TIAA Self-Directed Brokerage overview and account setup

Your guide to the enhanced brokerage program
For investors with specialized investing needs, more choice can mean more opportunity to direct retirement investments across markets and asset classes outside of your plan’s core lineup.*

The TIAA Self-Directed Brokerage account is an optional feature made available by Brookhaven Science Associates, LLC. With this account, you can direct your retirement plan contributions among a variety of investment choices beyond the ones offered through your current plan.

**A wide range of investment choices**
With your brokerage account, you can independently research and select from thousands of mutual funds, including from some well-known fund families.

**Flexibility and simplicity**
With TIAA Brokerage, there are multiple ways you can get information on your account and place orders to buy, sell or transfer investments.

- Do it all yourself by logging in to your account at TIAA.org/bnl.
- Contact a TIAA financial consultant by calling 800-927-3059 (8 a.m. to 7 p.m. ET). They can place orders or answer any brokerage questions.

Details and step-by-step instructions to open an account are on the following pages.

---

* The core lineup is monitored on a regular basis by the Brookhaven National Laboratory Retirement Committee, while the brokerage asset lineup is not.
Before you begin

There are certain requirements and important considerations if you open a TIAA Brokerage account.

- You need both a legitimate U.S. residential address and legitimate U.S. mailing address. (P.O. boxes are not acceptable as a residential address but may be used for mailing if a residential address exists.)

- You need an established retirement account in the Brookhaven Science Associates, LLC Retirement Plan for each brokerage account you want to open.

- You can establish a brokerage account by transferring the greater of $1,000 per fund or 100% of your balance in funds that have less than $1,000 from your retirement account to establish the brokerage account.

- Certain funds selected for the brokerage account may require a minimum initial investment of $250 or an amount outlined in the prospectus, whichever is greater. Additional minimums may apply for subsequent investments.

- This account is self-directed. The investments in the brokerage account are not monitored by Brookhaven Science Associates, LLC.

- There’s no minimum balance requirement, annual fee or maintenance fees for the brokerage account; however, some mutual funds do have investment minimums and may require you to cash out your balance in the fund if it falls below the minimum.¹

- Transaction fees may apply. See the Fees section for complete details.

- Returns for mutual funds and other securities are not guaranteed, and you assume all the risks associated with investing in them.

¹. These minimum fees and expenses, including those which apply to a continued investment in a fund, are described in the fund’s current prospectus.
