Dear Helga;

I have tried my best to get these negatives returned; in fact this was spelled out clearly to the publishers when my paper was accepted. Evidently this is an unusual procedure for them.

Please wait at least a month for the usual overseas delay. After that I would suggest corresponding with the British Ornithologists Union directly.

If there is still no response please let me know. I plan to be in England this summer and if necessary will go knocking on their door!

Thanks for your patience,
Daniel F. Shreeve

Dear Daniel:

Going through my loan record, I have come across your outstanding one for six (6) B.N.L. negatives. As you may recall, you requested them to be sent to England in October, 1979. Your letter dated February 25, 1980 informed me that the printing had been completed but, did not tell me of a delay in the return of the negatives.

As the negatives are the property of B.N.L., they should be returned as soon as possible. Please be so kind and check into this matter.

Sincerely yours,

Helga Pirozai

Dear Helga;

Sorry but there's a freeze here on long-distance calls; I hope this reaches you shortly.

In regards to the Ibis article, I am happy to say that I sent in the corrected proofs this very morning. They will need the negatives for another 2 months. The article is due to come out in the April issue of Ibis. All the sonagrams will be printed, and the plate showing Rosy Finch displays. They came out well in their sample photo.

Thanks very much for your assistance in this regard.

Sincerely,

Daniel F. Shreeve

Memo to.....Dept.....

While pulling preceding series of negatives for Platner, I noticed that 3 negatives on K. Lai job, following in our caption book, were never put into file. Since this happened during my vacation, I am not sure what could have happened. If K. Lai orders with these 3 negative numbers (7-1056-76, 1057, & 1058), ask him to bring back the originals for duplication.
