

## Draft Agenda

Link to ATLAS Agenda for the Plenary Meeting  
<http://documents.cern.ch/age?a00376>

( this will be updated as the meeting approaches )

### Saturday, June 2

Arrivals and reception – Brookhaven Center

### Sunday, June 3

Free for systems and activity meetings

Technical Coordination Integration meetings

Heavy Ion physics mini-workshop

### Monday, June 4 - All Plenary Meetings in Berkner Hall

	<u>Welcome and introduction session</u>	
9:00	Welcome to the BNL ATLAS Week Organization of the BNL ATLAS Week	J. Marburger H. Gordon
9:15	Introduction and general matters, main goals of the ATLAS Overview Week	P. Jenni
9:45	The LHC project status, schedule and the experimental area	To be announced
10:15	--- coffee ---	
	<u>Technical Coordination activities</u>	
10:45	Technical Coordination activities, including envelopes, access, schedules, safety	To be announced

12:30 --- lunch ---  
  
Trigger, DAQ, and DCS session  
14:00 (session to be planned by TDAQ)  
15:50 --- tea ---  
  
Computing  
16:20 (session to be planned by Computing)  
  
CB matters  
18:00 (session to be planned by CB Chair)  
18:30 --- end of the working day ---

Welcome reception

## Tuesday, June 5

Inner Detector session  
9:00 (session to be planned by Inner Detector)  
10:30 --- coffee ---  
11:00 (continuation of Inner Detector, general issues)  
  
Services routing  
11:40 (session to be planned by Technical Coordination)  
12:30 --- lunch ---

Magnet system status  
14:00 (session to be planned by the magnet project)

BNL Host Laboratory  
15:20 BNL as host laboratory, short presentation  
of its general activities  
15:40 --- tea ---

To be announced

Laboratory tour  
16:00 (tours to be organized by Howard)  
18:30 --- end of the visits ---

Dinner and concert – Berkner Hall

## Wednesday, June 6

Muon Spectrometer  
9:00 (session to be planned by Muons)  
11:00 --- coffee ---

Electronics Coordination  
11:30 (session to be planned by Electronics Coordination)  
12:30 --- lunch ---

Physics Performance and Potential  
14:00 (session to be planned by Physics Coordination)

16:00 --- tea ---  
16:30 (continuation of the session, including luminosity, HI etc)  
18:15 --- end of the working day ---

Clam Bake at BNL Center

### Thursday, June 7

Outreach  
9:00 (session to be planned by outreach working group)

Radiation and shielding  
9:45 (session to be planned by Radiation Task Force)  
10:45 --- coffee ---

Initial detector configuration installation  
11:15 (session to be planned by TC and ATLAS management)  
12:30 --- lunch ---

LAr Calorimetry  
14:00 (session part I to be planned by LAr)  
15:45 --- tea ---  
16:15 (session part II, including cryostats and cryogenics, to be planned by LAr)

Tile Calorimetry  
16:45 (session to be planned by Tiles)

Conclusions and farewell  
18:00 (session to be planned by ATLAS management)  
18:15 --- end of the working day ---

19:30 OUTREACH

### Friday, June 8

Collaboration Board meeting  
9:00 (session to be planned separately)  
12:30 --- end of the BNL Overview ATLAS Week ---

**DEPARTURES**
