# PFAS Time Critical Removal Action

Foundation for the new building located adjacent to Building 598 was poured and backfilled. The electrical conduits for the building were installed.

# PFAS Time Critical Removal Action

Installation of 83 monitoring wells are completed and work on the ninth of twelve planned extraction wells was started.

# Building 650 D&D Project

All waste generated during the D&D operations has been safely disposed of at Energy Solutions, Utah

- (7) railcars
- (17) B-25's via truck
