## World Carbon Cycle Conference Subject

Without carbon there is no life. But are the activities of man producing too much carbon? Our biosphere's balance of carbon in all of its various forms is essential to life as we know it. Man is changing this balance and the changes have become more rapid in recent years. Scientists are concerned about changes in the carbon dioxide content of the atmosphere, because of the potential effects on world climates and on living systems.

According to George Woodwell, Senior Scientist at the Biology Department, "No other influence of man that can truly be said to be worldwide approaches in magnitude his effect on the world's carbon budget. In a period when uses of fossil fuels and resulting releases of carbon into the atmosphere are doubling in little more than a decade, there is urgent need to understand thoroughly the implications of these changes for all living systems, including man."

Carbon, its presence and effect in the biosphere, of which the atmosphere is only a part, is the subject of this year's annual conference of the Biology Department. The conference will be held in Berkner Hall on May 16-18, 1972.

The sessions will begin at 9:00 a.m. each day, and the conference will end at 1:00 p.m. on Thursday. On Wednesday evening at 8:00 p.m., the conference lecture, "Is There Intelligent Life on Earth?", will be presented by Dr. Preston Cloud of the University of California, Santa Barbara.

Topics during the conference will focus on the role of carbon, from the deadly carbon monoxide to the essential but over-produced carbon-dioxide, plus particulate and dissolved organic carbon in the air, water, land and life of our biosphere, and the effects on man and nature.

Speakers have been drawn from 19 different institutions in the United States, Canada and Sweden.

## Bond To Preside At Radiation Congress

Dr. Victor P. Bond, Associate Director for Life Sciences, Chemistry and Safety, has been elected to the position of President of the Fifth International Congress on Radiation Research.

The Congress will be held in Seattle in the fall of 1974, and will include attendees from all parts of the world.

Dr. Bond has also been elected to the office of President Elect of the Radiation Research Society, which is sponsoring the Congress on Radiation Research.

## World of BNL

Bernard Manowitz of the Radiation Division of the Department of Applied Science will be the guest this week and next on the World of BNL. The programs will be concerned with the Atmospheric Diagnostic Program, and Sulfur Dioxide in the Atmosphere.

The World of Brookhaven National Laboratory is broadcast every Sunday over WBLI-FM (Patchogue 106.1 on the dial) at 8:15 a.m., and over WGLI-AM (Babylon 1290 on the dial) at 11:15 p.m.

## Ten AUI Scholars For 1972 Named

Lawrence A. Walser

Kathleen R. McKeown

Andrew S. Borg

Joseph Meo

Nina M. Herrera

Richard S. Halada

David E. Hillman

Robert E. Chrien

Deborah E. Weinstock

Each of the holders of the competitively awarded scholarships will receive \$900 a year for up to four years of undergraduate study.

- Andrew S. Borg (Donald C. Borg, on leave from Medical) Walt Whitman HS Home - Bethesda, Md.
- Robert E. Chrien (Robert Chrien - Physics) Bellport Senior HS Home - Bellport
- Richard S. Halada (John W. Halada - Physics) St. John the Baptist HS Home - East Islip
- Nina M. Herrera (John C. Herrera - Accelerator) Bellport Senior HS Home - Bellport
- David E. Hillman (Manny Hillman - DAS) James Wilson Young HS Home - Blue Point
- Joseph Meo (Anthony O. Meo - Instrumentation) Patchogue-Medford HS Home - Patchogue

Kirk Shelton

- Kathleen R. McKeown (Marilyn & Michael McKeown, Physics) Bellport Senior HS Home - Brookhaven
- Kirk Shelton (E.E. Shelton - PEP) Ward Melville HS Home - Setauket
- Lawrence A. Walser (Paul Walser - PEP) Earl L. Vandermeulen HS Home - Belle Terre
- Deborah E. Weinstock (Eugene Weinstock, DAS) Bellport Senior HS Home - Brookhaven

## Centrex Is Coming Saturday, June 3rd

The BNL telephone system will cutover to Centrex services at 12:01 a.m. Saturday, June 3rd.

New BNL Directories will be distributed by the Mail Room on May 15. Instructions for use of Centrex are set forth in the yellow pages. In addition, there will be briefing sessions for extension users. Interested employees should attend one of the six sessions in Berkner Hall at 10:00 a.m. and 2:00 p.m. on May 22, 23, and 25.

Postcards for notification of new numbers will be distributed with the Telephone Directories and will be available at the briefing sessions. Those who regularly receive calls from offsite should fill out the cards and address them to those who need to know the new numbers so callers may dial the sender directly. In this regard, please note that the new numbers are already published in the 1972 AEC FTS Directory. Distribution of FTS Directories will be complete prior to June 3rd.

Calls to the switchboard number 516-345-2123 should be kept to a minimum.

## Saving Bond Drive Starts Next Week

Brookhaven National Laboratory has been asked to participate in the US Treasury Department's 1972 Savings Bond Campaign. On Friday, May 12, literature pertaining to this program will be distributed to all employees.

Automatic payroll deduction for purchase of saving bonds can be a safe and simple way to accumulate reserve funds. The payroll division will make an automatic deduction from each weekly or monthly paycheck in small or large amounts towards the purchase of bonds in various denominations.

Joining the Payroll Savings Plan is as simple as filling out an application card, and as rewarding as putting money into your own pocket!

## AEC Service Award

On April 21, 1972, Lyman Bryan, Area Manager of the AEC's Brookhaven Area Office, presented David Schweller with the Federal Government's ten-year service pin.

Schweller began his Government career with the Division of Operational Safety in the AEC's Headquarters Office as a Reactor Safety Specialist in 1962. He transferred to the Brookhaven Office in 1963 where he served in the Operations Division - first as a Reactor Safety Engineer and later as Assistant Director for Reactors and Safeguards.

When the Brookhaven Office became an Area Office under the AEC's New York office in 1970, Mr. Schweller was appointed to his present position, Chief of the Operational Safety Branch of the Brookhaven Area Office.

## BERA Concert Group

An additional concert will be given on Tuesday, May 16 at 8:30 p.m. in Berkner Hall. The Stellar Consort will present a program of vocal and instrumental music of the Renaissance. Keep the date open and watch for details next week.

Admission \$2.00; under 18, \$1.00.

## Lab And Lecture For Students

Seymour Katcoff, Chemistry, gives a classroom lecture to a group of students who will soon finish the eighth Semester at Brookhaven National Laboratory. Participation in classroom lectures as well as laboratory work is part of the students' curriculum.

At the Hot Lab, Manny Hillman advises Paul King of Fisk University on setting up an experiment.

Ernest Gilbert of Jarvis Christian College works with Tom Kitchens of Physics.

Joynetta Wilridge of Grambling gets in some lab work under the direction of Dr. Chikkappa of Medical.

Bertha Pride and Joynetta Wilridge of Grambling College do lab work in the Medical Department.

O'Laughlin, Eileen.....Fiscal

Public Relations Officer

## Lab To Retain Present Work Hours

The Lab administration's feasibility study of an 8:00 a.m. to 4:30 p.m. workday during all or part of the year has resulted in a decision not to change the present schedule.

Commenting on the conclusion reached, Dr. M. Goldhaber stated, "The present work schedule is long-established and has accumulated numberless ties - many not immediately apparent - to the workings of our internal administration and our relationship with other laboratories and organizations. Only the most cogent reasons would make it desirable to revise it. The idea of an earlier workday held sufficient interest to warrant our extensive consideration. However, taking into account administrative requirements, the schedules of other laboratories and the opinions of our employees, the reasons favoring an earlier workday were simply found to be not compelling enough to justify a change."

The opinion poll published in the *Brookhaven Bulletin* as part of the Laboratory's study did not produce a definitive picture of employees' feelings on the matters of work hours. While a majority of the returns expressed preference for a year-round earlier workday, the total number of responses, including those recommending no change, was equal to less than half of the Lab's total work force.

## Stony Brook Events

Friday, May 5

The Second Annual Purchase Award Exhibition continues all week in the Stony Brook Union Gallery. Works in various media by members of the University Community will be on display 10 a.m. to 5 p.m.

Jose Contreras will conduct a concert group for his Master of Music degree in Room 105 of the Lecture Center at 8:30 p.m.

## Cooking Exchange Meets Today

This afternoon's session will feature children doing the cooking. Included will be a dress-up salad, a chicken dish and some very tasty desserts. The place is the Recreation Building in the apartment area, and the time is 3 to 5 p.m.

There is a charge of 75¢ per session for each person attending to cover the cost of recipes and for the babysitters.

## Arrivals & Departures

Bill R. Watson.....Accelerator

## Bowling Party Tuesday May 9

Our bowlers were supposed to purchase their \$1.50 ticket to their party by last Monday May 1. At that time, because of the lack of interest the party was cancelled – and then resurrected because of a small ground swell of new interest.

There will be a party – at the Recreation Building from 5:30 to 8:30 p.m.

However, you must purchase your ticket at the Recreation Office in advance.

The deadline has been extended to this Friday May 5 at 5:00 p.m.

## Consolation Tournament

The Consolation Tournament will be held, the same time as our Championship Tournament, at Port Jeff Bowl on Saturday May 6 at 2:30 p.m. The bowlers will be required to pay for their own games.

This will be a Lo-Ball Round Robin Tournament. A Peterson Point System will be used for scoring, two (2) points for each game won (higher score) and one (1) point for each fifty (50) pins. There will be no handicap used and the winner will be determined by the lowest point total at the end of three (3) rounds.

The scoring for each game will be the same as for regulation bowling with the exception that each gutter ball will count ten (10) points. A gutter ball will be defined as any ball that does not reach the end of the alley.

Teams will consist of four bowlers on the official roster of their league who have bowled at least twelve (12) games during the regular season. In the event that not all the bowlers from an eligible team can bowl, a bowler can be used from another team in the same league with an average closest to that of the missing team member.

Team captains will draw for starting lanes before the first round.

## Camera Club Meeting

The BNL Camera Club will meet on Wednesday, May 10 at 8:00 p.m. in the Recreation Building. The purpose of the meeting will be to discuss and plan for the May photography exhibit in Berkner Hall. Everybody with prints or slides, please try to come.

## Cafeteria Menu

### Week Ending May 11, 1972

<b>Friday, May 5</b>	
New England Clara Chowder	
Stuffed Flounder & French Fries	.95
Poached Fillet of Sole & 1 Veg.	.95
Chili Con Carne on Rice	.85
<b>Monday, May 8</b>	
Puree of Mongol Soup	
Spanish Omelet & 1 Veg.	.80
Baked Macaroni w/Bacon Strips & 1 Veg.	.85
Boiled Beef w/ Bee: Relish & 1 Veg.	.85
<b>Tuesday, May 9</b>	
Vegetable Soup	
Manicotti w/Meat Sauce & Tossed Salad	.85
Pork Chow Mein on Rice w/ Crisp Noodles	.85
Beef Stew Casserole	.90
<b>Wednesday, May 10</b>	
Turkey Noodle Soup	
Corned Beef & Cabbage w/Boiled Potato	.95
Spaghetti w/Italian Sausage & Peppers	.90
Grilled Chopped Beefsteak & 1 Veg.	.80
<b>Thursday, May 11</b>	
Onion Soup w/CROUTONS	
Veal Parmigiana & 1 Veg.	.90
Braised Chicken Leg & 1 Veg.	.85
Baked Stuffed Green Peppers & 1 Veg.	.85

## Smile – Say Cheese

“Pass the cheese, please” will be the motto of the day on Wednesday, May 10, from 3 to 6 p.m., at the Brookhaven Center. This is the ladies’ annual sprig tea and it will be a cheese and bread tasting party. As usual, child care is available free of charge at the Gymnasium, 3 Center Street.

The cheese committee has advised us that they need help. In order to supplement the supply of international cheeses at the tasting, it is necessary to request donations from the ladies. Won’t you please call one of the following representatives and volunteer a pound of cheese? The people to contact are June Adams (744-5448), Norma Chernick (GR 5-0168) and Dorte Lehmann (extension 503).

## Bowling Championship

The Championship Tournament will be held at Port Jeff Bowl on Saturday May 6 at 2:30 p.m. All bowling fees will be paid by BERA.

This will be a three win, two loss, elimination type tournament. If a team has two losses they are eliminated, three wins will determine the Champion.

Team captains will draw for starting lanes for the first round. The second round will pair up the two winners against each other. In the third round the team with two wins will draw a bye. The fourth round will pair the two remaining teams for the Championship.

In the event of a tie game there will be a one frame roll off. A handicap of 80% will be used, based on the end of the season averages of all bowlers.

The Black & Blue League and the Pink League Champions will be permitted to use a bowler from the second place team in their respective leagues, if necessary, to fill out a 5 man team. Participants will be limited to those on the official team roster who have bowled at least twelve games during the regular season.

## Swimming Pool Schedule

Open Weekdays Monday through Friday  
12:00 noon – 1:30 p.m. Employees Only.

5:00 p.m. – 9:30 p.m.

Employees/Family/Visitors.

### Rates

Season Pass	
Employee or Family Member	\$ 5.00
Family (Same Household)	\$10.00
Daily Single Admission	
Employee or Family Member	50¢
Visitor	75¢

## Bowling News

Grace Fales

### Green League

Alas, for 35 BNL bowlers, the season is over. For the other 10, the Designers and Sandbaggers, the most important game of their season will be played this week to decide the League Championship. Good luck to both. The Sweeps winners were: 1st high gross series, George Guydish 872, 2nd Gerald Walker 832, and 3rd Gene Fales 831; (4 game series). High gross game went to Jim Lee 268, (242 scratch). Other 200's were: R. Jones 200, L. Jacobson 200, G. Guydish 238, J. Cuccia 201, E. Sperry 200/199/556 (high scratch series for the night).

### Red League

The Sparks have won the second half and the Neutrons came in second. The Spares play the Old Timers for the League Championship. 200's for the night were: Nick Combatti 206, and Walt Reams 214. Sweeps winners for high gross series were: 1st Barney Brehm, 2nd Walt Reams, and 3rd Dick Adams. High gross game was split between Nick Combatti and Ken Asselta.

### Pink League

Positions at the end of the second half were 1st Hopefuls, 2nd Spares, 3rd Fiscal Assets, 4th Alley Oops, 5th Pinsplitters, and 6th Bioboosers. Sweeps winners for high gross series were: 1st Helen Keeley 818, 2nd Lil Hillerud 798, and 3rd Carol Beckner 792. High gross game went to Wilma Quinn with a 241. To close the season, there were many games in the 160's. Bowling 180 or better were: Helen Caisey 184/523, Lillian Hillerud 185, Wilma Quinn 189, and Marge Stoeckel 190. Helen Keeley waited until the last night of bowling (and the very last game in sweeps, no less) to zero in with a 208. Results of the Pink League rolloff will be announced next week. Here's hoping everyone had an enjoyable year. Have a good summer!!!

### Black and Blue League

Congratulations to the Cellar Dwellers who won the roll-off for second place. Sweeps night was a huge success, especially for Pam Murgatroyd who took first place for high gross series with an 850, followed by Rick Murgatroyd with a 839, and Ben Belligan with an 827. Kit D'Ambrosio won for her high gross game of 243. See you all next season. Amen!!!

**Lest Ye Forget!!!** Bowling Awards Night – Tuesday, May 9th, 1972, 5:30 p.m. at the Recreation Building. See you there.

## Scorekeepers Wanted

Volunteer scorekeepers are needed for the Consolation Tournament and Bowling Championships on May 6 at 3:30 p.m. at Port Jeff Bowl.

Call Lou Jacobsen, X477 or the Recreation Office X391. Come down and root for your favorite team.

## MET Baseball Tickets

Met baseball tickets are still available for the following dates in May and June.

- May 7 – San Diego
- 11 – Los Angeles
- 15 – Montreal
- 16 – Montreal
- 17 – Montreal
- 30 – Philadelphia
- 31 – Philadelphia
- June 1 – Philadelphia
- 7 – Cincinnati
- 26 – Pittsburgh

## Ellington Tickets Selling Fast

June 13th is a long time from now . . . or is it? The calendar says that the Ellington show on that date is a comfortable month away, but the ticket sales say . . . run and get one now while there is still room in the Theater!

With a band like the Duke's there is very little worry about being up front to be able to hear the music properly. When Ellington formed his first band back in 1920, there was no electron amplification available, and a crowded theatre or hall with 3000 people was just a normal group.

Before electronic music with its “proper listening angle” the big bands had licked the problem of total coverage of their music without blasting the audiences eardrums.

Edward Kennedy Ellington has been in the band business for more than 50 years, and is still top in his field. This year he is the leader in Playboy's poll of All-Stars, and in spite of his 73 years, shows no loss of vitality in either his music or his private life.

Every night he plays the piano, and every day the Duke works at increasing the number of compositions that he has authored. Besides more than a thousand compositions, he has written music for shows and movies.

His band is composed of working musicians, many of whom are famous in their own field. On the trumpet are Cat Anderson, Herbie Jones and Cootie Williams. Buster Cooper and Lawrence Brown take the slide trombones. John Lamb on the bass and Sam Woodward on drums make up the rhythm section. Harry Carney, Jimmy Hodges, Paul Gonsalves, Jimmy Hamilton, Russell Procope and Chuck Connors take care of the rest of the brass and reed.

And, of course, piano by none other than Duke Ellington.

Tickets are still available on a reserved seat basis to employees and family for only \$5.00 each. The general public can purchase tickets at \$6.00 each. Call or visit the Recreation Office soon before the hall is filled.

Early ticket sales have indicated solid support for the 1972 Special Event. This support is needed because the holding of future events will depend on the financial success of this concert.

Currently, the Special Event is presented on the assumption that there will be no dollar loss. No funds have been designated in the BERA budget to supplement the income from ticket sales. The Special Event is the same as any BERA activity – it must be supported if it is to continue.

## BERA Golf

Countdown . . . 3, 2, One week to go for Golf 1972. Bigger and better, more fun, more prizes and probably more losers. Membership is open to employee, spouse, men, women, good golfers and bad golfers. Handicaps make everyone equal.

Sign up now for a fun filled season. For an application call Jim Conway at Ext. 7559 or pick up one at the recreation office. EVERYONE WELCOME !!

## Theatre Group Meeting

The next meeting will be held on Thursday, May 18, at 8:30 p.m. at Berkner Hall.
