USIA Foreign Correspondents' Tour

Bicycle Race Route

For the benefit of racers wishing to try the route for the June 6 race ahead of time, a map is usually published at this time. Due to the short *Bulletin* this week, a written description follows: The race will start at 10 a.m. on Upton Road at the entrance to the west guest house and proceeds north on Upton Road past the usual starting point at Brookhaven Ave. This lengthens the race by 0.16 mile to 17.76 mile. The route leaves the Lab via the North Gate, proceeds north on Wm. Floyd to Route 25 (Middle Country Road) then east on Rt. 25 to the traffic light on Wading River Road. Wading River Road is followed southwards to North Road, followed by a sharp right turn onto North Road westbound. This is the turn which people have missed in the past. North Road curves around to the south and crosses the LIRR and the L.I.E.

Immediately after crossing the L.I.E., the race route makes another sharp right onto South Road westbound, which eventually merges with the Moriches-Middle Island Road. The route turns right onto Wm. Floyd Parkway, proceeds north to the Main Gate, thence via the north side (against traffic) of the entrance road to Upton Road, then north to the usual finish line at Brookhaven Ave. The route completely encircles BNL clockwise and all turns are to the right, with the exception of the final sweeping left turn onto Upton Rd.

Registration is from 9 a.m. on, and there is a \$1.00 fee which includes beverages afterwards. Minors under 18 must have a parent's consent. Advance registration forms are available from G.H. Morgan, Ext. 4841, Bldg. 815.

Cafeteria Menu

Week Ending June 4, 1976

- Monday, May 31**
Snack Bar Service 9 a.m. - 2 p.m.
- Tuesday, June 1**

Roast Chicken, Stuffing & 1 veg. 1.10
- Friday, June 4**
Fish Chowder
Spaghetti & Clam Sauce 1.00
Breaded Pork Chop & 1 veg. 1.30

In Brief

We have an abbreviated *Bulletin* this week as the Editor is away. Full coverage resumes next week.

Thomas Moran's "Autumn Foliage" is one of the paintings on loan from the Heckscher Museum that will be on display in the BERA Art Show in Berkner Hall from May 28 - June 17.

Americana On Display

"American Paintings On Loan From The Heckscher Museum" will be on exhibit in Berkner Hall from May 28 through June 17. The opening party will be at 8 p.m. tonight and all are invited to attend. Reservations for the buffet supper at 6 p.m. should be made by calling 345-3364.

Some of the artists represented in this show are known for their talents in other fields. Samuel F.B. Morse, famed for his work in the development of the telegraph, was the founder and first president of the National Academy of Design. It is not certain if the picture of him in the show is a self portrait or is a portrait of him by an unknown artist.

Asher B. Durand was an engineer as well as an artist known for his gift for observation. He was one of the first Americans to advocate painting out-of-doors.

Another artist represented in the show, Louis Comfort Tiffany, is famous for his glass work. However, at the time he was also a well known painter. Other artists whose work will be on display are known primarily for their work as painters, and in

particular, their landscapes. These include George I. Innes, Frederick E. Church and Ralph A. Blakelock.

Blakelock's works have visited Brookhaven before. Twenty paintings attributed to him were examined here to determine their authenticity. This work was done in the Chemistry Department using neutron activation autoradiography, a method used to detect art forgeries. Blakelock was a self-taught artist and was known primarily for his depictions of American Indian life.

New York is another common denominator of the artist in this exhibit. Many of them either painted scenes of New York, such as Church's "Autumn in the Adirondacks," Albert Smith's "Southampton," and Guy Wiggins' "Snowed Under in New York," or were products of the New York art scene, such as Eugene Speicher, who studied at the Art Student's League in the 1920's.

This exhibition is sponsored by the BERA Art Committee and will be open on weekdays from 11 a.m. to 1:30 p.m. in Berkner Hall from May 28 to June 17.

"Devil's Disciple" Opens

The curtain rises tonight on the Theatre Group's Bicentennial production "The Devil's Disciple" by Bernard Shaw.

This tense drama of the American Revolution, written by a British subject, tells how the grim reality of war affects ordinary families and renews the old theme of the ability of the common man to meet sudden adversity with courage and heroism.

A second theme deals with the wartime philosophy of the career military officer. Major Swindon and General Burgoyne accept death for themselves and others as sudden and inevitable and are concerned more with how death will be faced than when.

Mike Losquadro, Jr. plays the role of Richard Dudgeon, a brash restless young rebel with a quick and pointed sense of honor. This interpretation provides a striking contrast to Bob Kinsey's intense Mr. Anderson, the minister at Westerbridge. Bob is particularly well-suited for this role, his height, build and expression project a confidence and steadiness essential to the character.

Sharon Smith has been able to repress her natural vivacity long enough to play a minister's wife confronted with an un-

settling circumstance - a sudden attraction to a younger man.

Support the Theatre Group by coming with friends to this entertaining play tonight and tomorrow night or on June 5 and 6. Tickets are \$3.00 for adults; \$2.00 for students and persons over 65 and are available from Gail Williams, 460; Blanche Laskee, 185; Eena-Mai Franz, 555A; and at the booth in Berkner Hall.

Robert Kinsey as Mr. Anderson and Rita Straub as Mrs. Dudgeon in the Theatre Group's Bicentennial production of "The Devil's Disciple."

AUI Benefit Book Mailed

A new AUI Retirement and Group Insurance Booklet has been prepared and will be mailed next week to the home address of all active and retired employees.

The new booklet incorporates all of the recent improvements made to the AUI Insurance and Retirement Programs.

This booklet should provide employees and their families with a better understanding of their AUI benefits.

Any questions regarding these benefits should be referred to R. Schonberg, Ext. 2881.

Hospitality News

The next morning coffee will be held on Tuesday June 8, at 9:30 a.m. Details will be in the next *Bulletin*. Please note the change in date.

Soccer

John Skalyo

BNL 4 - Stony Brook Prep 3

BNL traveled to Stony Brook on May 23 and came away triumphant over Stony Brook Prep 4-3. BNL controlled the game the first half scoring early on a header by Batchelor. The second goal was by Verarviz who scored off a cross from the left by Batchelor. The half ended 2-0.

BNL continued to control the game starting the second half. At 60 minutes, Cox lobbed the ball over the goalie's head when the goalie came out to meet the threat. BNL finished its scoring at 63 minutes with another from Verarviz, 4-0.

The game should have been over, but the next 27 minutes were controlled by Stony Brook. Gaffney broke the ice for Stony Brook at 70 minutes with a shot from the right side that caught the far left corner of the net (4-1). Stony Brook scored twice more before the final whistle and a tired BNL came away rewarded (4-3) for their earlier good play.

BNL will travel to Medford on June 6 to play Patchogue Reserve at 2:00 at Tremont Avenue.

BNL will host the New York Oldtimers on June 26 at 2:30 at the BNL Recreation Park.

The Brookhaven Town League will start shortly after July 4 and schedules will be given when received.

Interested players should contact Ralph Fairchild, Ext. 3649. New players are welcome.

Arrivals & Departures

Placement Notices

Each week the Personnel Office lists personnel placement requisitions, currently being processed. The purpose of these listings is, first, to give notice of all non-scientific staff positions being filled and, second, to give employees an opportunity to request consideration for themselves through the Personnel Office. In filling vacancies, the Laboratory's objective is to give first consideration to present employees, as follows: employees within the immediate group having the vacancy, employees within the department or division, employees within the Laboratory as a whole.

For further information regarding a placement notice, or to request consideration for an available position, contact Supervisor, Personnel Placement & Development, extension 2874 or 2882.

110. SECRETARY - Experienced individual with AAS degree or equivalent in secretarial science to provide assistance to Budget Office personnel in the development, preparation and control of the Laboratory's budget. Director's Office.

111. COMPUTER SCIENCE ANALYST - BS or equivalent in Computer Science/Mathematics with experience in scientific programming and statistical analyses to assist in the processing and analysis of data related to environmental impact studies of new and existing technologies. Department of Applied Science.

112. TECHNICIAN - AAS degree or equivalent in electro-mechanical technology and experience in construction, assembly, and operation of combustion devices and related analytical equipment. Analytical chemistry background and experience with internal combustion engines desirable. Department of Applied Science.

113. CABINETMAKER A - Under minimum supervision lays out, constructs, modifies and maintains furniture, laboratory equipment and building and component parts. Works with wood, wood substitutes and combination materials and flooring, roofing and wall materials. Uses hand, portable and fixed tools common to building construction and cabinet making trade. Works from prints, rough sketches and verbal instructions. Requires broad shop skills to perform difficult operations requiring ingenuity on complex jobs where previous standards or methods of operation do not offer complete solution. May perform Carpenter duties as required. Application deadline: June 7, 1976. Plant Engineering Division.

114. MODEL MAKER (WOOD) - Under minimum supervision lays out and constructs scale models of buildings, machinery and equipment. Works from intricate prints, rough sketches or verbal instructions. Requires broad shop skills to perform unique and difficult operations requiring unusual ingenuity on complex jobs where no previous standards or methods of solution exist. Uses wide variety of conventional and unusual materials. Application deadline: June 7, 1976. Plant Engineering Division.

115. TECHNICAL SPECIALIST - To assist medical research staff in calcium metabolism studies. Medical Department.

116. PATROL OFFICERS - 4 positions. Safety & Environmental Protection Division.

Autos & Auto Supplies
