

Advisory Group Plans Expanded Info Talks

In addition to its recent series of meetings with department chairmen and supervisors, the Affirmative Action Advisory Committee plans to extend its informational function to all employees who are concerned with problems of minorities.

During the course of the past year the committee has had informal meetings at which various groups were oriented in the committee's work and provided a better understanding of the affirmative action program. According to Harold Avent, chairman of the committee, these meetings resulted in a valuable and informative interchange of ideas.

In the planned series of meetings, to be conducted in departmental groups, the committee will review the information it has collected on equal opportunity, outline its plans for the future, and initiate "grass roots" discussions with the people most concerned with the results of the committee's work. All employees will be advised of the time and location of these meetings by their departments. Employees' attendance is, of course, subject to the departmental work requirements.

EOAC Becomes AAAC

Dr. Maurice Goldhaber, Laboratory Director, has deemed it appropriate to change the name of the Equal Opportunity Advisory Committee; and it shall hereafter be known as the Affirmative Action Advisory Committee.

The Committee has been in existence for approximately 18 months and is advisory to the Director. Its main purpose is to help him evaluate implementation of the Laboratory's policy on equality of opportunity and will advise in recruitment, training, and placement.

The present members are Chairman Harold Avent, Physics Department; Margaret Hind, Applied Mathematics Department; Ella McLean, Photography Division; George Bryant, Instrumentation and Health Physics Department; Paul Kelly, Plant Engineering and Planning Division; Walter Milian, Plant Engineering and Planning Division; and Louis Remsberg, Chemistry Department.

Stony Brook Prof To Lecture Friday On US-Soviet Pact

The Brookhaven Chapter of the Federation of American Scientists and Brookhaven Sane are co-sponsoring a lecture by Professor Marvin Kalkstein of the New York State University at Stony Brook. The speaker will discuss the forthcoming United States-Soviet Union arms talks and related arms control measures, such as the non-proliferation treaty. Professor Kalkstein is a former National Chairman of the FAS and has been active in various international peace-seeking efforts.

The lecture will be given at the Middle Island Presbyterian Church on Friday, the 10th of January, at 8:00 p.m. The Middle Island Church is on Longwood Road opposite the Longwood High School. All interested laboratory employees and their families are invited to attend.

Lyle Smith To Be 80th BNL Lecturer

"2 to 20,000 GeV-Possible Vector Exchange?" is the title of the 80th BNL Lecture which will be delivered by Dr. Lyle Smith of the Accelerator Department on January 22.

Dr. Smith joined the staff of BNL in September of 1948. He participated in the design and construction of the Cosmotron and was responsible for many design and operational aspects of this machine. He is presently a Senior Physicist and is Deputy Chairman of the Accelerator Department, and is carrying out research in machine design and in high energy particle physics.

The lecture will be held in Berkner Hall, and will begin promptly at 8:00 p.m.

Brookhaven's Shy Residents

Three of Brookhaven Lab's deer herd watch the cameraman in the field near Security Headquarters. Occasionally a deer will be frightened and run across a road in front of a car causing at the very least a fright to the driver. This is the season to be alert to the movements of deer along Lab roads in the morning and early evening hours. —Humphrey

College Students Visit Lab

At the AGS experimental area Alfred McInturff (plaid jacket) takes students from Manhattan Community College on a walking tour of the 33-BeV machine.

On Friday, twenty students from Manhattan Community College spent a day at the Lab viewing our research facilities. After seeing the "Brookhaven Spectrum" and hearing an introductory talk, they visited the AGS, the Brookhaven Graphite Reactor, the High Intensity Radiation Development Laboratory and the Biology Department. The group watches Arnold Becker of the Biology Department exhibit some of the laboratory animals used in research projects.

—Humphrey

Seaborg Statement At Year's End Lauds Brookhaven

In the Year-End Statement by AEC Chairman Glenn Seaborg, Brookhaven National Laboratory was pointed out for having brought "A dramatic advance in the treatment of Parkinson's disease." Brookhaven developed a treatment using the drug L-Dopa and finds that in patients the improvement ranges from modest to remarkable. This treatment is now being clinically tested in other hospitals.

Seaborg said that the most dramatic peaceful application of nuclear energy in the United States continued to be the generation of electricity. He mentioned advances in "breeder reactors" and use of nuclear energy centers where sea water would be purified and electricity would be generated.

Groundbreaking for two new particle accelerators was mentioned, the Los Alamos Meson Physics Facility and the National Accelerator Laboratory.

In addition, Seaborg spoke of three cratering experiments in the Plowshare program that would be of use for determining the best route and means for constructing a new sea-level canal across the American Isthmus. He also pointed out the successful testing of the largest nuclear rocket yet developed.

In the field of medicine, he mentioned nuclear medical research on radioisotope power supplies for implantable heart assist devices such as blood pumps and artificial hearts.

Study Group Issues Report On AEC's Buying Procedures

A final report on the overall procurement processes in the Atomic Energy Commission's program has been submitted to the AEC by a seven-man study group which included William Catacosinos, Assistant Director of BNL.

The group, appointed by the Commission in August 1967 and headed by Wallace B. Reynolds, former Business Manager of Lawrence Radiation Laboratory, was asked to study and evaluate such considerations as:

AEC's controls on the contractor's procurement practices, AEC's decentralized approach to contract administration, the influence of the Commission's program administration techniques, the effect of after-the-fact reviews of contractor procurement, the feasibility of removing some restrictions on small subcontracts, and the necessity of each step in the procurement process.

The study group noted, in general, that contractor procurement under the AEC system has been well done.

The group did conclude, however, that there has been a trend toward more detailed control by the AEC of its prime contractor procurement which tends to limit the use of contractor management ability and flexibility in conducting procurement activities.

These problems can be substantially alleviated within the framework of the existing AEC procurement system, the study group believes. A number of recommendations were made in the report to assist in solving these problems.

The Commission is currently studying the report with a view toward developing a plan of action to implement its recommendations.

Commissioner James T. Ramey, who was instrumental in the initiation of this study, said it was aimed at "assuring that the Commission continues to get quality performance of its programs through the use of quality contracting."

Do You Remember Facade?

At the request of many members of the enthusiastic audience for "Brookhaven Facade," the complete script has been prepared so that those who couldn't hear or weren't there or just want to remember the words can

have a copy. They will be produced at cost, the amount depending on the number of orders, but in any case not to exceed \$2. Orders will be accepted at the Recreation Office, or call Elaine Rowland on Ext. 330.

Letters To The Editor

Dear Sir:

With deep dismay I learn that BNL has bowed to the pressures of the hunting fraternity in opening the Laboratory's north tract for the current ten-day deer hunting season. Although Long Island's deer population has increased in recent years, it does not seem appropriate for the Laboratory to become a party to the slaughter of Long Island's largest wild land mammal. Those of us who have enjoyed the deer on the lab grounds for many years will surely regret the current policy, which transforms BNL from a wildlife sanctuary into a happy hunting ground for the kind of people who derive pleasure from killing the wild creatures with which we share Long Island.

Gordon F. Corbin of the Medical Dept. who had been employed at the Laboratory since April 1960, died on Dec. 24, 1968.

Robert V. Dvorak of the Instr. & HP Dept. who had been employed at the Laboratory since April 1947, died on Jan. 2, 1969.

Walter W. Merkle of the Accelerator Dept. who had been employed at the Laboratory since April 1947, died on Jan. 2, 1969.

The free courses, consisting of approximately 12 evening lectures, will cover Safety Afloat, Seamanship, Aids to Navigation, Charts and Piloting, Mariner's Compass, Government Regulations, Rules of the Road, and Small Boat Handling.

The United States Power Squadrons is a nationwide, non-profit, educational organization of boatmen. Organized in 1914, it has grown to an approximate membership of 72,000 and 372 squadrons. Since its inception, over a million men and women have taken advantage of its Free Piloting Course. While primarily slanted towards safety afloat, the course is taught in a most fascinating manner, capturing and maintaining the students' interest for the duration of the course, about ten weeks.

All interested men and women are cordially invited to avail themselves of this opportunity. Further information may be had from the Squadron's Educational Officer, Post Commander George C. Wagner, Ext. 7573 or YA4-3267.

Small Boat Voyages

Six years of sailing in small boats on the Atlantic, the Pacific and the Indian Ocean will be the subject of a lecture to be presented next Wednesday in the Brookhaven Center.

Two movies shown with the lecture will detail a winter trip from Newfoundland,

Storm on the Gulf Stream

and a warm weather trip from the west coast to the Society Islands.

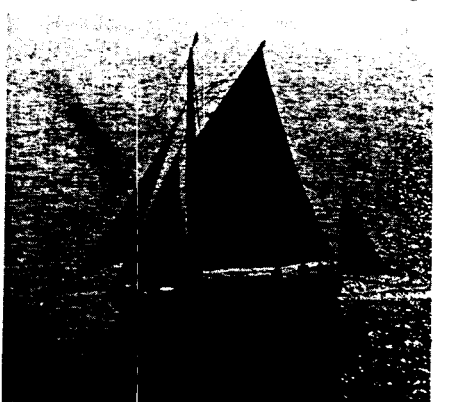

Dennis Puleston, who will present the lecture and films, is an experienced blue water sailor as well as a naturalist and an artist. During one Pacific Ocean trip he was collecting for the American Museum of Natural History and visiting many of the

Tropic Isle entertainment

romantic South Pacific islands. His lecture will include comments on rigging, navigation and sailing techniques, as well as comments on the areas visited.

The lecture, sponsored by the Naval Reserve Research unit at BNL will start at 7:30 p.m., and will be open to the general public. There will be no admission charge.

In Safe Harbor

Recent Retirees

Three employees who have been with BNL for more than 21 years retired as of December 31.

William Homer, a Survey Engineer with Plant Engineering and Planning, started work on March 24, 1947.

Charles Gazdick, a Patrolman in the Security Division who has been on Leave of Absence, has been employed at BNL since June 18, 1947.

Frank Dugan, a Design Engineer in the Reactor Division, answered questions about his retirement plans by passing around a letter to all his well-wishers. The letter follows:

"I am glad you asked me that question - seems these days everybody does. The Answers: -

(1) I am not going to settle in Florida - went there 3 years ago and decided that this is for the birds. They have enough sense to come back in the spring.

(2) I will remain in Bellport - with all my old friends - and go ice-boating in the winter and sailing in the summer.

(3) I will retire, of course, on Social Security, plus my Lab pension. This is ample, but I cannot afford to throw any champagne parties.

(4) How am I going to keep "busy"?
(a) I like to design boats as a hobby. - Have already advertised in boating magazines about this. So expect to have fun doing this.

(b) Have always wanted to try my hand at "Copper-Plate Etchings." This is a hobby I have not had time to ride in the past 30 years!

(c) I can also put myself on "Standby-Status" with my local High Schools, when they need a substitute teacher on subjects such as Drafting and Physics.

(d) During the past 3-4 years, I have been increasingly interested in Oceanographic work. So I might wind up in design of mechanical equipment in this field, as a consultant.

(e) Now come the more prosaic details - My house and garage need painting. The lawn needs seeding and cutting - the tulip bulbs need to be lifted and replanted at the proper times. Routine sort of stuff.

(f) Then, of course, there is a sailboat to be taken care of; a lot of sanding and a little bit of painting each spring. You know!

So the above gives you an idea as to how I am going to keep "busy" in my retirement. In fact, I may be so busy that I might not be able to come and visit with you."

Ode to the Flu

*The most current subject concerning me and you.
Deals with a bug called the Hong Kong Flu.
It's difficult to say, whether or not you will get it;
I can guarantee if you do, you'll surely regret it.
It will attack both lady and gent;
It even infected our President.
You'll find it to be a most distressing malady,
Striking adult and minor.
You'll wish to hell that they had kept it
Back in Hong Kong China.*

Charlie Lore-Shops

Alien Address Registration

During January of each year, every alien in the United States must report his address to the Commissioner of the Immigration and Naturalization Service. Alien address report forms are available at the U.S. Post Office, 2 Center Street.

Dollars and Sense

Leon Meshel
N.Y.C. Goofs Again
by Frank Bloom

Many BNL employees have been receiving packets of New York City income tax forms during the past few weeks. Contrary to the suspicions of some Long Islanders, New York City has not extended its borders into Suffolk County.

A call to the New York City Income Tax Department revealed that due to an administrative error of some sort (everybody wants to blame the computers), incorrect mailing lists were used and consequently forms were sent to many taxpayers not subject to any New York City tax. Long Islanders can discard the tax form packets unless they wish to retain them as a souvenir of some of the benefits (?) of living or working in "Fun City."

On Monday morning the Suffolk County Board of Supervisors held a public hearing on a proposal to delay payment of the first half of the Real Estate Tax until February 10. First half taxes are ordinarily due on January 10, but because budget approval was late, and tax bills were not mailed out on time, County Executive Dennison signed the bill authorizing the one-month delay in first half payment.

Free Boating Classes

The United States Power Squadrons of District 3 will give free boating classes to the Public, male and female over the age of sixteen, at the following local schools at 8 p.m. starting on the dates noted.

- Bellport Senior High School
Monday, January 20
- Hampton Bays High School
Tuesday, January 14
- Mastic Beach, Wm. Floyd School
Tuesday, January 14
- Mattituck High School
Tuesday, January 14
- North Babylon High School
Tuesday, January 4
- Port Jeff, Vandermuellen High School
Tuesday, January 28
- Bay Shore, Brook Avenue School
Wednesday, January 22

"Crucible" Production Coming to a Boil

"A wild thing may say wild things."
Abigail (Gladys Rech)

"How can it be the Devil? Why would he choose my house to strike?" Reverend Parris (Ron Peierls)

Crucible In Final Stage of Rehearsal

Arthur Miller's play *The Crucible* deals with a witchcraft trial in Salem three hundred years ago. As the chilling story unfolds, the citizens of Salem react in different ways to the situation, according to their varying degrees of belief in witches and the devil.

It seemed hard for them to believe that upright-seeming friends and neighbors could be in league with the forces that were tearing the town apart. The fears of the citizens brought out the worst side of the characters of some and the best of others.

Director Julie Peierls has molded the cast into a unit that will make the audience absorb these fears and doubts, and breathe a sigh of relief when they leave the theatre secure in the knowledge that this thing could not happen again. Or could it?

General admission tickets to the *Crucible* are now on sale at the Recreation Office, or may be had from ticket sellers in most Departments. Opening night is Friday, January 24, at the BNL Theatre. Performances will be given on Saturday, January 25 and February 1 as well as on Friday, January 31.

"You drank blood, Abby! You drank blood."
Betty Parris (Patty Gold)

"No! No! Don't hang Tituba!"
Tituba (Agnis Donahue)

"Can you speak one minute without we land in Hell again? I am sick of Hell!"
John Proctor (Graham Campbell)

Director Julie Peierls instructs the cast at the end of a scene rehearsal.

Photos by Humphrey

Plan now for a delightful evening of first-class theatre without travelling in to the city. Admission cost is \$1.50 for employees, \$1.75 for guests, and \$.50 for children under 19.

"Have you sold yourself to Lucifer?"
Reverend Hale (Bob Marr)

Bowling News

Irma Carl

A new year and a new half coming up. Congratulations all you first place teams and good luck to you and to you runners-up in '69. To keep you posted on the old half, following are standings as of the week of December 16, 1968 - after which time we all gave our bowling gear a few weeks rest.

Purple League

The flu epidemic hit here and as a result vital statistics to appear next week.

Pink League

The Medigals are the winners. Then we have the Bookies, Pinsplitters, Hopefuls, All Toes, Bio Boozers, Fiscal Assets, and last but not least the Fizzles. On December 17 Lillian Hillerud and Madeline Windsor each bowled a high gross series of 638 and 630 respectively. A summary of the '68 highlights are:

High Average

Helen Caisey 150

High Gross Game

Pat Oster 260, Brita McGonigle 252

High Gross Series

Pat Oster 707, Pat Towey 672

High Scratch Game

Helen Caisey 210, Helen Kelly 201

High Scratch Series

Helen Caisey 533, Pat Oster 524

High Team Gross Series

All Toes 2451, Fiscal Assets 2344

Green League

Electrons the winners, followed by the Exots, Gnats, Fire Department, Reefers, and the Nugatories.

High Average

R. Adams 172

High Scratch Series

A. Schroeder 561, R. Hambley 560

High Scratch Game

F. Strier 225, R. Adams and J. Rhodes 213

High Team Gross Series

Exots 2507, Electrons 2490

S. MacCormack rolled a 202-504 scratch; T. Newham a 199-517; and J. Scandizzo a 186-504 the last night of the first half.

Red League

Fabricators the winners; Bio Rats just made second by a few pins, leaving the Bubble Boys in third place.

High Average

R. Nelson 181

High Gross Game

G. McGovern and G. Spira 277

High Gross Series

J. Mallins 708

High Scratch Game

G. Spira 242

High Scratch Series

R. Robbins 610

High Team Gross Series

Old Timers 3120

Slo-Break Basketball

by George Latham

Two of the three undefeated teams in the League met their matches in last Thursday night's action.

The Knacks handed the Rat Packs their first loss 49-34. Ed Gill lead all the scorers with 17 points, while Jim Hooper of the Knacks and John Capute of the Rat Packs had 13 points each.

Biology overcame an early lead by the Highballs and won 43-38. Nick Combatti had 14 points for Biology and McGonigle had 13 for the Highballs.

AMD lost their first game of the season. Medical defeated them 48-38. Charlie Crump had 19 points for Medical and Les Lawrence 11 points for AMD.

The Stratums downed Physics 38-18. Lattany lead the Stratum attack with 12 points while Ellis had 7 points for the Physics team.

The standings:

Associated League

	Won	Lost
Knacks	6	0
AMD	5	1
Rat Pack	4	1
Biology	3	3
Old Timers	1	4
Universities League		
Medical	2	3
Highballs	2	3
Stratums	1	4
Physics	0	5

BNL Flyers To Hear CAP Program Talk

At the next regular meeting of the BNL Flying Club to be held at the Recreation Building on Thursday, January 16, at 8 p.m., Captain Joseph T. De Paolo, Suffolk Senior Squadron No. 1, Civil Air Patrol, will present an informative program of films and discussion covering the varied activities of the Senior CAP program as well as the CAP Cadet program.

Cadet and senior members of local CAP units will attend the meeting, and will be available to talk to BNL Flying Club members and their guests. Those interested in learning more about the Civil Air Patrol, which is an auxiliary of the United States Air Force, are cordially invited to attend this meeting.

Makeup Workshop Tuesday

The next meeting of the Theatre Group will be on Tuesday, January 14 at 8:30 p.m. in the Theatre. The program will consist of a workshop on stage makeup organized by George Counadis.

Cooking Exchange Meeting

On Thursday, January 16, a meeting of the Cooking Exchange will be held in the Apartment Area Recreation Building from 3 to 5 p.m.

Everyone who contributed food for the Christmas party is requested to bring her recipes to this meeting, which will feature a demonstration of South African cooking.

Each adult will be asked to donate 50¢ to pay for the cooking demonstration and the children's babysitters.

Call 7415 For Utility Group

In order to improve telephone communications for the Utility Group and Electrical Division (Building 452) a sequential or rotary telephone system will be put into operation on January 13, 1969. From this date on for utilities and electrical maintenance or service calls, please use the new extension 7415. As of January 13, extensions 2389, 2967, 7376 and 2159, will no longer be operable.

Personnel Services

At the Recreation Office

Open Daily 9:00 a.m. to 1:00 p.m.

Theater Tickets

Westbury Music Fair - Theater closed for program rescheduling.

Mineola Theater - Theater closed for program rescheduling.

Metropolitan Opera - A few tickets still available for March and April.

Discount Exchange Coupons - May be picked up at the Recreation Office and mailed into the Madison Square Center Box Office for the following: 1969 Ice Capades, January 7 through January 19; Knickerbockers Basketball Games, now through March 19.

Swimming Pool Schedule

Daily Monday through Friday

12:00 noon - 3:00 p.m.

5:00 p.m. - 9:30 p.m.

Pool closed on BNL holidays.

Season passes may be purchased at the Recreation Office or at the Pool.

67 VW SQUAREBACK - R/h, snows, all brand new cond, 7000 orig mi, terrific buy. Ext. 7517, JU4-8492.

65 CHEVY IMPALA - 2 dr hdt, auto trans, excel cond, must sell. \$1500. J. Carle, Ext. 2582.

59 STUDEBAKER HAWK - V8, auto trans, r/h, eng just tuned up & excel cond, 2 snows, owner leaving country. \$150. Nomura, Ext. 2403.

60 PONTIAC CATALINA - Perfect running cond, 2 new snow tires, body needs a little work. \$250. Terry or Tom, HR3-9264.

61 PONTIAC - V8, r/h, ps/pb, low mileage, good cond. \$295. 473-7079.

Boats & Marine Supplies

26' CHRIS CRAFT 1939 - 125 hp Chrysler Crown, sleeps 4, equipped, good cond. Asking \$1200. Jim, 475-1097.

3/8" THICK NYLOPRENE WET SUIT - Full zipper, 1 yr old, good cond, men's, light build. \$30. R. Meyer, Ext. 2934.

'68 MERCURY OUTBOARD - 35 hp elec start, w/controls (long shaft), like new. 744-8391.

18' LONE STAR 1964 - W/90 hp Johnson 1965 - elec, fiberglass, auto bilge, built in head, lights, etc, excel cond. \$1200. 281-8274.

Miscellaneous

BEAUTIFUL TABLE LAMP - \$5; stroller, \$5; crib w/new mattress, \$15. Phelan, Ext. 2351, GR5-4661.

KITCHEN SET - W/4 chairs, wrought iron legs. Bob, GR5-5542.

MARION 4 BURNER ELEC STOVE - & oven comb. Bob, GR5-5542.

RUMMAGE SALE - Infants' clothes, women's dresses, 7-8, skirts 22-24, blouse 34, sweaters 36-38. Sandra, 281-5771.

SONY TAPE RECORDER - TC800A, portable, servo-control, 3 spds, frequency response 50-13,000 cps, 1 yr old. Market price \$179.50, sell for \$120. Tak, Ext. 7411.

PONY - 12.2 h., 4 yr old bay gelding, jump/hunt schooled, 100% sound, always in ribbons & championships, owner outgrown. Sacrifice, asking \$500. Ext. 2149, JU4-7050 after 6.

DINETTE SET - Walnut-grained formica, table, 4 chairs, excel cond. \$35. 286-1097.

GIRLS' 20" BICYCLE - \$5. Morris, 744-5096.

8' ELDORADO CAMPER 1965 - Sink, stove, sleeps 4, will fit 1/2 ton truck. \$950. HR2-1833.

OPERATION CHAIRLIFT - On a clear day you can see forever, free pilotage, single or group, will share plane rental tab. Arnold, Ext. 7667.

TYPEWRITER - Smith Corona portable, beige. \$30. R. Britton, Ext. 7201, 941-3609.

WOULD LIKE TO GIVE AWAY - 2 old lamps to any chairtable or nonprofit organization for rummage sale, etc. Jeff, Ext. 7278.

JOHNSON WAX POLISHER & SCRUBBER - Excel cond. Cost \$70, now \$23. D. Albert, Ext. 7525, 7686.

PIANO - Upright Worthington, good cond. \$125. Wang, Ext. 7776, 744-6767 eves.

STORM WINDOWS - 2 ea 24"x64", 6 ea 37"x64". \$5 ea. Ext. 2594.

BABY CARRIAGE - Bilt-rite w/mattress, good cond, \$15; baby crib, good cond, \$10. Ext. 2594.

WOOD SKIS - 205 cm Fischer Comet, k&Cubco bindings, Nordica Sestriere men's boots 7 1/2 wide, all used 2 seasons. \$45. 878-0123 after 6.

SKI-BOOTS - Nordica Sestriere, women's size 9 narrow, \$15; 2 Barrecrafters boot trees, \$1.50 ea. 878-0123 after 6.

4'x18' POOL - Incl filter, vacuum, skimmer, ladder, chlorine dispenser, used 2 seasons. \$140. B. DiLello, Ext. 2258, 7382.

MAPLE BEDRM SET - Washer, dryer, kitchen set, playrm couch, 2 chairs, misc household goods, Marilyn, SE2-7572.
