EXPLORING EARTH'S MYSTERIES  
...PROTECTING ITS FUTURE

*The 2017 Site Environmental Report*

*is dedicated to John Burke (July 10, 1964 – September 10, 2018).*

*The high quality of environmental data, development of the environmental database and user tools to track and access data, and the ability to create high-quality maps for the Environmental Protection Division and Groundwater Cleanup Program are largely due to John's determination and effort over the past 17 years.*

*His contributions to the Site Environmental Report and the cleanup program will be his enduring Brookhaven National Laboratory legacy.*

*A good friend and beloved husband and father,  
he will be missed greatly by his colleagues and family.*

The text of this book has been copied on 100% post-consumer recycled paper, a move that saves approximately 20 trees compared to using its virgin equivalent.
