SUBJECT: National Synchrotron Light Source II included in the, Report an Assessment of Security Risk at the Brookhaven National Laboratory

Dear Ms. Stiegler,

I am writing this memorandum to confirm that the National Synchrotron Light Source II was included in our Official Use Only document titled; Report on an Assessment of Security Risk, originally dated, June 8, 2001, with a revision date of December 9, 2010.

During the next update of this document the NSLS II "NEXT/ABBIX Projects" will be included. An initial review however, does not indicate the project will pose additional risks not already determined for NSLS II.

If you have any additional questions concerning the above, please contact me at (631)344-4691.

Sincerely,

A handwritten signature in cursive script, appearing to read "Leonard J. Butera".

Leonard J. Butera
Security Operations Manager, LP
