DOE N 456.1 – Nanosafety Notice

February 12, 2009
Carol Parnell
CAC Meeting
Outline

- Introduction
- Status – DOE Oversight Reviews
- Requirements of DOE Notice 456.1
- BNL Position
Activities - 2008

- Five Nanoscale Science Research Centers (NSRC)
  - Developed guidelines for nanosafety – Revisions 2 and 3
- National Laboratory Directors Council (NLDC) agreed to comply
Activities - 2008

- DOE HSS audited for implementation effectiveness
- BNL did well – with room for improvement
Activities - 2008

- DOE and NLDC partnered to develop Notice 456.1 – Nanosafety Requirements
- BNL led team of 17 subject matter experts across all labs to draft language
- DOE partnered with laboratories – final Notice issued January 5, 2009
DOE N 456.1 – Nanosafety Notice

- Collaborative effort - Deputy Directors of Science; National Laboratory Directors Council, 17 Labs, Office of Science, HSS
- Approved 1-5-09 and expires 1-5-10
- Compliance required within 60 days of incorporation into contract
- BHSO required to confirm BNL’s compliance

DDS Leadership Was Essential For Successful Outcome
DOE N 456.1 – Our Obligations

- Maintain registry of nanomaterial workers
- Maintain electronic inventory of activities involving nanoparticle research
- Provide BHSO an annual review of activities involving nanoparticle research
- Include requirements in site safeguards and security plans, facility security plans, and emergency management programs
DOE N 456.1 – Specific Requirements

- Training for nanoworkers and their supervisors – *Improved and ready*
- Controls to ensure personnel are not exposed – *In place*
- Medical Surveillance – Offer a baseline medical exam - *BNL mandates*
- Labeling and transportation requirements - *In place*
- Waste disposal tracking - *In place*

- Expect HSS audit in April/June
