The Hospitality Committee's fourth semi-annual tea and sherry party will be held on Wednesday, November 13, from 3 to 6 p.m. at the Brookhaven Center.

American and international delicacies from many of the countries represented at the Laboratory will be served.

Children will be cared for free of charge in the gymnasium, 3 Center Street.

Wives of employees are invited to attend the tea and sherry party between the hours of 3 and 6 p.m. and women employees from 5 to 6 p.m.

Newcomers to the Laboratory and those who have been here for some time are all invited. Please plan now to attend what should be a delightful afternoon.

## Election Day Working Hours

The normal working hours for the Laboratory on Election Day, Tuesday, November 5, 1968 will be from 8:30 to 3. However, employees working this schedule will be paid for the regular day. Employees in positions which require a full 8 hours of service will be paid for two additional hours of work at straight time.

Time cards for employees working the normal Election Day schedule will show 1500 as their time out. All time cards will show time actually worked and "E" will be entered in the Remarks column. Consequently, the two hours of time off for voting purposes will be at straight time pay for all employees.

**A Fair Day and Interesting Exhibits Brings Out Many Visitors**

10-958-68

After leaving the Reception Center a long line of people waits for the bus to start them on a tour of the Lab. Photos by Rosen

10-969-68

First stop for all visitors was the Reception Center where tickets were checked and programs and literature was given out.

A spark chamber on exhibit by the Accelerator Department fascinated many family groups.

Housewives and biology students alike asked detailed questions at the Biology Department display.

10-950-68

Mechanical hands are a sure-fire attraction to the many children who visited last Saturday.

The Amateur Radio Club was busy in the gymnasium sending messages.

The loading face of the Graphite Reactor is viewed with awe by most visitors who come here.

Public Relations Officer

**Defend Your Rights  
State Your Views**

Tuesday, November 5th, is the day when every American has the chance to express his views. Use your great privilege to cast a ballot for your candidate for public office.

It is important to remember that all the candidates listed on your local voting machine are deserving of an expression of your opinion by the casting of a ballot.

Polls in each district are open from early morning till late evening, and working hours have been adjusted on election day to allow each employee a chance to vote at a convenient time. Don't pass up this chance to make your opinion meaningful. Vote on Tuesday, November 5.

**Attention Artists**

It's time for the annual exchange of paintings at the hospital of BNL's Medical Research Center. These paintings have given much happiness to the patients, and it is hoped that artists will be as generous this year in loaning their work as they have been in the past.

Paintings which were loaned this past year should be picked up on November 7 or 8 at the Occupational Therapy Room in the Medical Department. Paintings or collages to be loaned for the coming year should be taken to the same place on those dates. All works must be framed and ready for hanging, and may be marked "for sale" if the artist wishes. Of course, all paintings are fully insured by the Laboratory.

New participants in this annual exchange are most welcome. If there are any questions, call Mrs. Ruth Korsos, Extension 7449, or Mrs. Lewis Dahl, AT6-0379.

**Here and There**

Dolores del Castillo

Powell Richards (NED) visited the University of Pennsylvania Hospital and the Bionuclear Department of Purdue University to discuss medical radioisotope areas of mutual interest, October 22-23.

Joseph Damm (Central Shops) is recuperating at home after surgery to repair a crushed nerve in his neck. His co-workers wish him a speedy recovery.

I.A. Singer (Meteorology) recently presented two papers at a Symposium on Urban Climates and Building Climatology, held in Brussels, Belgium. The symposium was sponsored by the World Meteorological Organization. Following the meeting, he visited the Danish AEC, Denmark, and Stichting CONCAWE, the West European Air Pollution Research Group in the Hague.

C.W. Cox, Australian AEC, will visit the Laboratory, November 4-5, to discuss neutron diffraction.

Carlos A. Melendres, Philippine AEC, will visit the Laboratory on November 6 to discuss nuclear chemistry and molecular physics.

Harry Hurst of Rutherford will be at the Laboratory on November 6 to discuss the Hough-Powell device.

**Tax Deductions for Reservists  
by Frank Bloom**

Many BNL employees serve in a Reserve or National Guard unit. They attend regular drills throughout the year and pull a regular duty tour of two weeks once a year. In performing these duties they incur many unreimbursed or only partially reimbursed out of pocket expenses. The net expense to the individual can be deducted on his tax return in different ways, depending upon the type of expense. Some of the more common items are listed below:

1. Reporting to a distant post - Any expense for transportation, meals and lodging costs in excess of your reimbursement are deductible from gross income.
2. Local transportation - Local trips in the area of the duty station (cab, private car, subway, etc.) are deductible, to the extent not reimbursed, from gross income.
3. Commuting - The travel expense from your regular job to the Reserve meeting is deductible from gross income.
4. Uniforms - Unreimbursed costs for replacement, cleaning and maintenance of uniforms are deductible as an itemized deduction on page two of the tax return (not from gross income as in the above cases).

Remember that unreimbursed auto expenses can easily be taken by using the approved flat 10¢ per mile rate for mileage incurred. Above all, keep in mind that you must maintain adequate records to support the above deductions.

**Cafeteria Problems  
Being Eliminated**

Some people say they like the acoustics of the new cafeteria because it sounds like a cocktail party and turns them on! Others say that the noise level is so high that it interferes with the discussion of research and other BNL business that takes place during the lunch period at the cafeteria.

The consensus seems to be that the noise level is higher than it should be. Since the cafeteria first opened, the Laboratory has been undertaking an investigation of the best way, all things considered, to reduce the noise in the dining room.

Discussions have been held with the architect, acoustic consultants, and manufacturers of sound absorbing materials. The problem in our cafeteria is complicated by the desire to provide effective acoustical treatment while at the same time conforming as much as possible to the architectural character of the room. Further, the desire to disrupt operations as little as possible and the ever-present budgetary problem cannot be ignored.

**Cooking Exchange Meeting**

On Thursday, November 7, from 3 to 5 p.m. a meeting of the Cooking Exchange will be held in the Apartment Area Recreation Building. "Desserts" will be the theme of this meeting.

A charge of 50¢ will be collected from each adult to pay for the cooking demonstration as well as the babysitters available for the children.

Cafeteria patrons may rest assured that the noise problem is being attacked as vigorously as its many facets will allow.

The parking situation has also raised a question. The large parking area originally planned for the new cafeteria was temporarily shelved because the monies were needed in other areas of the building and because of the proximity of the large lot which served the old cafeteria. When the old cafeteria comes down this winter, a paved path from the existing large lot is planned. Later, as funds permit, consideration will be given to additional new parking lots.

Another item that is being corrected is the flavor of the water used by the coffee bar. New tubing of a different type has solved most of the problem, and a special filter system will be installed if necessary.

There is also a considerable amount of congestion at the condiment-flatware bars. A design study is underway to correct the present awkward arrangement.

As with any new building, many deficiencies, including the few mentioned, have been or are being corrected.

**Mountain Club Meets**

The BNL Mountain Club will meet at 8 p.m. this evening, Thursday, October 31, in the Recreation Building in the apartment area.

After a discussion of possible future trips, there will be a practice session in knot tying and rope handling for climbers. All present members and interested employees are invited to attend.

### Vended Food Service Relocated In Bldg. 912

Vended food service, formerly located in the East Room of the old cafeteria, has been moved to Building 912, the AGS Experimental Building.

This new space has been opened to permit continued availability of food on a 24-hour-a-day basis. Hot and cold beverages, sandwiches, some hot foods and pastries are provided. A parking lot is near-by, just to the northeast of Building 911, the AGS Service Building.

For those not familiar with the location of Bldg. 912: proceed east on Cornell Avenue from Upton Road, turn left on Rutherford, and left again at Lawrence Drive. As you pass the AGS Service Building to the left, you will see Building 912 ahead to the left and the parking lot ahead to the right.

### BNL Rifle & Pistol Club

The Fall Large Bore Shoot took place at the Medford Range on Sunday, October 6th. Paul Colsmann led the BNL riflemen with a score of 179 out of a possible 200. Al Lukas was second with a score of 178, while Paul Buhl was third with a 177.

The competition was close and a beautiful afternoon was enjoyed by all who attended. Frank German

### Olympic Films - Free Refreshments

Stop after work at the Recreation Building on November 6. The Volleyball Officers are inviting everyone to drop in at their Open House which will feature Olympic Volleyball Films, beer and some food.

Volleyball captains adjust net before the start of a game.

Stop by and find out what our Volleyball Activity is all about and how you can join the action.

#### Dates to Remember -

**Monday, November 11** - Deadline for team rosters and individuals to submit names to the Recreation Office.

**Monday, November 11, 5:30 p.m.** - Practice and Clinic at the Gym.

**Wednesday, November 13, 5:30 p.m.** - Practice and Clinic at the Gym.

**Monday, November 18** - League play begins.

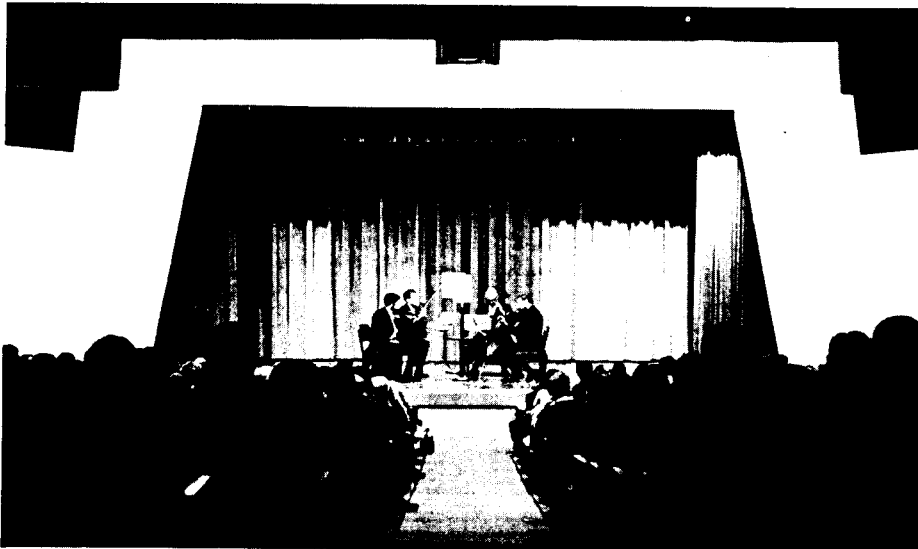

### Dance Demonstration Class Registration

Arrangements have been made with the Arthur Murray Dance Studios to have two of their experts present a demonstration of the latest dance techniques at the Recreation Building, Wednesday, November 13 at 8:30 p.m.

At that time registration will be accepted for a 10-week course of instruction which will be held on Wednesdays from 8:30 p.m. to 10:00 p.m. if enough employees register. A fee of \$15.00 per person for the complete course must accompany your registration (cash or check will be accepted).

You may bring your wife, husband, girl or boyfriend, or come alone if you prefer. The class will be organized based on your interest on November 13. So come out and voice your opinion. Do you want to learn to dance, to dance better, to learn the Latin American dances, one of the latest dances, the waltz? If your answer is yes to any of these, stop on the 13th and meet our expert - Delicia Kanetis, Member of the Royal Academy of Dance Imperial Society of Teachers of Dance.

### Interpretive Group Without Peer

A spellbound audience listens to the Juilliard Quartet, featured artists at the first concert of the 1968-1969 BERA season. The largest audience ever attending a concert filled Berkner Hall. The acoustics of the Hall lent a new magnificence to the musical instruments, and gave promise of a new era of fine listening at the Laboratory. Season concert tickets are on sale at \$10 for adults and \$5 for children. Single tickets may be purchased for each concert at \$3 for adults, \$1.50 for children and \$3.50 for non-employee guests.

### Maple Leaf Drag A Real BLAST

The Lab's sports car club rally, "Maple Leaf Drag," went off without a hitch Saturday night. Rally masters Bill Barnes and Bruce Stephen conjured up an excellent course through the North Shore and ending up in Smithtown. The many speed changes (at short intervals) made the navigators work harder than usual.

Stan and Jackie Anderson took first place in a 1968 Volvo 144S. Second place went to Fred Knoll and Dan Pagnani in a 1968 Firebird. A 1968 Camaro driven by John Brown and Lorraine Krause made third place, and dead last went to Russ Dennis and Peggy Czaplicki in an A/H.

### Local 2230 IBEW Has A Real Swinger

It was a ball - that Fourth Annual one given by Local 2230, IBEW, last Saturday night. The dancing went on to the early morning hours, and everyone of the 350 persons who attended the Ball had a fine time.

V. Lampasona, holder of ticket #3253, had an especially good time because his lucky ticket won the color television set. Jerry Svoboda held lucky ticket #892 and he won the polaroid camera.

The dance committee thanks everyone for their wonderful support, and promises that next year's Ball will be an even greater success.

### Indian and German Costume Featured 10-1060-68

Among those attending the Hospitality Coffee held this past Monday are, left to right: Padma Bhat; Davindar Singh; Rani Jamuar; Polly Van Horn, Chairman of the Hospitality Committee; Ruth Dimmler; and Regina Backurts.

### Autumn Magic Produces Prizes Galore 10-712-68

Even if you don't win one of the prizes pictured above, you're a winner if you attend the Autumn Harvest Dance this Friday, November 1 in the Gymnasium. In fact, since BERA supports this dance, you lose money if you stay away. Don't miss the two days of dancing - you can start at 9:00 p.m. on November 1 and finish at 1:00 a.m. on November 2 if you're up to it. If you're not, come and be entertained by Wayne Foster. Refreshments will be available at cost. If you prefer - bring your selection.

### Pool Opens Schedule to be Almost Doubled!

Our maintenance repairs have been completed and the Swimming Pool will be opened on the following temporary evening schedule beginning Tuesday, November 5.

**Weekdays 5:15 - 9:30**

We expect to complete arrangements very shortly to extend the schedule considerably. As soon as the plans are finalized the following schedule will be immediately effective.

#### Monday through Friday

12:00 Noon - 3:00 p.m.

5:00 p.m. - 9:30 p.m.

As you know, our Recreation Programs are always dependent on your interest and support. Now is the time for you to show both. Stop by or call the Recreation Office, Ext. 391, and order your season pass.

Evening swimming in the pool does not need to involve exercise.

Checks should be made payable to BERA and mailed to the Recreation Office, 3 Center Street. If you are ordering a "Family Ticket," please tell us how many are in your immediate family so that we may issue a pass for each member.

The Fall-Winter-Spring Season will run to June 13, 1969 and the following admission schedule will be effective as of November 5.

#### Admission:

Daily - Employee (Family Member) 35¢  
Guest 60¢

#### Season - Unlimited Swims

Employee \$10.00  
Family Member \$10.00  
Family \$20.00

Guests must accompany the employee who is permitted to bring a maximum of 5 guests per family each visit.

### Bowling News

Irma Carl

#### Purple League

High games for the week were VanNorman 201, 204, 585 series; Scesny 215, 581 series; and Iarocci 204, 202, 553 series. Joe Scesny holds high average with 195.

Standing after the final round:

	Won	Lost
Twisters	38	11
Phoubars	29	20
S & M	28	21
Woodbutchers	26	23
Designers	23	26
Bagel's Buns	20	29
Hopefuls	19	30
Fiscal	13	36

#### Green League

Exots holding their own as No. 1 while the Reefers have moved up to second. High scratch series were bowled by Strier 539, MacCormack 533, and Belligan 532. High games: Strier 225, Belligan 206, Newham 205, Tomesch 202, and Caunter 201.

#### Red League

Spoilers in first. New high team series of 3056 is held by the Bio Racks and high gross game of 277 by G. McGovern. J. Jenny and S. Kiss bowled high games this week - 213 and 204 respectively. J. Ferranti holds high average of 178.

#### Pink League

The Medigals and Bio Boozers continue their hold on to first and second. Thought it only fair that other teams receive honorable mention in this column - how about those All Toes capturing eighth place! Fiscal Asset's Marie Brenner rolled high game of 194 - nice bowling Marie - everybody was rooting for you in that tenth frame. Our high average holder is Helen Caisey.

### BERA Film Series

No movie on October 31 - Halloween
