2002 NSLS Users' Meeting

Sponsors

On behalf of the 2002 NSLS Annual Users' Meeting and Workshops Committee, we would like to take this opportunity to announce the upcoming meeting which is to be held May 20-22, 2002.

The meeting is a forum for reporting new research results and advances in experimental capabilities that utilize synchrotron radiation. The NSLS community includes both scientists who use the NSLS to supplement a laboratory-based research program and those whose programs are based at one or more NSLS beamlines. The meeting brings together hundreds of scientists from many diverse disciplines to share their recent accomplishments and visions of the future.

We are inviting companies and organizations to be sponsors of this year's meeting. As a sponsor, you have high visibility with identification in the Meeting Program distributed to all attendees, on display signs throughout the facilities, in frequent conference announcements, and on our meeting website. We suggest \$1000 as the minimum sponsorship.

This year we have increased the budget for workshop invited speakers substantially and your support is very important and appreciated.

Sincerely,

Dan Fischer

For information about becoming a sponsor, please contact Dan Fischer, National Institute of Standards & Technology (NIST) at (631) 344-5177 or (631) 344-5507.

2002 Meeting Sponsors

The NSLS Users' Executive Committee thanks the following agencies, corporate entities and individuals for their generous support and sponsorship of the 2002 NSLS Users' Meeting:
