

summer sundays

Atom-Smashing Fun // July 31, 2016

11:00 a.m.

TALK: "Discovery of the Higgs Boson: An Update" presented by Howard Gordon, ATLAS Collaboration Deputy Chair and Deputy Chair of BNL Physics Department

Physics Large Seminar Room, Bldg 510 – 1 hour
Meet Talk Escort near main desk.

12:00 noon

SHOW: Phenomenal Physics

Berkner Hall Auditorium – 1 hour
Doors open 15 minutes before show time.
Be sure to arrive early as the auditorium fills quickly!

12:30 p.m.

All-day Events

FACILITY VISIT*:

Visit the only particle collider in the U.S., where physicists study what the universe may have looked like in the first few moments after its birth.

*Appropriate for ages 10 and over

All visits start at Berkner Hall; must attend introduction in Berkner Hall Room B to get bus ticket; last facility visit begins at 3 p.m.

STUMP THE PHYSICIST:

Have questions about energy, physics or our RHIC facility? Ask a physicist! Berkner Hall – Room C.

HANDS-ON SCIENCE FUN!

Our physicists and engineers are ready to share some hands on demonstrations about electricity and magnets—come check them out!

All day in Berkner Lobby.
