Confirmation of closure in ATS...

Action Status:

(Closed) - Action is Closed

Action Details

Priority:

Action Number & Title: 8115.15.1 - Analyze the Survey Results to Confirm Clearances on the M Branch White-Beam Stop

Condition Number & Title: [8115.15](#) - Radiation Safety Committee Review of 7-ID (SST) Beamline

Assessment Number & Title: [8115](#) - Radiation Safety Committee (RSC) Reviews - Beamlines and Front Ends

Action Owner: Broadbent, Andrew

Action Delegate:

Carbon Copies: Ackerman, Andrew ; Benmerrouche, Mohamed ; Fischer, Daniel ; Zipper, Joseph

Distribution:

Family Name: NSLS-II

Access Status: Private

Owning Organization: PS

Description: RSC Recommendation:
We further recommend that the team analyze the survey results to confirm that the actual clearances on the M branch white-beam stop are about 1.2 mm larger than the tolerated clearance shown on the ray-tracing drawings. This should be carried out before commissioning

of the beamline.
