

Name: \_\_\_\_\_

Submit completed crosswords to the front desk during Safety Day (June 17) or send to A. Aponte, Bldg. 120 for your chance to win a safety prize!

## **Across**

1. \_\_\_\_\_ before physical activity could help reduce injuries.
3. SBMS, a BNL website that provides requirements, tools, and procedures for different types of work, stands for \_\_\_\_\_ Based Management System.
5. To prevent carpal tunnel syndrome, your wrist should remain \_\_\_\_\_ when typing.
7. Identifying \_\_\_\_\_ is a critical part of the Work Planning process.
9. \_\_\_\_\_ driving is a growing epidemic on America's roadways.
10. To use the BNL computer network, you will need \_\_\_\_\_ training.
12. Safety glasses are an example of personal \_\_\_\_\_ equipment.
14. It is important to have a \_\_\_\_\_ attitude before and while conducting work. (Hint: Ask yourself, What could go wrong?)
17. Wearing a \_\_\_\_\_ is required when biking at BNL.
18. Cut \_\_\_\_\_ gloves should be worn when handling material with sharp edges.
19. Frequently handled material should be stored between knee and \_\_\_\_\_ height.

## **Down**

1. \_\_\_\_\_, trips, and falls are one of the top three causes of injuries at BNL.
2. If you hear an \_\_\_\_\_ site siren, leave the Lab site immediately (unless it's Monday at noon).
4. Broken glass can be disposed of in a non-medical \_\_\_\_\_ container.
6. The speed limit at BNL is \_\_\_\_\_ miles per hour.
8. The National \_\_\_\_\_ Light Source II generates intense beams of x-ray, ultraviolet, and infrared light and offers an array of sophisticated imaging techniques.
11. Wearing proper \_\_\_\_\_ could help prevent slips, trips, and falls.
13. True or false: Disposable nitrile gloves are effective for cut prevention.
15. A new training tool at the Lab to help prevent slips, trips and falls is the Slip \_\_\_\_\_.
16. To avoid ticks, you should not walk in tall \_\_\_\_\_.
