## Inaugurate Scientific Lecture-Visit Series

Professor Francis Low of MIT will be the first invited lecturer of the newly-created Brookhaven Distinguished Lectureships. Through the medium of the lectures, important scientists will come to the Laboratory from time to time for productive interactions with the BNL staff.

Professor Low, who will be visiting the Physics Department on January 8 through 10, 15 through 17, and 27 through 31, will deliver a series of lectures entitled "High Energy Scattering - A New Approach." In addition to his lectures, Professor Low will be available for informal discussions with members of the Physics Department Staff.

Professor Low is extremely well known in the field of theoretical high energy physics. His contributions to the theory of elementary particle interactions have been fundamental.

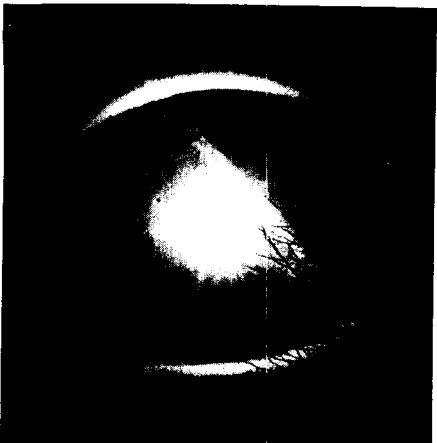

After getting his PhD at Columbia in 1949, he subsequently held appointments at the Institute for Advanced Study in Princeton, and the University of Illinois, Urbana. Since 1957 he has been a Professor in the Physics Department at MIT. He has previously given the Loeb Lectures at Harvard University.

## Halo Photograph Gains Wide Fame

The halo photographed by Mort Rosen of Photography, at the request of the Meteorology Group, which appeared in the *Bulletin Board* this spring has aroused much interest among atmospheric physicists.

Dr. R.S. Scorer of the Imperial College, London, plans to use it in his monumental cloud atlas, to be released soon, and Dr. R.A.R. Tricker from England will include the photo in his forthcoming book, *Meteorological Optics*. Dr. Hans Neuberger of the Pennsylvania State University, commenting on the phenomenon in the latest issue of the *Bulletin of the American Meteorological Society*, describes it as "an excellent picture of a circumscribed halo," and Dr. Tricker in a private communication to J.A. Frizzola of the BNL Meteorology Group, has indicated that it is the only photo he has ever seen of the phenomenon.

A color picture of the halo has been made up as a greeting card, and can be purchased from the Film Services Office at 3 Center Street.

A circumscribed halo

## Christmas Tree Decorated

Teddy Logan (in bucket) fastens a string of lights to the top of the spruce tree on Brookhaven Avenue, near the entrance to the Brookhaven Center. On the ground, Walter Kirkman and Jack Barry hand the lights to Logan. Each year the men from the Electric Division of Plant Engineering and Planning decorate this tree for the holiday season.

Photo by Walton

## Did Hong Kong Flu Begin In Red China?

According to physicians in Hong Kong, the influenza strain known as A/2 Hong Kong/68 originated in central China and was brought to Hong Kong in July. Four months later travelers from Hong Kong carried the disease to the United States.

A Hong Kong city councilor has denounced foreign newspapers and foreign health authorities for tagging the flu with the colony's name. He has proposed that the proper name for the disease should be China Flu.

## Christmas Banking Hours

The Peoples National Bank facility on site will be open at 10 a.m. and will close at noon on Tuesday, December 24.

## 1969 BNL Holidays

Wednesday	January 1	New Year's Day
Friday	February 21	Washington's Birthday*
Friday	May 30	Memorial Day
Thursday	July 3	Extra holiday for 1969
Friday	July 4	Independence Day
Monday	September 1	Labor Day
Thursday	November 27	Thanksgiving Day
Friday	November 28	Fixed Holiday
Wednesday	December 24	½ day before Christmas
Thursday	December 25	Christmas Day
Friday	December 26	Extra holiday for 1969

\*Since February 22, Washington's Birthday, falls on a Saturday, the holiday will be observed the preceding Friday, February 21.

## A/2 Hong Kong/68 Still Going Strong

The latest visitor from the Far East, named A/2 Hong Kong/68, is in the same family as the more familiar Asian Flu. Expected to reach its peak in the east by the second week in January, the "bug" is expected to make its effect felt in all departments of BNL.

If you are wondering about how it feels to get the Hong Kong Flu, here are the symptoms that you should watch for.

The typical influenza infection comes on abruptly with headache, muscle aches, chills and fever. The patient usually has a flushed face and the eyes are red, the throat is dry, and there is a slight cough as well as a temperature usually over 101°. The uncomplicated disease which is similar to a bad cold, lasts from 2 to 5 days.

The most common complication is bacterial pneumonia which occurs in a relatively small percent of cases.

Treatment for the flu consists of aspirin, rest, and lots of fluids. Antibiotics are *not* of value in the *primary* disease, but should be used if pneumonia or other bacterial complications develop.

Although our best available preventives of influenza, inactivated vaccines, are among the least satisfactory immunizing agents in general use today, they often have been marginally effective, offering rather brief periods of protection. They also produce local and systemic reactions with relatively high frequency. Public health recommendations in recent years have acknowledged these limitations and have encouraged only selective influenza vaccination. Annual influenza vaccination has not been recommended for the entire population.

Optimally constituted influenza vaccines have achieved 60 percent or greater protection against the same or closely related viral strains. However, vaccines in general civilian use often have not appeared to achieve this degree of protection.

Protection through vaccination depends both upon the antigenic similarity of the vaccine strain to the virus prevalent in the community and upon the amount of antigen administered. When A2 influenza virus appeared in the United States in 1957, vaccines containing only A1 antigen gave very little protection.

Current vaccines may provide only limited protection against A/2 Hong Kong/68. Better protection against A/2 Hong Kong/68 will require a newly formulated vaccine.

The development and manufacture of a monovalent influenza vaccine containing a Hong Kong strain will take a considerable period of time, and only a limited number of doses will be initially available.

It is therefore recommended by the Public Health Service Advisory Committee on Immunization Practices that currently available bivalent and polyvalent influenza vaccine be given only to persons at highest risk or mortality or severe complications as a result of influenza, such as the chronically ill or the aged. When monovalent vaccine becomes available the same groups should be vaccinated or re-vaccinated with it.

If there is any doubt in your mind about treatment of symptoms, consult with your family physician, and follow his recommendations.

## Coming Attractions

12/24	Half Day Holiday
12/25	Christmas - Holiday
1/1/69	New Year's Day - Holiday

## Deck The Halls

Christmas trees are a joy to behold but sometimes can cause a lot of trouble if not handled properly. Trees that are bought late in December have usually been cut early in November, and tend to become dried out soon after they are brought into the house.

When buying a tree, bounce the butt of the tree on the ground and see if any of the needles fall off. If the needles pull off easily or will break when you bend them, pick another, fresher tree.

When you get the tree home, cut off an inch or so of the trunk and put the tree in a bucket of water until you are ready to set it up.

Before setting the tree up in the house, check the lights and replace any with frayed cords or loose sockets. If you buy new strings, make sure the underwriters label applies to the whole assembly, and not just the cord.

Use a plastic tinsel instead of the metal type, and put the tree away from heat sources like a radiator or a television set. Choose a location that does not block a passage.

Don't forget to put the tree in a sturdy holder that has a reservoir for water. And, don't forget to refill the water every day.

Watch the tree for signs of drying, and move any bulbs that are so near the needles that they cause them to brown. When Christmas and the Holiday season is done, remove the tree as soon as possible.

With an artificial tree, choose one that is fire and shock resistant, and free of sharp metal projections. Turn off all tree lights when going to bed, or when leaving the house.

Make sure that all the family knows how to get out of the house in case of a fire, and by all means remember that the local Fire Department should be the first to know if even a minor fire occurs.

## Medical Insurance For College Students

Children of full-time regular employees are covered for medical insurance benefits under the employee's family medical plan until the December 31st following their 19th birthday.

Their coverage may be extended beyond that date if they are not married and are attending school on a full-time basis. This may be done by applying for student medical coverage for each eligible child.

Application for student medical coverage should be made at Personnel Services within 90 days from the date the child becomes eligible. The premium for this extended coverage is an additional \$.57 per week or \$2.47 per month.

Employees whose children are no longer eligible for student medical coverage should notify Personnel Services immediately.

## BNL On The Air

Station WNYC-FM is offering a series of science programs entitled "Men And Molecules." These programs are broadcast each Thursday at 5:15 p.m. and feature various aspects of scientific research.

The December 26 program will feature the solar neutrino experiment being carried on by BNL's Chemistry Department, and will be billed as "Neutrinos Of The Sun."

## Is Rosemary's Baby A Cute Little Devil?

No, of course no one believes in witches any more. That's just Halloween nonsense. The witch who was brought to trial in Lisbon last week? Oh, well in a backward country like that, what do you expect. Rosemary's Baby? Yes, I saw it. Sure, it was frightening but that was just a movie. Nothing like that could really happen . . . could it?

Three hundred years ago, in Salem Massachusetts, it was much harder to be sure whether or not there were witches, especially when the minister and the Deputy Governor said there were. And though it was hard to believe that upright-seeming friends and neighbors could be in league with the devil, something must have started the rumors . . .

Arthur Miller's play *The Crucible* deals with the story of how these fears worried the citizens of Salem and brought out the worst in some and the best in others. The setting is historical but the human beings are immediately recognizable today. The BERA Theatre Group will be presenting this spell binding drama written by a master of the American theatre on January 24, 25, 31, February 1. Watch for information on ticket sales soon.

## Upton Nursery School

The Upton Nursery School is operated for the benefit of pre-school children of BNL employees. There are two groups: one three-year-old class and one four-year-old class. This year each group meets on Monday, Wednesday, and Friday mornings from 9 a.m. to 12 noon. At each session there are two qualified teachers and two assisting mothers.

A play program is offered which allows a large variety of opportunities in art, music, dramatic play, outdoor large muscle activities, and in experience which builds readiness for later work in elementary school. The tuition is currently \$25 per month per child.

Enrollment is filled for this year. However, if you are interested in either group for next year, please write or call the enrollment chairman, Mrs. D. Cheng, 11 Harvard Road, Shoreham, 744-8950, to put your child on the waiting list. Children who are living on site have priority. Notification now will enable planning for next year's enrollment.

## Diners Please Note

The Brookhaven Center will be closed for the Christmas holidays on Tuesday, December 24, and on Wednesday, December 25. It will reopen for lunch on Thursday, December 26.

The Center will close again after lunch on Tuesday, December 31, and reopen for lunch on Thursday, January 2.

The Cafeteria will close at 1:30 p.m. on Tuesday, December 24, and remain closed until 7:30 a.m. on Thursday, December 26. It will be closed all day on Wednesday, January 1.

The Snack Bar in the Cafeteria will be open from 9 a.m. until 2 p.m. on Wednesday, January 1. Only the vended food service in Building 912 will be available on the evening of Tuesday, December 24, and all day on Wednesday, December 25. This latter service is for authorized personnel only.

## Here and There

Dolores del Castillo

Alice Burton (Biology) recently presented a seminar at the Biological Research Laboratories of Syracuse University on "Some Aspects of the Intracellular Development of Bacteriophage  $\phi$ R."

Devanayagom C. Joshua, Mohinder P. Singh, Harold H. Smith and Arnold H. Sparrow (all of Biology) attended the Genetics Society of America held in Boston recently. Gerhard Holm presented a paper entitled "Homologous and non-homologous protomer associations as a basis of genetic complementation." Mr. Smith is a member of the Board of Directors of the Society.

John W. Baum and Catharine L. Wingate (Health Physics) attended the AEC Radiological Physics Contractors' Meeting held in New York City, December 10-11.

Ivan Bernal (Chemistry) has been selected to organize two sessions on Structures of Inorganic Compounds for the New York American Chemical Society Regional Meeting to be held in May 1969.

Ben Bielski (Chemistry) was a seminar speaker at the State University of New York Downstate Medical Center. The topic of his talk was "Recent Advances in Radiation Chemistry and Their Application in the Biological Sciences."

Arnold Sparrow (Biology) recently participated in a meeting of the Radiation Research Society, of which he is President, held in Washington, D.C.

Maxwell M. Small (PEP) gave a seminar on waste disposal at the University of Michigan, Ann Arbor.

Arnost Honig of Birno Technical Institute will visit at the Laboratory on January 2 and 3 for discussions on shielding.

Gabor Domokos of Johns Hopkins will visit the Laboratory on January 7 to give a physics Seminar.

Jaroslav Sterzl of the Institute of Microbiology, Prague, will visit at the Laboratory on January 7 to discuss medical research and to give a seminar.

A star has risen above the AGS Bldg. For the past three years the personnel of the Pump Room of the AGS has put up this star to announce the coming of the Christmastide. It is five foot in diameter and shines with the glow of 45 lights to wish all the Yuletide warmth.

—o—

The staff of the Bulletin Board would like to take this opportunity to wish one and all peace and happiness during the Season and all through the coming year.

## Arrivals & Departures

## 'Tis The Season

### To Be Jolly . . . And Thoughtful

With Hanukkah almost over, and Christmas almost here, it is truly a season for happy parties, gift-giving, and family reunions.

But it is also the time to reflect a bit about those who are less fortunate and not able to join in the gift-giving and are not able to participate in the merriment. A few dollars given in the Holiday Spirit can make the Season a bit brighter for those less fortunate than most of us.

The list of organizations that are devoting time to this worthy cause is long, and easy to find if you care enough to help. Check your local newspaper; call your school, church or synagogue. Check the Yellow Pages of the phone book under "Social Service and Welfare Organizations."

The satisfaction of giving of yourself is guaranteed to make your holiday dinner taste better, and you'll sleep more peacefully all through the holiday season.

## Dollars and Sense

Leon Meshel  
Casualty Losses  
by Frank Bloom

The Long Island area has just been subjected to the first real winter frost of the current season. For BNL homeowners, there's a good chance that this winter's freezing temperatures and storms will leave their mark (or perhaps already have). There's a good chance of damage to trees, shrubs and broken windows, pipes, etc. However, there is a possible consolation — where the loss per occurrence exceeds \$100, the Internal Revenue Code allows the taxpayer a deduction for the amount of the excess.

The measure of the loss is the drop in value of the property as a whole. In other words, the difference between its value immediately before and after the casualty — reduced by a \$100 per occurrence deductible. Of course, any portion of the loss that is compensated for by insurance, or otherwise recovered, is not deductible.

There are a number of ways to prove the loss, such as "before" and "after" pictures, or the cost of replacement or repairs that do no more than restore the property to its former condition. The best way to prove the extent of loss is to have a real estate appraiser look over the property and provide a written report, while the damage is fresh.

In addition, you can deduct the costs of the post-storm clean up as part of the casualty, and the appraisal fee can be separately itemized and deducted.

*A Merry Christmas and a Happy New Year*

## Bowling News

Irma Carl

### Purple League

With one night to go, S & M is in first place. Think it should be pointed out that Bill Roelofson, in the last game, bowled more than 50 pins over the average of his first two games and prevented S & M from locking up first place. If the Phoubars win all their games from S & M we will have a tie for first place and a roll-off.

Joe Scesny had a 213-560 series, A. Benson a 201-531, and Joe Rolfe a 207-517. Other 500 series were bowled by Mike Iarocci 514, Vinnie Felice 513, Dick Vogt 507, and Brad Phillips 501.

### Red League

Fabricators have it sewed up for first place and the Bio Rats are in second. Ken Robins bowled a 225-216-610 high scratch series. High scratch game of 232 for the night was rolled by J. McGovern followed by J. Cain's 230, L. Newman's 221, J. Dispart's 203 and G. Warner's 200.

### Green League

Electrons in first as of now. However, position night will tell the story when the Electrons and Exots come face to face. High games for the night: J. Rhodes 213-537; B. Belligan 203-535; G. Hardman 200-548.

### Pink League

Medicals still in first and its certain they're the winners of the first half of this bowling season. However, our position night will tell the story as far as who'll be in second. At the moment the Hopefuls have that spot; but position night is going to prove very interesting - any of five teams can wind up in second. As for last place, that's another story - the two Fiscal teams will be battling it out! (Note: Seems there's a team from Fiscal in the Wednesday night Purple League trying for the cellar too. What goes here - do the better Fiscal bowlers bowl with teams, like say the Pinksplitters!???)

## For Last Minute

### Christmas Shoppers

The Recreation Office has athletic game equipment on sale at a 15% discount to all BNL employees. Avoid the big store crowds and spend a leisurely half hour looking over what we have in stock.

If your son has been buggin' you for a new baseball mitt, basketball, football or tennis racket, we have all these items and many more.

The Recreation Office is open every weekday from 9:00 a.m. to 1:00 p.m. Call Blanche Laskee on Extension 2808 for more information.

## Swimming Pool's Schedule Extended

The new extended schedule of the Swimming Pool is now in effect.

**Monday through Friday**  
12:00 Noon - 3:00 p.m.  
5:00 p.m. - 9:30 p.m.

Call the Recreation Office, Extension 2808, and order your season pass now.

### Admission Schedule

Daily: Employee (Family Member) 35¢  
\*Guest 60¢  
Season: Employee \$10.00  
Family \$20.00

\*Guests must accompany the employee who is permitted to bring a maximum of 5 guests per family each visit.

The Pool is closed on BNL holidays.

## Doktor Will Be Featured Violist

The third concert in the BERA 1968-69 Season Series will be held on January 7, 1969. Paul Doktor will be the featured artist.

Mr. Doktor, according to the Ottawa "Citizen," has revealed himself as one of the most beguiling practitioners of viola playing of this generation, his phrasing well reasoned, and beautiful tone is second nature to him.

The concert will be held in Berkner Hall and will begin promptly at 8:30 p.m.

## Cooking Exchange Meeting

On Thursday, January 2, a meeting of the Cooking Exchange will be held in the Apartment Area Recreation Building from 3 to 5 p.m. Various recipes will be demonstrated at this meeting.

Each adult will be asked to donate 50¢ to pay for the cooking demonstration and the babysitters which are provided for children.

## BLAST Rally Winners

The "I Love A Mystery II" Rally sponsored by BLAST was a soggy success. Although the rain held entries to a minimum, Rally masters Stan and Jackie Anderson kept a stiff (but wet) upper lip and sent the cars off.

Winners were: First; Joan and Rudy Becht in a 1968 Chevy II, Second; Ronnie and Frank Evans in a 1966 Corvair. Third; Karen (mother) and Gerry (father) Warner in a 1967 Triumph.

The mystery was solved by four of the teams, but after a run-off, the prize went to the Nimmors in car #8. The Great River Inn donated two bottles of champagne to the Mystery winners, courtesy of owners Art and Mary.

## Recreation Facilities - Holiday Schedule

The Recreation Building, Swimming Pool and Gymnasium will remain open as per their normal schedules throughout the month of December, with the following exceptions:

**Swimming Pool -**  
Open December 24 - 12:00 to 3:00 p.m.  
No evening schedule.  
Closed December 25 and January 1.

**Recreation Building -**  
Closed December 23, 24, 25, 26, 31 and January 1.

**Recreation Office - Film Service**  
Closed December 24, 25 and January 1.

## Theatre

The BERA Theatre Group has been active since 1948. Its principal objectives are to give BERA members and their families an opportunity to participate in all phases of theatrical activities and at the same time to provide worthwhile entertainment for the entire laboratory community.

The Group usually puts on two full-scale productions per year, one in the Spring and one in the Fall. Recent productions have included "A Thurber Carnival", "Separate Tables", "Three-Penny Opera", "Summer and Smoke", "Heartbreak House", "Hotel Paradise", "The Roar of the Greasepaint, the Smell of the Crowd" and "Born Yesterday." Tryouts for plays are open to all BERA members and their families. In addition to the director and cast, the productions require many helping hands in a variety of areas such as set design, construction, painting, props, make-up, costumes, lighting, publicity. The major productions are performed in the Laboratory Theatre which seats over 900 and has a well-equipped stage with particularly good lighting facilities.

During the summer, the Theatre Group has often sponsored a group of one-acters, or a cabaret evening. At its approximately monthly meetings, the Group has programs of talks, demonstrations, or presentations of scenes or short plays. Other activities include occasional theatre parties and unrehearsed group readings of plays.

The Group is administered by an executive committee that consists of the President, Vice President, Secretary, Past-President and the Chairmen of three standing committees. These officers are elected annually in June. Voting membership in the Group is open to anyone who has attended at least three general meetings, or who has participated in any capacity in a production or program in the past two years. There are no membership fees. A budget covering production costs and other expenses of the Group is provided by BERA, and the income from ticket sales goes to BERA.

## BNL Christmas Cards

The Film Service Office on 3 Center Street is now selling BNL Christmas cards. The cost of an individual card is 25¢. For quantity purchases of 50 to 99 the price is 18¢ each, and for 100 or more 15¢ each.

Call the Office on Extension 7221 between the hours of 9:00 and 3:00 for additional information.

## No New Shoes For Christmas

The Personal Protective Equipment Room will not be open for the issuance of safety shoes from December 16 through January 3. The shoe room will be opened for issue of shoes on Monday afternoon, January 6, 1969.

Safety glasses will continue to be issued from the Personal Protective Equipment Room at the usual times.

## Personnel Services At the Recreation Office Open Daily 9:00 a.m. to 1:00 p.m.

**Theatre Tickets** - Theatre tickets to certain shows (listed below) may be purchased at a 20% discount. Schedules and prices are posted in the Office. All orders must be placed in person and accompanied by a check or money order at least two days in advance (no cash will be accepted).

**Westbury Music Fair** - December 26 through 31, Ann Corio in "This Was Burlesque - 1969 Edition". (Discounts on Friday, Sunday and Monday, only).

**Mineola Theatre** - Closed temporarily for re-scheduling.

**Metropolitan Opera** - A few tickets still available for March and April.

**Discount Exchange Coupons** may be picked up at the Recreation Office for the Broadway shows "Cabaret", now through December 21; "The Price", now through December 24; "You Know I Can't Hear You When the Water's Running", now through December 24. New York Knickerbocker's Basketball Games at Madison Square Garden; Guided Tours through the Madison Square Garden Center.

**Athletic Game Equipment** - We have on sale many items that may help solve your Christmas shopping problems. Come in any day between nine and one and look around. We have little league baseballs, baseball mitts, softballs, footballs, badminton sets, tennis rackets, tennis balls, shuttlecocks, table tennis paddles, athletic socks, BNL T-shirts, playing cards, combination locks and handy information booklets on table tennis, baseball, diving, badminton, skin diving, judo, lifesaving, volleyball, archery and bowling.

**Toys** - Arrangements have been made with Harry Lillywhite & Son to offer 15% discounts to BNL employees on children's toys. We have catalogues in the Office for your use.

# Season's Greetings

### Classified Ad Policy

**Deadline is 12 noon Friday for publication the following Thursday.**

1. The Bulletin Board's classified section may be used only by active and retired Laboratory employees.
2. All items for sale or rent must be the advertiser's property.
3. Persons listing houses, apartments, or rooms for sale or rent, do so with the understanding that these must be available without regard to race, creed, color, or national origin.
4. Ads for material acquired for resale in association with a full or part-time business cannot be accepted.
5. Ads should be restricted to 20 words or less and typed

- or printed on the form provided, and must bear the employees signature.
6. Ads not carried because of space restrictions will be held for publication in the next issue.
7. Ads are run only once and must be resubmitted if they are to be repeated.
8. Firearms offered for sale or trade may not be brought on site.

### Positions Available

STORES CLERK (2) - Supply & Materiel.  
Application Deadline: December 24, 1968.

RIGGER (2) - Plant Engrg. & Planning.  
Application Deadline: December 24, 1968.

DRIVER (8) - Plant Engrg. & Planning.  
Application Deadline: December 24, 1968.

LABORER (8) - Plant Engrg. & Planning.  
Application Deadline: December 24, 1968.

WATER & SEWERAGE OPERATING ENGINEER (1) -  
Plant Engrg. & Planning.  
Application Deadline: December 25, 1968.

Employees interested in applying for above positions should inform their Supervisor and file written request with Employment Office on or before deadline date.

### Autos & Auto Supplies

62 FALCON - Station wagon. GR5-5408 after 7.

65 MUSTANG - 6 cyl, std trans, 36,000 mi. excel cond. 878-1979.

RIMS FOR VOLVO - \$10 takes both. M. Strongsin, Ext. 2727.

2 TIRE RIMS - 14", removed from Chevy, \$6. for both. Fred, Ext. 7382.

67 MUSTANG CONV. - Full power, auto trans, V8, stereo tape player, tinted glass, pos trac, must sell. \$1795. 732-3443.

64 CHEVY II - 6 cyl, stan, r/h, economical, excel cond. Alan, PA7-5721 after 5:30.

63 FALCON - Stan trans, excel cond. in & out, new bat, snow tires with rims. \$400. 286-8869 after 5.

62 FORD RANCH WAGON - V8, auto trans, 61,000 mi. good cond, snow tires, heater. \$550. Ext. 2885 or AT6-8175.

2 RIMS - (Like new) for 6.50x13 tire, 4 lug holes, \$4 ea. Laffer, Ext. 2879.

TRI POWER FOR 348 CHEVY - Offenhauser racing manifold, triple dual Rochester carbs, with linkage. \$40. 281-4112 or Ext. 7382.

66 VW - White, r/h, good cond, 27,000 orig miles, good buy. Asking \$1150. Bob Schubert, Ext. 7517 or JU4-8492.

67 VW - Square back station wagon, blue, 7000 miles. Car sitting idle for 2 years. Bob Schubert, Ext. 7517 or JU 4-8492.

64 CHEV-IMPALA SS - 6 cyl, 2 dr, ht bucket seats, p/s, p/b, radio console on floor, immaculate. 39,000 miles. \$1395. A. Russo, Ext. 2411, 639.

65 BONNEVILLE - Convertible, p/w, p/b, p/s. \$1800. Foster, Ext. 2152, 2156.

SNOW TIRES - 8.25x14, w/w, used. Mounted on 14" Oldsmobile wheels. \$10 the pair. Dolores Skokona. Ext. 2146.

61 FORD COMET - 6 cyl, automatic, r/h, good running order. \$125 or best offer. Avail. after Christmas. Ext. 2427, 7706.

62 CHEV II - Auto trans, r/h, snow tires. Good cond. Owner leaving country early Jan. Gopi, Ext. 650.

61 FALCON - 2 dr, std trans, 6 cyl, recent repairs, good running cond., new snows. \$100. 732-4712 evenings.
