

1978 BNL Holidays

New Year's Day	Monday	January 2
Washington's Birthday	Monday	February 20
Memorial Day	Monday	May 29
Floating Holiday	Monday	July 3
Independence Day	Tuesday	July 4
Labor Day	Monday	September 4
Floating Holiday	Tuesday	September 5
Veteran's Day	Friday	November 10
Thanksgiving Day	Thursday	November 23
Day after Thanksgiving	Friday	November 24
Christmas Eve	Friday	December 22 (½ day)
Christmas Day	Monday	December 25

Major Exhibit Opens In D.C.

Brookhaven figures prominently in the new "Atom Smashers... 50 Years" exhibit at the Smithsonian Institution, and a large delegation from the Laboratory was in the capital for the opening on December 1.

It is the largest and most concentrated exhibit of high energy machines ever assembled. The display follows the conception, construction and operation of accelerators over the last 50 years. It has been designated to show how and why accelerators have increased from those maintained under a single roof 25 years ago, to those stretching miles in diameter today.

The five-screen slide show at the exhibit which traces the history of atom smashers from Lawrence to ISABELLE is a Brookhaven production. It was scripted by S.J. Lindenbaum (Physics Department), de-

signed by Janet Hoefling (Public Relations) and produced by Carl Thien (Public Relations).

As detailed in a Bulletin story, September 30, Brookhaven's contributions are a significant part of this major exhibit. Included are a large portion of the actual 80" bubble chamber, plus a model of the complete assembly, a section of the Cosmotron magnet and a one meter long superconducting magnet, a working spark chamber, historical papers from Leland Haworth, a magnetometer from the late Ken Green, Ernest Courant's notebook relating to the strong focusing principle and a model of the Multi-particle Spectrometer. Alan Thorndike was the coordinator of the BNL exhibits.

In Washington, Bob Wheeler (left), Don David and Tom Mogavero set up a cosmic ray spark chamber which is now on view at the Smithsonian. The exhibit was built by the Lindenbaum-Ozaki Group in the Physics Department and the MPS Group in the Accelerator Department, under the direction of Satoshi Ozaki. Special construction techniques were used to ensure that the chamber would work reliably over extended periods without attention. The spark chamber consists of five gaps, each comprised of two transparent wire planes. A spark one-half inch long occurs in each gap when traversed by a cosmic ray particle. The spark chamber is built to allow visitors to approach closely and look up into the display. A bright, clear column of sparks allows the eye to clearly "see" the cosmic ray where it goes through the chamber. —photo by Willen

The Heart Of The Matter

A recent flurry of reports, in the news and on radio and television, have mentioned Brookhaven in respect to the shipment of radioactive materials. The specific issue, as to whether the Laboratory can ship its spent fuel elements through New York City, is fast becoming a classic test of the rights of the nation versus a form of home rule.

For some, it is ironic that Brookhaven has become a test case, since it has been shipping these fuel elements for nearly 25 years, approximately 317 shipments in all, without any accident and without the slightest risk to the public. The fact that elaborate Federal standards for such shipments exist and that the carefully engineered casks employed by the Laboratory more than meet these standards, has been lost in the growing controversy over the separate and distinct issue of nuclear power. Public awareness thus is often a function of what the media choose to cover.

The immediate problem is that the New York City Board of Health had adopted regulations which in effect constitute a ban on the Laboratory shipments. In a hearing before a Federal court seeking an injunction against these regulations, the judge concluded that a preliminary injunction could not be supported and that administrative solutions had not been exhausted.

He further suggested, to avoid any immediate harm to our research programs, that an alternative route be found in the interim. This was done and six shipments were made in the spring of 1976, using a circuitous route east to Orient Point, by ferry to New London, and west across Connecticut around New York City. Again the shipments were completed safely and without incident.

In the meantime, as part of the administrative recourse cited by the court, a petition was addressed to the U.S. Department of Transportation. The thrust of the petition, made by AUI, as the corporate body that operates Brookhaven for the Department of Energy, was that the New York City regulation were *inconsistent* with Federal regulations and therefore should not be allowed to stand.

In order to give the public a voice in the matter — most of the concerned parties had already submitted their briefs — a special open hearing was held in the offices of the Department of Transportation in the World Trade Center on November 10. Fanned by certain city officials, considerable interest in the hearing was generated as a sensational subject and therefore newsworthy. A number of patently false, often inflammatory, statements were made with the result that the Laboratory was put in the role of the bad guys. Laboratory staff spent an extraordinary amount of time replying to radio editorials, responding to TV commentators with major networks who sent crews to film the fuel storage pool in the HFBR, and answering innumerable calls

R.C. Anderson was the Laboratory spokesman at a press briefing at the HFBR on November 9. The briefing was held to show the media the step-by-step procedure in the handling of spent fuel elements, from their storage in the HFBR canal to the preparations for shipping them via truck to a reprocessing plant in South Carolina. — photos by Reben

from reporters. The tone of the press was to extract the sensational where possible, with lurid details more prominently treated than the dull facts.

The dust has temporarily settled. In late January or early February, 1978, the Department of Transportation is expected to issue its ruling on the "inconsistency" question. In all likelihood, the matter will then go back into the courts to test the underlying question: can any municipality, or other unit of government, short of the Federal government, preempt what appears to be the constitutional prerogative of the Federal government, namely, in this instance, to solely regulate interstate commerce?

—R.C. Anderson

Exchange Program

The American Scandinavian Student Exchange is seeking Long Island families who are willing to have a Scandinavian student live with them during the academic year. The students are between 16 and 18 years of age, are proficient in English, and will attend the local high school of the host family. The students will be arriving in late August 1978 and will have complete medical insurance and sufficient pocket money for sight-seeing and other activities.

The Student Exchange not only brings qualified Scandinavian students to this country, but also offers American high school students the opportunity to spend a high school year with a Scandinavian family.

For further information on this program, interested families should contact the Long Island representative of the American Scandinavian Student Exchange, Penelope Tarplin, at 141 South Windsor Avenue, Brightwaters, New York 11718. Her telephone number is (516)666-8404.

Young Artists Wanted

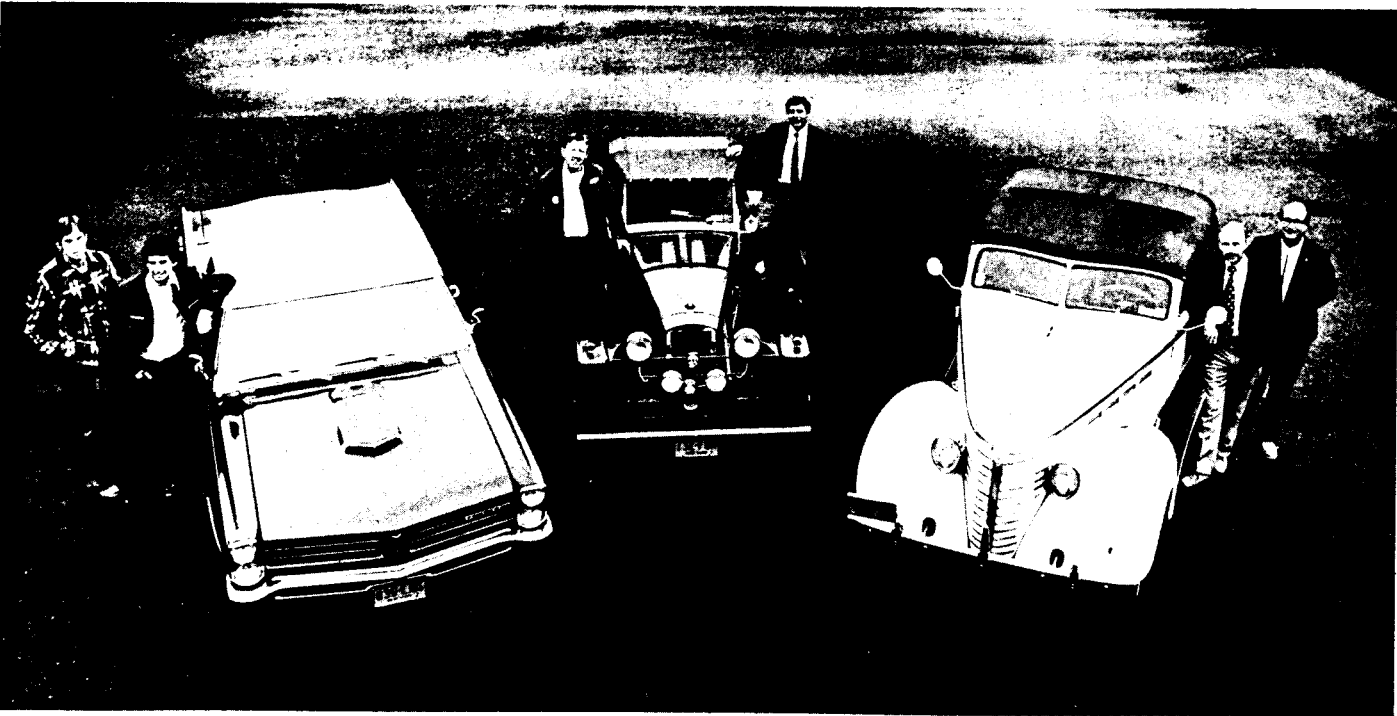

Children of Laboratory employees, between the ages of six and twelve, are invited to submit drawings of holiday scenes for possible publication in the Bulletin on December 23.

For ease of production, drawings should be on paper (no larger than 12 x 17) and should be submitted by Friday, December 16 to Bldg. 460. Please have the artist sign his or her name and age on the drawing.

The drawings need not be restricted to Christmas. Any kind of winter holiday picture that appeals to the child is fine.

Concert Reminder

The Sea Cliff Chamber Players will present a "Holiday Baroque Fest" featuring tenor Jack Litten in works of Bach, Teleman and Vivaldi in Berkner Hall at 8 p.m. on Saturday, December 10.

From left to right, Laird Stubbings and Tom Muller with Muller's GTO convertible; Nick Houvener and Eric Forsyth with Forsyth's Frazer Nash; and Al Muller and Bill Harrison with Muller's 1938 convertible. — photo by Rosen

Patent Award

Hugh S. Isaacs of the Department of Energy and Environment and Anthony J. Romano of the Department of Nuclear Energy were issued Patent # 4,043,890 August 23, 1977, for a "Device for Measuring the Total Concentration of Oxygen in Gases." The invention provides a CO equilibrium in a device for measuring the total concentration of oxygen impurities in a fluid stream. To this end, the CO equilibrium is produced in an electrochemical measuring cell by the interaction of a carbon element in the cell with the chemically combined and uncombined oxygen in the fluid stream at an elevated temperature.

Rotary Scholarships

Suffolk County's 31 Rotary Clubs are inviting inquiries from candidates for graduate fellowships, undergraduate scholarships or technical training awards for 1979-80. The Rotary Foundation trustees have approved an \$8.8 million budget for 912 educational awards. Winners will study for a year in countries other than their own. In Suffolk County, a recent winner of the scholarship was Nancy Sailor, daughter of Vance Sailor (DEE) who spent her year at the University of Lyon, France. Students interested in applying for either a fellowship or scholarship to study abroad in 1979-80, should contact the president of the nearest Rotary Club as soon as possible. Interviews with the local club must be scheduled prior to March 1, 1978.

Automobilia

In addition to creating new systems or devices during their professional hours, some members of the Power Transmission Project carry their passion for building things home with them. They are automobile *aficionados*, or, as Eric Forsyth, head of the project, says, "We seem to have attracted a goodly number of automobile nuts." Forsyth, himself, is one of these nuts. With the help of his son, Colin, he built a replica of a 1934 Frazer Nash sports car, which was originally made in England. The fiber glass body is bolted to a homemade chassis constructed from VW and Ford Model A parts. William Harrison is in the process of restoring a 1929 Essex two-door coach which was bought new by his grandfather and driven for 20 years. The Essex was built by the Hudson Motor Company. Harrison is currently president of the L.I. Chapter of

the Hudson-Essex Terraplane Club. Nick Houvener bought a 1957 Chevrolet Sport Coupe from the original owner in 1971. The two-door hardtop had 39,000 miles on it and the original tires. The car is "in work" at present with a completely rebuilt 6-cylinder Corvette engine, dual carburation, and a rebuilt automatic transmission. Houvener is doing all the work himself and doesn't know when he'll have it ready for the road. Al Muller, who is a director of the L.I. Chapter of the Hudson-Essex Terraplane Club, has four Hudsons. Besides the 1938 8-cylinder convertible, which is his summertime car, he drives a restored 1951 4-door sedan in the colder weather. The oldest car in his collection is a 1933 8-cylinder Essex Terraplane convertible coupe with that romantic addition - a rumble seat. This summer, when the Hudson owners held their annual convention in

Indianapolis, Muller's 1938 convertible was chosen as the pace car for the tour of the Indianapolis Speedway. Thomas Muller spent \$5,822 in parts and labored for about 2,600 hours to reconstruct a 1965 Pontiac GTO convertible over a three-year period. Parts from five 1965 Pontiac (Lemans and GTO) cars went into his production which features total frame redesign and accommodates a number of items, such as a Ford cast iron 4-speed transmission, a custom 30-gallon gas tank and a 1963 Ford 411 cubic inch engine. The car also boasts 20 coats of lacquer. Laird Stubbings is an active member of the Model A Restorers Club and has owned and reconditioned a 1931 Model A Ford coupe. He has also reworked to his own taste, three of the six Ford trucks he has owned. But, he says, his all-time favorite is the Model A.

Hospitality Coffee

A morning coffee will be held in the Brookhaven Center on Tuesday, December 13, from 9:30 to 11:30 a.m. Please come and bring the children. Babysitting will be provided at no charge. It is suggested that you bring along a toy or two for your children to play with.

NYC Train Trip

The Hospitality Committee is planning a group railroad trip to the city Tuesday, December 20. Departure will be at 8:32 a.m. from the Patchogue LIRR station. Round-trip fare for adults is \$2.45, children under six years ride free. Reserve a ticket by sending your fare through the U.S. mail to P.O. Box 322, Upton, New York 11973, no later than Friday, December 16. Make checks payable to "Brookhaven National Laboratory." Your tickets will be given to you at the train station. Refunds will be made only if cancellations are received at least two days prior to the trip.

Note: Except during the month of January, 1978 and unless otherwise indicated, the trips to New York City are scheduled for the first and third Wednesdays of every month. Your check for the fare must be received by the Friday preceding the trip.

We Need Tenors

The BNL Christmas Carolers are very short on tenors. Please help us out, we need you. Rehearsals are on December 13, 15 and 20 in Berkner Hall at noon. The performance is at noon in Berkner Hall on Wednesday, December 21, the same day as the Cafeteria's special Christmas luncheon. After singing in Berkner the group sings at the Hospital and the Director's Office.

George E. Leuchner of Staff Services celebrated his thirtieth anniversary with the Laboratory in March.

Cooking Exchange Party

The annual Christmas party of the International Cooking Exchange will be held at the Recreation Building on Thursday, December 15, from 4:30 to 6:30 p.m. All members and their spouses are invited to attend. Please bring a dish of hors d'oeuvres and \$1 per couple. Babysitting will be provided in the same building.

The Basis of the Law of Errors
Everybody believes in the Exponential Law of Errors, the experimenters because they think it has been proved mathematically, and the mathematicians because they think it has been established experimentally.
Maxims and Principles
Meyer's Maxim: To err is human, but to really foul-up you need a computer.
Gellman's Principle: In physics anything which is not forbidden is compulsory.
Rules For Experimenters
First draw the curve, then plot the points. A record of the data is mandatory, it shows you have been working. Experimenters must be reproducible, they should all fail in the same manner.

Keep The Home Fires Burning

Now that there is a nip in the air, fireplaces are back in use. Besides checking that your fireplace and chimney are in good condition, you will also be laying in a supply of wood. In this regard, buy only a cord or a fraction of a cord, not anything labeled a "stack." Also the wood that costs the least may provide the poorest heat. The following list, prepared by the Maine Bureau of Forestry, gives the characteristics of woods recommended for fireplace use. The Maryland Extension Service selected this group as the best from the viewpoint of ease of use, warmth and safety.

Species	Ease of starting	Coaling qualities	Sparks	Fragrance	Heating class
Apple	Poor	Excellent	Few	Excellent	Good
Ash	Fair	Good	Few	Slight	Good
Beech	Poor	Good	Few	Slight	Excellent
Birch (white)	Good	Good	Moderate	Slight	Good
Cherry	Poor	Excellent	Few	Excellent	Good
Cedar	Excellent	Poor	Many	Good	Fair
Elm	Fair	Good	Very few	Fair	Good
Hemlock	Good	Low	Many	Good	Fair
Hickory	Fair	Excellent	Moderate	Slight	Excellent
Locust (black)	Poor	Excellent	Very few	Slight	Excellent
Maple (sugar)	Poor	Excellent	Few	Good	Excellent
Oak (red)	Poor	Excellent	Few	Fair	Excellent
Pine (white)	Excellent	Poor	Moderate	Good	Fair

Still Dancing After 25 Years

Twenty-eight employees were guests at a party last week at the Center. The occasion was their 25th anniversary at the Laboratory and it was marked by dancing and good cheer.

Emergency Closings

Here is the list of radio stations that carry news of closing or late opening of the Lab on snowy days:

Station	Area	AM	FM
WALK	Patchogue	1370	97.5
WBAB	Babylon	1440	102.3
WGLI	Babylon	1290	—
WGSM	Huntington	740	—
WHLI	Hempstead	1100	98.3
WHRF	Riverhead	1570	—
WLIX	Islip	540	—
WLNG	Sag Harbor	1600	—
WRIV	Riverhead	1390	—
WWRJ	Southampton	—	95.3
WBLI	Patchogue	—	106.1
WRCN	Riverhead	—	103.9

Travel Coordinator

The BERA Board is pleased to announce that Ms. Dorothy Schroeder of the Director's Office is now available to assist employees in their search for recreational charters and tours. Mrs. Schroeder will put employees in touch with representatives from the travel agencies which serve LIIRA (Long Island Industrial Recreation Association) and will also advertise feature trips in the Bulletin on a seasonal basis. She welcomes your inquiries - Ext. 3327.

Attention! Gym Locker Users

On Monday, December 12, at 8:30 a.m. and again on Wednesday, December 28, at 8:30 a.m., the locker rooms in the pool/gym complex are scheduled to be thoroughly exterminated. To do this effectively, every locker in use must be cleared out and left open. Please cooperate! Locks will be cut off any lockers that are not left in the manner as requested.

The entire exterminating process will be completed in about three hours on each of the scheduled days. Therefore, use of the lockers may be resumed at noon.

Cafeteria Menu

Week Ending December 16, 1977

Saturday, December 10	
Snack Bar Service, 9 a.m. - 2 p.m. in the Brookhaven Center	
Monday, December 12	
Corn chowder	
Beef chop suey on rice	1.15
Scrambled eggs, sausages & fr.fr	1.10
Hot deli - pastrami	
Tuesday, December 13	
Beef noodle soup	
Knackwurst & sauerkraut	1.10
Sauerbraten & potato pancake	1.35
Hot deli - veal pattie & peppers	
Wednesday, December 14	
Cream of potato soup	
Fettuccine al burro & 1 veg.	1.20
Hot deli - corned beef	
Davy Jones Fish Fry	
Cup of soup, fish fry, pie or jello	
Small beverage	\$1.87 plus tax
Thursday, December 15	
Chicken vegetable soup	
Cheese ravioli & veg.	1.05
Roast chicken, stuffing, 1 veg.	1.15
Hot deli - Italian sausage & peppers	
Friday, December 16	
Fish chowder	
Spaghetti & clam sauce	1.05
Breaded pork chop & 1 veg.	1.35
Hot deli - smoked tongue	

19th Semester Student Program

Four math majors are returning to their colleges next week after spending the fall in study and research at various scientific departments under the Brookhaven Semester Program. Standing, from left to right, they are Kenneth Kirk (Prairie View A&M Univ.) who has been working in the Department of Nuclear Energy; Tonda Johnson (Norfolk State College) in Chemistry. Seated, from left, Linda Hawkes (Coppin State College) in Biology; and Sharon Butts (Norfolk State College) in Physics.

—photo by Reben

Mountain Club

At the last Mountain Club meeting a backpacking trip was planned for the week-end of December 17 and 18. Joe Vidal, Ext. 4562, is organizing this trip to Wittenberg Mountain in the Catskills. If you are interested in the trip call Joe to arrange rides, equipment, etc.

The next Mountain Club meeting will be in January; watch the Bulletin for the date and place.

Beginning in January, there will be kayaking practice and lessons (if there is sufficient interest) in the pool. If you are interested, please contact Dick Watson, Ext. 3788.

Don David is trying to get a group together to backpack in the Catskills on New Year's Day. Those of you who want to start the new year refreshed and alive, instead of in front of the boob tube, should contact Don on Ext. 4821.

Camera Club

A meeting of the BERA Camera Club will be held at the Recreation Building on December 13, at 7:00 p.m.

Included on the meeting agenda will be the election of officers. All members are urged to be present.

Holiday Conservation

Once again as in the past years employees are encouraged to take vacations over the Christmas and New Year's holiday. Due to the high number of employees on vacation during this period, vacant areas can be kept at a minimum safe temperature.

Energy Conservation Coordinators are being asked to determine which areas can be turned down, and which sparsely occupied areas could be temporarily consolidated. This program was so successful during past holiday periods that our fuel oil consumption was approximately 22% less for these periods than would have normally been used.

Rifle & Pistol Club

A meeting of the BNL Rifle & Pistol Club will be held on Wednesday, December 14, at 5:15 p.m. in the conference room of building 464, Department of Energy.

All members are urged to attend.

Volleyball

Employees' League

On November 30, 1977, the Easy Aces took 3 games from the Spikers by forfeit. Phoenix swept the Atom Spikers: 21-5, 21-9, 21-12. The Bumps bumped Biology: 5-21, 21-16, 21-16.

Employees' League Standings			
Phoenix	13	2	.867
Spikers	11	7	.611
Bumps	9	6	.600
Cool Tools	8	7	.533
Easy Aces	7	8	.467
Atom Spikers	4	11	.267
Biology	2	13	.133

Mixed League

Division A

On December 5, Lookin' Good swept the Nads: 17-15, 15-7, 15-12. No Names took the Assorted DOE-Nuts: 15-3, 15-6, 15-3. Popovers beat the Le Mufs: 15-17, 15-1, 15-3.

Division B

The Diamonds aced the Cowturkeys: 15-6, 15-3, 15-6. Riffraff slipped through over Oceanography: 10-15, 16-14, 15-9. Nuts and Bolts over the Leftovers: 15-8, 6-15, 15-1.

Mixed League Standings			
Division A			
Lookin' Good	13	2	
No Names	13	2	
Nads	6	9	
Le Mufs	5	10	
Assorted DOE-Nuts	4	11	
Popovers	4	11	
Division B			
Nuts & Bolts	14	1	
Oceanography	8	7	
Diamonds	8	7	
Leftovers	7	8	
Cowturkey	4	11	
Riffraff	4	11	

Easy Xmas Shopping

Cameras, a myriad of photographic items, picture frames, smoke detectors, fire extinguishers - This is a brief listing of what the BERA Sales & Services Office has in stock for easy buying. If there is something specific you want and don't see it when you visit the store, mention it to Rae. Perhaps she can order it for you.

Picture taking is so much a part of the Christmas festivities. Keep in mind that the Sales Office has an excellent and fast film processing service.

The store is located in the cafeteria building and is open Monday through Friday from 11:00 a.m. to 3:00 p.m. The telephone extension is 3347.

Participation Awards

Effective Thursday, December 15, from noon to 12:30 p.m., and continuing the third Thursday of each month thereafter, the BERA participation awards will be distributed at the Recreation Summer Office in the east end of the gymnasium building.

Bowling

Red League

In the Red League, only 12 points separate first and sixth place. This weeks congrats go to F. Stahman (218/225) 602 scratch and 680 gross pins as the Freon Loaders downed the Designers 7-4. A. Pinelli bowled a 568 scratch. The Anachems took 11 from the Old Timers II with T. Prach having a 227.

The Bubble Boys took the Cosmos 8-3 with W. Kollmer (214) having a 570 scratch and D. Klein bowling a 636 gross. The Old Timers took the Trouble Shooters 7-4. The Sandbaggers only took 4 in a match with the Got-A-Hit-Ums. E. Meier (205) had a 570 scratch 654 gross series. C. Bohenblusch had a nice 201. In the final match-up, the 76'ers were skunked 0-11 by the Dyno-Mites. R. Larsen had a 207.

Purple & White League

The Jokers broke the record for high team series with a 917 gross 733 scratch (Alma Tomesch 180, Charles Tomesch 221, Irene Sperry 165, Ed Sperry 167).

Gail Thompson had high game for the ladies with a 195 and high series 502. Charles Tomesch had high game for men with a 221 and Bob Jones high series 574. Jere Austin converted the 4-7-10 split. Other high games were Bob Jones 210, Nate Carter 205 and Ed Sperry 202.

Green League

Week of Nov. 21: The Blue Jays could only take three points from the Sandbaggers. D. Stelmachuk had a 211 and John Berech a 217. The second place Dyno-Mites salvaged four points from the Old Timers II. The Sparks shorted out the Cosmos for eleven. J. Cockrane had a 216. The Trouble Shooters took three as the Got-A-Hit-Ums got dumped for eleven by the Pick-Ups. The Pinball Wizards took five with R. Eggert bowling a 212.

Week of Nov. 28: The Blue Jays maintain the lead for first place as they took eleven from the Pick-Ups. For the Blue Jays, H. Marshall had a 201 and J. Berech a 204. The Dyno-Mites are pushing a close second as they took eleven from the 76'ers. R. Humphrey had a 210 game. The Old Timers II are tied for third with the Sparks as they lost eleven to the Anachems. B. Galen had a nice 207. The Sparks could only take five from the Pinball Wizards. B. Sick had a 222 and R. Eggert had a 223/212. The Got-A-Hit-Ums took seven from the Sandbaggers with N. Parrinello having a 215 game. The Trouble Shooters only salvaged three from the Old Timers.

Black & Blue League

First place is being held by the Athols with New Horizons in second. High games for the women were Virginia Walker 214 and Debbie Antonio 192. For the men, Barney Brehm bowled a 186 and Lew Jacobson 183.

Pink League

After the make-up game on Sunday and taking seven from the Lickety Splits on Tuesday night, the Odd Balls are now tied for first place with Pinsplitters. It was a good night for the ladies in Pink with lots of high games. Cathy Van Noy bowled a 209, Marie Brenner 195, Lindora Boyd 183, Marge Stoeckel 174, Jean Matkovich 172, Helen Keeley 170, Fran Scesny 161.

Classified Advertisements

Placement Notices

The Laboratory's placement policy is to select the best-qualified candidate for an available position, with consideration given to candidates in the following order of priority: (1) present employees within the department, with preference to those within the immediate work group; (2) present employees within the Laboratory as a whole; and (3) outside applicants.

Each week, the Personnel Office lists new personnel placement requisitions. The purpose of these listings is, first, to provide open placement information on all nonscientific staff positions; second, to give employees an opportunity to request consideration for themselves through Personnel; and, finally, for general recruiting purposes. Because of the priority preference policy stated above, each listing does not necessarily represent an opportunity for all candidates. As a guide to readers, the listings are grouped according to the anticipated area of recruitment, as indicated below. Except when operational needs require otherwise, positions will remain open for one week following publication date.

For further information regarding a placement listing, contact the Personnel Placement Supervisor, Ext. 2874 or 2882.

LABORATORY RECRUITMENT: Opportunity for present Laboratory employees.

426. **TECHNICIAN (WEEKLY OR MONTHLY)** - Requires an AAS or equivalent in electrical technology and very strong skills in the construction, operation and maintenance of complex electronic instrumentation. Instrumentation Division.

427. **TOOL AND INSTRUMENT MAKER, GROUP LEADER** (two positions available) - Central Shops Division.

436. **STORES CLERKS** (2 positions) - Supply & Materiel Division.

OPEN RECRUITMENT: Opportunity for present Laboratory employees and outside applicants.

428. **ENGINEER** - Requires an advanced degree in engineering or its equivalent and knowledge of the design and analysis of piping systems. Experience in computer based modeling and in power cycle analysis is desirable as is background in the building of HVAC systems and/or geohydrothermal resource utilization. Department of Energy and Environment.

429. **FACILITIES ENGINEER** - Requires a BSME or its equivalent and background in developing designs, equipment specifications, drawings and estimates for HVAC, power and process piping systems and their associated equipment including control and instrumentation systems. PE license would be desirable. Plant Engineering.

430. **TECHNICIAN** - Requires an AAS or its equivalent in electronic technology and a good background in the assembly of large devices and in the construction, operation and repair of support systems associated with cryogenic equipment. Some shift work. ISABELLE Division. Accelerator Department.

431. **TECHNICIAN** - Requires an AAS or its equivalent in mechanical technology and the ability to assemble precision machined components from exotic materials. Must have background in machine tools, shop equipment, silver brazing and soldering. Knowledge of high vacuum and electrical equipment would be desirable. H- group. Accelerator Department.

432. **DRAFTSMAN** - Requires an AAS or its equivalent in mechanical design or mechanical technology with design and drafting option and working background in structures, vacuum piping and magnet systems is desirable. Accelerator Department.

433. **PROGRAMMING ASSISTANT** - Requires an AAS or its equivalent in data processing field and a working knowledge of Fortran. Applied Mathematics Department.

434. **MASTER WELDER** - Central Shops Division.

435. **CARPENTER** - Medical leave replacement. Plant Engineering.

Autos & Auto Supplies

SNOW TIRES - Good w/rims, F78-14, Sears nylon and glass belted. \$20 each. T. Le, Ext. 2060.

66 **CHEVY BELAIR** - Body good, am radio, 6 cyl rebt eng, needs tires. \$300. 281-4140.
