Executive Summary ........................................................................................................ iii  
Acknowledgments ........................................................................................................... x  
List of Figures .................................................................................................................. xxi  
List of Tables ................................................................................................................... xxiii  

## CHAPTER 1: INTRODUCTION

1.1 Laboratory Mission and Policy .............................................................................. 1-1  
1.2 Research and Discoveries ..................................................................................... 1-2  
1.3 History ................................................................................................................... 1-2  
1.4 Facilities and Operations ....................................................................................... 1-4  
1.5 Location, Local Population, and Local Economy .................................................. 1-5  
1.6 Geology and Hydrology ......................................................................................... 1-7  
1.7 Climate ................................................................................................................... 1-8  
1.8 Natural Resources .................................................................................................. 1-9  
1.9 Cultural Resources ................................................................................................. 1-11  
References and Bibliography ...................................................................................... 1-12  

## CHAPTER 2: ENVIRONMENTAL MANAGEMENT SYSTEM

2.1 Integrated Safety Management, ISO 14001, and OHSAS 18001 ......................... 2-1  
2.2 Environmental, Safety, Security, and Health Policy ............................................ 2-3  
2.3 Planning ................................................................................................................ 2-3  
   2.3.1 Environmental Aspects .................................................................................... 2-3  
   2.3.2 Legal and Other Requirements ...................................................................... 2-3  
   2.3.3 Objectives and Targets .................................................................................. 2-4  
   2.3.4 Environmental Management Programs ....................................................... 2-4  
   2.3.4.1 Compliance ................................................................................................ 2-4  
   2.3.4.2 Groundwater Protection .......................................................................... 2-4  
   2.3.4.3 Waste Management ................................................................................ 2-8  
   2.3.4.4 Pollution Prevention and Waste Minimization ......................................... 2-9  
   2.3.4.5 Water Conservation ................................................................................ 2-10  
   2.3.4.6 Energy Management and Conservation .................................................. 2-11  
   2.3.4.7 Natural and Cultural Resource Management Programs .......................... 2-18  
   2.3.4.8 Environmental Restoration ...................................................................... 2-19  
2.4 Implementing the Environmental Management System ...................................... 2-19  
   2.4.1 Structure and Responsibility ........................................................................ 2-19  
   2.4.2 Communication and Community Involvement ........................................... 2-20
2.4.2.1 Communication Forums ................................................................. 2-20
2.4.2.2 Community Involvement in Cleanup Projects ................................ 2-23
2.4.3 Monitoring and Measurement ............................................................ 2-23
  2.4.3.1 Compliance Monitoring ............................................................... 2-24
  2.4.3.2 Restoration Monitoring ................................................................. 2-26
  2.4.3.3 Surveillance Monitoring .............................................................. 2-26
2.4.4 EMS Assessments ........................................................................... 2-26
2.5 Environmental Stewardship at BNL ...................................................... 2-27
References and Bibliography .................................................................. 2-28

CHAPTER 3: COMPLIANCE STATUS
  3.1 Compliance with Requirements ........................................................... 3-2
  3.2 Environmental Permits ...................................................................... 3-2
    3.2.1 Existing Permits ........................................................................ 3-2
    3.2.2 New or Modified Permits .............................................................. 3-5
      3.2.2.1 SPDES Permits ...................................................................... 3-5
      3.2.2.2 NYS Wetlands and Wild Scenic, Recreational Rivers Act ........ 3-5
      3.2.2.3 Title V Permit ..................................................................... 3-8
  3.3 NEPA Assessments ........................................................................... 3-8
  3.4 Preservation Legislation ................................................................. 3-8
  3.5 Clean Air Act (CAA) ......................................................................... 3-8
    3.5.1 Conventional Air Pollutants .......................................................... 3-8
      3.5.1.1 Boiler Emissions .................................................................. 3-8
      3.5.1.2 Ozone-Depleting Substances .................................................. 3-9
    3.5.2 Hazardous Air Pollutants ............................................................... 3-9
      3.5.2.1 Maximum Available Control Technology ............................... 3-10
      3.5.2.2 Asbestos ........................................................................... 3-10
      3.5.2.3 Radioactive Airborne Emissions ............................................ 3-10
  3.6 Clean Water Act ............................................................................... 3-10
    3.6.1 Sewage Treatment Plant ............................................................... 3-11
      3.6.1.1 Chronic Toxicity Testing ....................................................... 3-14
    3.6.2 Recharge Basins and Stormwater .................................................. 3-14
  3.7 Safe Drinking Water Act .................................................................... 3-18
    3.7.1 Potable Water ........................................................................... 3-18
    3.7.2 Cross-Connection Control ............................................................. 3-20
    3.7.3 Underground Injection Control (UIC) ........................................... 3-20
  3.8 Preventing and Reporting Spills .......................................................... 3-20
    3.8.1 Preventing Oil Pollution and Spills .............................................. 3-20
    3.8.2 Emergency Reporting Requirements ........................................ 3-23
    3.8.3 Spills and Releases ................................................................... 3-23
3.8.4 Major Petroleum Facility (MPF) License .......................................................... 3-24
3.8.5 Chemical Bulk Storage .................................................................................... 3-24
3.8.6 County Storage Requirements ...................................................................... 3-26
3.9 RCRA Requirements .......................................................................................... 3-26
3.10 Polychlorinated Biphenyls ............................................................................... 3-27
3.11 Pesticides ......................................................................................................... 3-27
3.12 Wetlands and River Permits ............................................................................. 3-27
3.13 Protection of Wildlife ....................................................................................... 3-28
   3.13.1 Endangered Species Act ........................................................................... 3-28
   3.13.2 Migratory Bird Treaty Act ......................................................................... 3-29
   3.13.3 Bald and Golden Eagle Protection Act ....................................................... 3-29
3.14 Public Notification of Clearance of Property .................................................. 3-30
3.15 External Audits and Oversight ....................................................................... 3-30
   3.15.1 Regulatory Agency Oversight ................................................................... 3-30
   3.15.2 DOE Assessments/Inspections ................................................................ 3-30
   3.15.3 Environmental Multi-Topic Assessment .................................................... 3-30
   3.15.4 Nevada National Security Site .................................................................. 3-31
3.16 Agreements, Enforcement Actions, and Other Environmental Occurrence Reports .................................................. 3-31
References and Bibliography .................................................................................. 3-31

CHAPTER 4: AIR QUALITY
4.1 Radiological Emissions ...................................................................................... 4-1
   4.1.1 High Flux Beam Reactor ............................................................................ 4-1
   4.1.2 Brookhaven Linac Isotope Producer .......................................................... 4-2
   4.1.3 Target Processing Laboratory ................................................................... 4-3
   4.1.4 Additional Minor Sources ......................................................................... 4-3
   4.1.5 Nonpoint Radiological Emission Sources .................................................. 4-3
4.2 Facility Monitoring ............................................................................................ 4-3
4.3 Ambient Air Monitoring .................................................................................... 4-4
   4.3.1 Gross Alpha and Beta Airborne Activity .................................................... 4-4
   4.3.2 Airborne Tritium ....................................................................................... 4-4
4.4 Nonradiological Airborne Emissions ................................................................ 4-5
4.5 Greenhouse Gas Emissions .............................................................................. 4-8
References and Bibliography .................................................................................. 4-10

CHAPTER 5: WATER QUALITY
5.1 Surface Water Monitoring Program ................................................................ 5-1
5.2 Sanitary System Effluents .................................................................................. 5-2
   5.2.1 Sanitary System Effluent – Radiological Analyses ...................................... 5-3
   5.2.2 Sanitary System Effluent – Nonradiological Analyses ............................... 5-3
5.3 Process-Specific Wastewater ................................................................. 5-3
5.4 Recharge Basins .................................................................................. 5-6
  5.4.1 Recharge Basins – Radiological Analyses .................................... 5-7
  5.4.2 Recharge Basins – Nonradiological Analyses ............................. 5-7
  5.4.3 Stormwater Assessment ................................................................. 5-8
5.5 Peconic River Surveillance ................................................................. 5-9
  5.5.1 Peconic River – Radiological Analyses ...................................... 5-10
  5.5.2 Peconic River – Nonradiological Analyses ............................... 5-14
References and Bibliography .................................................................. 5-18

CHAPTER 6: NATURAL AND CULTURAL RESOURCES
6.1 Natural Resource Management Program ........................................... 6-1
  6.1.1 Identification and Mapping ........................................................... 6-1
  6.1.2 Habitat Protection and Enhancement ............................................ 6-2
    6.1.2.1 Salamander Protection Efforts .............................................. 6-2
    6.1.2.2 Banded Sunfish ................................................................. 6-3
    6.1.2.3 Migratory Birds ................................................................. 6-4
  6.1.3 Population Management ............................................................... 6-5
    6.1.3.1 Wild Turkey ....................................................................... 6-5
    6.1.3.2 White-Tailed Deer ............................................................ 6-5
  6.1.4 Compliance Assurance and Potential Impact Assessment ......... 6-6
6.2 Upton Ecological and Research Reserve ........................................... 6-6
6.3 Monitoring Flora and Fauna ............................................................... 6-6
  6.3.1 Deer Sampling ............................................................................. 6-7
    6.3.1.1 Cesium-137 in White-Tailed Deer .................................... 6-7
  6.3.2 Other Animals Sampled ............................................................... 6-11
  6.3.3 Fish Sampling ............................................................................. 6-11
    6.3.3.1 Radiological Analysis of Fish ............................................ 6-11
    6.3.3.2 Fish Population Assessment ............................................ 6-13
    6.3.3.3 Non-Radiological Analysis of Fish ................................. 6-13
  6.3.4 Aquatic Sampling ........................................................................ 6-14
    6.3.4.1 Radiological Analysis ....................................................... 6-14
  6.3.5 Peconic River Post-Cleanup Monitoring .................................... 6-14
    6.3.5.1 Sediment Sampling .......................................................... 6-15
    6.3.5.2 Water Column Sampling .................................................. 6-16
  6.3.6 Vegetation Sampling ................................................................. 6-17
    6.3.6.1 Grassy Plants and Soil ...................................................... 6-17
6.4 Other Monitoring ............................................................................. 6-17
  6.4.1 Basin Sediments ......................................................................... 6-17
