

JPO Application Checklist

The IAEA offers some job opportunities for young professionals under the Junior Professional Officer (JPO) program. The purpose of the JPO program is not only to give young professionals an opportunity to gain work experience in an international environment, but also to provide the IAEA with additional expertise. The JPO works as a professional staff member as part of a team and under the guidance of a senior professional in either a scientific, technical or administrative field.

The U.S. Support Program (USSP) provides funding to the IAEA for the cost of JPOs. The recruitment and administration of the program in the IAEA's Dept. of Safeguards is coordinated by the International Safeguards Project Office at Brookhaven National Laboratory.

Please complete the below checklist and submit this form with your sending your application.
